OF

## New Carpets, Rugs, Draperies, Etc.

OUR AUTUMN ASSORTMENTS are now about complete. For weeks back huge consignments of Rugs, Carpets, Furniture, Linoleums, Drapery Materials, and the thousand and one other items that go to make up the stocks of this great furnishing store have been pouring in, and they are now arrayed on our floor ready for the inspection of home-makers, and, indeed, of all who take an interest in artistic and beautiful furnishings.

### Carpets and Rugs.

The choosing of Carpets is one of the most important items in the furnishing of a home, for if the floor covering of a room does not harmonize in design and coloring with the decorations, or is unsuitable in make or texture, the general effect is displeasing, no matter how costly the furniture or furnishings may be. Our customers are well insured against mistakes of this kind, for our carpets and rugs are designed each year in harmony with the season's productions in draperies and decorative materials, and our importations are so immense, both in quantity and in variety of design and coloring that we are able to match almost any scheme of decoration and to fill the largest of orders from stock.

In the list below we make brief mention of some noted lines and unusual values:

### Oriental Rugs.

The high regard in which these matchless fabrics from the East are held is well described in the extract here given from a noted book on Oriental Rugs:

"It was 300 years ago that the 'Turkish Carpet' looms were first set up in France, then leader in every art. Year after year through the intervening centuries spinners have spun and dyers mixed their dyes, and weavers have labored patiently at the loom in many lands. The iron age has contrived machinery to do the work of myriad fingers and to the flying wheels, in hope to conquer the judgment and favor of the world, and still the dusky weavers of Daghestan, Kurina, Shena, Kurdistan and Tabriz are knitting before their rude frames the most splendid fabrics on the globe, and the Occident, in its hand, waits upon their weaving."

Our stock of Eastern rugs, always very large, has just been reinforced by a consignment selected this summer by our travelling buyer. It includes a splendid assortment of such famous makes as—

### HOT AFTER THE BOOZEMEN ECHOES FROM THE W.C.T.U.

Notions About Licenses Freely Exploited—Not Enamored With the Exhibition Midway.

At yesterday's meeting of the Toronto W. C. T. U. Mrs. Vance read a paper on Women's Suffrage. She hoped it would be granted to married women. Reports showing good work in the several branches were read during the forenoon. Resolutions were passed during the afternoon. One was to the effect that the union stood unalterably firm for the prohibition of the liquor traffic and the prohibition of the public-house trust was opposed to the public-house trust scheme and any other form of government control. They pledged themselves to do all in their power to bring the subject of local option prominently before the people. The government was commended for the public-house trust under construction in that district. The Midway at the Toronto Exhibition was condemned as an unnecessary attraction and a disgrace to "our moral department," and a menace to the morals of the children and young people who attended. The union resolved to co-operate with the ministers of the public conscience in the direction. It was resolved to revive activity in obtaining signatures for total abstinence.

### HEARD ASSESSMENT APPEALS.

Judgment Delivered in Several Cases Involving Large Amounts.

Judge Winchester, as county judge, yesterday received appeal cases against assessment which had sifted thru the court of revision. In but a few instances judgment was given. John Macdonald & Co., East Wellington-street, desired a cut in the total assessment levied upon their premises of \$104,000. It was claimed that the warehouse which was assessed for \$57,600 was only worth \$45,000. The appeal was dismissed. The case of the one and two-fifths acres on Avondale-avenue, owned by Isaac Moody, was a rather complicated one. The original assessment was at \$2000 an acre, but this the assessment department later sought to have increased to \$4000 for the whole property. The court of revision refused to tack on the added amount, but Judge Winchester raised the levy to \$3000 per acre. The property owned by the John Macdonald estate, on Avenue-road, valued by the city at \$24,000, was reduced to \$25,000. The appeal of the assessment commission against the action of the court of revision in allowing exemption to the railway Y.M.C.A. building was sustained. Judge Winchester gave judgment in a number of assessment appeals against their assessment for poles, ties and rails in wards 2, 3, and 4, was dismissed. The W. C. T. U. home on Elm-street will be exempt from taxation on the ground that it is a charitable institution. The Victorian Order of Nurses Home on Spadina-avenue assessed under the same head and is assessed at \$1000. The club on William-street is a club composed of the boys of St. Patrick's Church under the control of the clergy and so it is exempt.

### DISCUSSED TRADE RELATIONS.

Sanquet to Visiting Agricultural Manufacturers a Pleasant Affair.

The banquet tendered the visiting members of the National Association of Agricultural and Vehicle Manufacturers at the King Edward last night had as its toastmaster President W. K. George of the C. M. A. The lieutenant-governor was also present and spoke words of welcome to the visitors, who have been holding their annual convention at Niagara Falls. There were about 400 in the party, including wives and families, who left early this morning for their homes.

Byron E. Walker, who proposed the toast "Our Commercial Relations," referred to the improvement in agricultural machines as being largely responsible for the advanced industrial conditions. There was no hostility towards reciprocity with the United States, but Canada was not prepared to open a market of 6,000,000 people to one of 80,000,000 that was not open to Canada. He understood that the United States had not been expected to change its policy for a 6,000,000 market, but he thought the republic would soon have to look to Canada for raw material that would keep up its foreign trade.

The toast was responded to by H. E. Miles of Racine, Wis., who said he did not think there was any great aversion to the United States in either the United States or Canada, but they did need closer social and commercial relations.

C. F. Huhlen, Louisville, Ky., newly elected president of the association, also spoke.

### Western Washington

With its vast bodies of timber, affords ample opportunity for the establishment of lumber and shingle mills. The soil is exceedingly productive, and fruit, grain and vegetables grow in great abundance. These find a ready market in the lumber camps, the larger cities and the Alaska trade. Government timber can still be secured, while cut-over lands, suitable for dairying and truck gardening, can be purchased at reasonable prices along the line of the Seattle and International Railway.

Bank books also found by the detectives show total deposits of nearly \$3000 in local savings banks. The loot is believed by the police to be worth about \$3000, and to cover a period of fifteen years.
