'Bradstreet's reports decrease of wheat this week 800,000, compared to decrease 1,-

The weekly government weather reports say rain is badly needed in Texas and Oklahoma.

CHICAGO.—Wheat—Heavy rains have done further damage to winter wheat in Kansas, and elevator people say there is little prospect of early increase in movement. Situation is strong enough to suggest buying on breaks.

Short Crop.

G. Harbner of Tamworth, writing to W. Hannah of the Toronto Board of Trade under date of July 28, says; In answer to your card, I must say crops are very light. Barley about half a crop; hay about the same. Oats and peas are below the average and also tye. Fall wheat was about all winter killed and spring wheat is below the average. Sheffield has not feed enough for half the cattle and horses in the township.

More Trouble for Crops. WINDSOR, July 50.—A species of the army worm has appeared in the southern part of the country and is doing considerable damage. It has attacked peas, tomatoes, tobacco and is particularly fond of clover. One farmer plowed up a field of oats that was ruined. Others have had tobacco fields entirely stripped and acres of peas have disappeared in a night. The pest gets in its fine work after dark.

ter dark.

An expert from the Guelph Agricultural College came up and issued instructions how to fight the grub. He found that the pest devours almost any kind of green plant and will climb trees and eat the foliage. During the night it hides itself half an inch or so under the soil. He advises the farmers to plow furrows around their fields and dig holes about 12 feet apart. The caterpillars will fall into the holes and may be scalded to

Chicago Gossip.

Marshall, Spader & Co. wired J. G. Beaty at the close:

The wheat market to-day has been a small affair comparatively, but prices have covered a fairly wide range. The black rust reports from the northwest have continued to pour in, but no further attention is being paid to this class of reports particularly as they are not backed up by any northwest buying. The pit crowd are all bearish and were free sellers to-day, while most of the buying on the decline came from commission houses. Acceptances of country bids were light, and it is believed that farmers are binning their wheat and holding it for higher prices. We articipate nothing more than a good traders' market for the present.

Ennis & Stoppani wired to J. L. Mitchell:

Wheat After a fractional advence at

The news for the most part seemed to be of a bearish character, the southwest movement showing an increase, ideal weather in northwest, further decline at Liverpool and small demand for cash wheat. Advices from the northwest, however, while not claiming damage due to black rust, generally conceded that at the best this year's harvest will be a small one, the crop being very spotted and hard to estimate. We re-affirm our belief in the wisdom of purchasing on all small declines.

Corn and Oats—Ruled slightly lower, but thrucut most of the session was very dull, especially corn. Some unfavorable reports on oats were received, which inreports on oats were received, which in-dicated that where threshing was in progress returns were disappointing. We believe present prices are low enough.

Bell:

Wheat—After a fractional advance at the opening and until the last half hour of trading, prices ruled lower. The market at no time could be called weak and just before the close there was a sharp rally of a full cent on good buying by large interest and commission houses. The news for the most part seemed to be of a bearish character, the southwest burg of the north.

OTHER STOCKS LOWERED BY NIPISSING DEGLINE

Traders at New York Use Pressure on Foster, But Little Stock is Forced.

Tuesday Evening, July 30.
The downfall of Nipissing was without influence on other Cobalt shares yesterday, but its effect was felt in today's market. Nipissing under fur-ther pressure at New York made another low level this morning by selling down to 7 7-8. At this point the pressure of stock was removed and quotations moved up a fraction at the close. The attack on Nipissing was accepted by New York curb brokers as an invitation to try and scale down other Cobalts and Foster was signaled out. This issue declined several points from yesterday on what is presumed to have been short selling, but the amount of stock forced out on the decline was insignificant. In the local markets trading was inactive, but Foster, Trethewey and Scotia were all lowered in price. Ae the close of the market little stock was offered for sale, but the demand is too limited at present to about the defining of those attempts. CHICAGO, July 30.—Cattle — Receipts, about 3500; market steady; common to prime steers, \$4.50 to \$7.35; cows, \$3 to \$5.25; helfers, \$3 to \$5.50; bulls, \$2.80 to \$5; helfers, \$3 to \$7.25; stockers and feeders. \$3 to \$5. Hogs—Receipts, about 14,000; market little stock was offered for sale, but the demand is too limited at present to absorb the offerings of those attempting to depress prices.

Ore Almost Pure Gold. LEADVILLE, Col., July 29.—Ore of a grade so nearly pure gold that state history records nothing to approach it has been discovered on the tenth level of the Little Johnny mine at Leadville within the last few days, and when the assays are completed it is asserted that the figures will show a mineral that the figures will show a mineral wealth almost beyond credibility.
