

- Diefenbach's** method of restoration of mouth, 499
operation on upper lip, by vertical flaps, 500
- Digits**, reunion of severed, 78
superumerary, 78
treatment of, 78
- Diplegia**, cerebral, tendon transplantation in, 108
- Diplopia** after operations on frontal sinuses, 417
- Dissection**, subcutaneous, in treatment of naevi, 404
- Dislocation** of fingers, reduction of, 69
of hip, congenital, 827
operative interference in, 826
of humerus, 211
of thumb, reduction of, 69
- Dissectors** and spatula combined, used by Sir V. Horsley, 320
- Distance** sutures for tendon lengthening, 100
- Diverticulum** of the oesophagus, 653, 655
- Dorrance's** method of arteriorrhaphy, 50
of end-to-end anastomosis of vessels, 53
of suture of vessels, 52
- Dorsalis** pedis, ligature of, 930
- Doyen's** guarded chisel for operations on brain, 314
guarded saw for operations on brain, 314
perforator and burr for operations on brain, 316
rid raspatory, 769
- Drainage** in operations on wrist, 117
in wounds of heart, 801
methods of, 24
through nose, 433
- Drainage-tubes**, materials for, 25
- Dressings**, after operation for malignant disease of breast, 747
infection by, 14
preparation of, 21
- Drug** habits, 4
- Dubreuil's** amputation, 123
- Dupuytren's** contraction, 82
fracture, 923
- Dura** mater, growths of, 245
pus between skull and, 259
- Durham's** cleft palate needles, 508
- Dyspnoea** complicating embolism, 33
complicating goitre, 610
tracheotomy in, 581
- Ear**, external, operations on, 330
foreign bodies in, 330
operations on, 330
- Ear** trouble, complicating amputation of tonsils, 178
- Echondromata**, removal of upper jaw for, 422
- Effusions**, paracentesis in, 761
- Elastic** compression controlling haemorrhage during amputation of hip joint, 805
- Elbow**, ligature of brachial artery at bend of, 608
- Elbow-joint**, amputation at, 142
by antero-internal flap, 142
by circular method, 144
by long anterior and short posterior flaps, 143
- Elbow-joint**, amputation at, by one lateral flap or by lateral skin flaps, 144
by short postero-external flap, 142
practical points, 142
ankylosis of, 147
arthritis of, 148
arthrotomy for opening, 146, 166
erosion of, 160
after treatment of operation, 162
operation for, 160
excision of, 145
age and, 148
caries following, 160
complications, 149
Esmarch's wire splint for, 154
flail-like joint following, 160
for recent injury and its result, 145
for tuberculous disease, 145
indications for, 145
injury to ulnar nerve during, 160
Ollier's method by a bayonet-shaped incision, 156
operation, 150
other methods, 156
partial, 158
practical points, 145
preservation of periosteum and, 149
repeated, 155
results, 160
sequelae, 160
site of bone section, 151
forcible movement under anaesthetic, 146
gun-shot wounds of, treatment, 157
incision of, Kocher's modification of Ollier's method, 157
old injuries to, excision for, 146
operations in neighbourhood of, 142
osteo-arthritis of, 148
- Electrolysis** in treatment of naevi, 402
- Elephantiasis** of leg, ligature of superficial femoral for, 840
- Embolism** after operations, 32
- Emphysema**, complicating after treatment of tracheotomy, 574
- Empyema**, 760, 763
anaesthetic in, 765
complications of, 768
conditions contra-indicating operation, 775
operation risks in, 78
resection of ribs in, 769
treatment of, 763
by incision, 765
results of abscess, 766
simple puncture with aspirator or fine trocar, 763
- Endo-aneurysmorrhaphy**, 83
- Enemata**, adjuvant treatment of, 70, 11
- Epilepsy**, excision of cortex in, 277, 324
traumatic, cause of failure after trephining, 279
trephining for, 272
operation of, 276
results of operation, 272
- Epiphyses**, lower of humerus, rare union of, 146
of radius, separation of, 120
of humerus, separation of, 165
