Repairing His Diminished Assets

(Special Cable to The World). LONDON, June 19 .- In the midst of the pro and adverse com-

ments on the attitude of Sir Wilfrid Laurier in connection with the imperial conference and reciprocity, the following opinion of a former Canadian, high in parliamentary circles, comes with some force: "It looks as if Laurier and Ward were captured by the government here to support the Declaration of London, which should truly be defined as the 'Declaration against London,' by a promise of some-thing that has not yet transpired, but which is intended to be carried back as a bribe to the electors in Canada and New Zealand in order to return the aforesaid gentlemen to power. Laurier is bound to repair his diminished assets if he can, and what he wants is something of the boom character, with which to fascinate the imagination of the people, such as material advantages carrying the stamp of imperialism. The bribe, I think, will take the shape of a subvention of a steamship line between Great Britain and Canada, and another be-

monwealth to join in the scheme. A corresponding subvention might be made to the Cape lines. Once the door was barred, bolted and banged in the faces of the self-governing new nations, it always appeared to me that the only escape, such as it is, from that false position, was to grant material aid in the form of subventions to the lines of transportation at sea and the cable and telegraph lines communicating therewith in the form of reduced rates per word for transmitting messages. This would let the government down and hoist Laurier up at the expense of the tax-

tween Canada and the far east, or, more probably, between Canada

and New Zealand, with the possibility of getting Fisher of the com-

NIAGARA-ON-THE-LAKE, June 19. -(Special.)—The problem of securing men has greatly bothered the recruitng officers of the various rural corps training in the second military camp,

which opened to-day.
The 37th Haldimand Rifles, hitherto one of the strongest regiments in camp, have found especial difficulty in securing men. Haying commences in Haldi-mand County long before July 1, and as a result the young farmers do not care to leave their hay crops for a week to attend the camp. A Great Crop Expected MONTREAL, June 19 .-

Mr. Charles M. Hays, president of the Grand Trunk Railway, has returned from the west, where he has been inspecting the route of the Grand Trunk Pacific and crops adjacent in general.

He said that the prospects of this year's crop were distinctly favorable, and everything presented an exceptionally good appearance. With regard to the estimate of 200,000,000 bushels, he considered that strictly conservative, and believed it would be exceeded, if anything.

WINNIPEG, June 19 .-Prof. Thomas Shaw of North Dakota, the wellknown grain expert, who has taken a trip thru the prairie west, stated that he thought William Whyte's estimate of 200,000,000 bushels very conservative.

Republican Opposition in U. S. Senate to Reciprocity-No Adjournment Till Free List Bill Is Dealt With.

WASHINGTON, June 19.-Republican opposition to the Canadian reciprocity bill in the senate reached the stage of open revolt to-day. Led by Senator Dixon of Montana, who again failed in his demand for an explanation or a speech in favor of the bill from some of the Republican leaders who champion the measure, the Republican opponents declared that if the bill passed, many Republicans would join the Democrats in an attempt to lower the duties on all manufactured products.

"When the cornerstone is pulled out of the system of protective tariff," said Senator Dixon; "when the farmsaid Senator Dixon; "when the farmers' products are thrown into a free market while his purchases continue to be protected, there are many good protectionists in the Republican ranks here who will vote to have the duties pulled down on iron and steel chemicals, cotton, and many other things."

Other northwestern Republicans signifiled by their approval of the Montana senator's words that the passage of the reciprocity bill, which it is admitted will have a majority of the votes in the senate, will be attended with a fight that threatens to throw open the whole tariff subject.

"We want to make one killing," declared Senator Crawford of South Dakota. "We find the senators from Pennsylvania, New York, Connecticut, Massachusetts and Maine, states that have alway reepacedly reaped the great est harvest of protection, advocating this measure that proposes to put on the free list every single article raised by the northwest. I want to deal with this matter in its entirety.
