Second Drop Within Week—World's Crop a Record One. Wholesale quotations for refined sugar in Toronto were lowered 10 cents all round yesterday, this being the second drop in the price of the commodity in less than a week. The declining tendency in the sugar market is explained by reason of the fact that the world's visible supply of the commodity is much in excess of what had	most extensively in demand by the labor- ing classes, who are clamoring for lower prices in the necessaries of life. The gov- structure investigations into the affairs of the "Beef Trust" of late have been prominently set forth in the United States bulls, ally and weekly papers.
