The elections were the first under The elections were the first under the new law giving equal and universal suffrage, a reform brought about after a protracted struggle. Even more important than this is the change which the law brings about in the political strength of the various mixed races—Germans, Czechs, Bohamians, Poles, italians, Ruthenians—making up Austria's population.

Adopt Conservative Policy. Conservatives are smilting broadly at the effort of the Liberal party to make this scheme appear as an element in their policy. They point out that it is simply the project of the C. P. R. adrolltly turned to party purposes: That company has already set in motion an all-red service, the success of which has made immense development a certainty. The British government has already a mail contract with the C. P. R., and presumably if the giving of a subsidy is determined upon, it would be given to develop the existing route.

LONDON, May 19.—The speeches of Deakin, Lyne and Jameson since the termination of the conference are keenly criticized by the Radical press.

The government not only banged the door against the imperial taxation of food, but locked, barred and boited it. The Liberal party stood like a rock between the hard-working masses and all who would exploit their food supply to squeeze some shameful profit out of a scanty pittance of the weak and poor.
