Their Plan May Better the Condition of Our Streets.

LEGISLATION WILL BE GOT

To Stop People From Petitioning Against Necessary Improvements.

This Has Been the Cause of All the Trouble Assessing for Repairs to Rondways and Sidewalks - City Hall Notes.

the present Mayor in favor of the aboli of the local improvement system has recrived an effective quietus. This was plainly apparent at the meeting of the spe ial Committee on Local Improvements yes- An Act to be Passed Which Will Deprive terday afternoon. Not one of the eight aldermen on the committee spoke in favor of any such radical change, but on the conthe local improvement was the proper sysem of carrying on works.

One of the main objections to the system, removed by the committee's recommendation yesterday, however, has lain in the powers of the lateral epayers to prevent by lection increasity improvements. The result has been that because of their refusal to meet their share of the cost of construction 278 streets of the cost of construction 278 streets of guaranteed and action towards repairing or guaranteed and action towards repairing or repairing the provision is that the informer shall get half the penalty, and his costs in each case, and it is the Government's intention to introduce legislation depriving Mr. Bowker of the costs in the actions, on the ground of wholesafe litigation. The legislution will be retroactive, and Mr. Bowker stands to lose both penalties and costs.

Peston moved in July last this resolution:

"That application be made at the next sees on of the legislative assembly for the necessary legislative assembly for the necessary legislation to authorize the City Counci, on the recommendation of the City Engineer, to construct an ordanary or standard pavement of an uniform character on any street of the city where the said reconstruction shall have been reported as necessary in the public interest by the City Engineer; that the cot of the pavement therein shall be a charge upon the properties benefited, according to the assessed value of the said properties, under the terms and conditions of the present local improvement by-law, and that during the lifetime of a pavement (which shall be determined by the City Engineer with the approval of the City Engineer with the approval of the City Council), all extraordinary repairs shall be made as a local improvement; and, further, that the Mayor be empowered to sign, at the request of the City Council, for or against the construction of any local improvement work, such signature and the proportion of the cost of the improvement to be borne by the city to be taken into consideration in determining whether such pertition is sufficiently or insufficiently signed."

It was this proposal to give the city

gineer to report as to whether the property concerned could stand the assessment the Engineer would impose. The suggestion s ruck the committee favorably, but the commissioner left the room and no action

Opposed to Slaw's Ideas.

gers and eight sacks of letter mail.

Ald. Scott, however, would include repairing streets in the local improvement system if that system were to be maintained.

Street Commissioner Jones, asked for his opinion, gave it unqualifiedly in favor of taxing ratepayers ever afterwards for repairing streets they had had put down.
Engineer Rust was also heard and Dr. Engineer Rust was also heard and Engineer for the Massey-Harris Company, and had a rough experience in the night's storm. The value eligible of the Massey-Harris Company, and had a rough experience in the night's storm. The value eligible of the Massey-Harris Company, and had a rough experience in the night's storm. He would let each limit on assessment. He would let each limit on assessment. He would let each limit on assessment. He would rever were william Ward, Frank Ward, John Gray, Hector McDonald, John Kennedy.

The Preston Amendments.

The latter part of the session was taken up with discussions on amendments by Ald. Preston, both of which carried. So that the amended resolution will be sent on to Council in the following form:

"That application be made at the next session of the Legislative Assembly for t

The Preston Amendments.

The latter part of the session was taken up with discussions on amendments by Ald. Preston, both of which carried. So that the amended resolution will be sent on to Council in the following form:

"That application be made at the next session of the Legislative Assembly for the necessary legislation to authorize the City Council (by a two-thirds vote) on the recommendation of the City Engineer to construct a suitable pavement or sidewalk of a uniform character on any street of the city where the said reconstruction shall have been reported by statutory declaration as necessary in the public interest by the City Engineer, that the cost of the pavement therein shall be a charge upon the properties benefited according to the assessed value of the said properties under the terms and conditions of the present local improvement bylaw, but that the ratepayers interested therein shall be entitled by a fully-signed petition presented

with'n 30 days from the adoption by the Council of the recommendation of the Engineer to change the character of the pavement or sidewalk, and that in the cursideration of the question a report shall be presented to the Coun-cil by the priper officer as to the possi-ble effect of the proposed local im-provement in the value of the property in question."

Costs of Repairs.

The second part of the resolution envolving the paym nt of costs of repairs occasi ned a long d scussion. The suggestion in the original resolution was aftered to read:

"That during the lifetime of a pavement or sidewalk, which shall be determined by the City Engineer with the approval of the City Council, all repairs shall be made as a local improvement and the Engineer shall in his estimate for the cost of construction of the pavement or sidewalk add an approximate estimate for annual repairs and that the said amount shall form a part of the issue of the debentures for the work."

"Major's Powers."

Mayor's Powers.

The last clause, embodying the Mayor's signatory powers, was amended to read:

"That the Mayor be empowered to sign at the request of the City Council by a two-thirds vote for or against the construction of any local improvement work, such signature not to be estimated at a great r preportion than one-fourth of the total cost of the work, and that the proposition on the aforesaid basis of the cost of the improvement to be borne by the city be taken into consideration in determining whether such petition is sufficiently or insufficiently signed."

THIS WILL HOODOO BOWKER.

DEFIES THE AUTHORITIES

A Case at Powassan, Ont., in Which the Attorney General Has Been

Asked to Interfere. Powassan, Nov. 9.—(Special.)—About five pounds (avoirdupols) of gold six weeks ago one Haggerty was brought before a local magistrate here, charged with using threatening language to-

Ald. Hubbard suggested that a two-third majority of the Council be required to ratify the Engineer's recommendation. This was embodied in the resolution.

Assessment. Commissioner Fleming concurred in the idea, but suggested that some by should be associated with the Engineer to report as to whether the property concerned could stand the associant th

ROUTE TO THE YUKON.

A Company at Seattle Which Proposes to Put on a Large Number of Steamers and Barges.

Opposed to Staw's Ideas.

Chairman Saunders of the Board of Works believed that the idea of the abolition of the local improvement system could be safely set aside. He pointed out that there were now in the city some 278 streets the life of whose parements had expired inventy-five of this se had been that wars a rec 1802. 24 more since 1804 met improvements were 1804. Lamb's Ideas.

Aid. Lamb's Ideas.

Ald. Preston was disposed to go even further along the lines of the local improvement plincipal than the previous speakers. He would involve sidewalks in local improvement charges and would have a general tax along each street levied to pay for the improvements as well as the repairs on that street.

Controller Graham objected to having repairs charged as a local improvement.

A sensible Remark.

Ald. Cran- advocated some system of repair distribution. It was unfair to people of the city who had paid for an expensive pavement requiring no repairs being taxed for the repairing of inexpensive pavements.

Ald. Scott, however, would include repairing streets in the local improvement system if that system were to be maintained.

Official Declaration

MAILS FOR DAWSON.

Canadian Police are in Charge and Dog Teams are Used From Dyca.

Portland, Ore., Nov. 9.—F. W. Vaill., assistant superintendent of the railway mail service, has received a letter from Dyca, stating that a party started Oct. 22 with 300 pounds of late mail for lawson. The Canadian police were in charge of the mail, and it is drawn by dog teams.

The steamer Elder arrived here last might from Skaguay with thirty passengers and eight sacks of letter mail.

THE SEALING CONFERENCE

Sir Wilfrid Laurier and His Colleagues are in Washington-All the Parties Getting Ready for Work.

Washington, Nov. 9.-General Foster and Sir Julian Pauncefote conferred today as to the arrangements for the meeting of British, Canadian and American representatives relative to Behring Sen.

A general understanding was reached that the arrival to-day of Sir Wilfrid Laurier, the Canadian Premier, and party, would permit the meeting to open on Thursday, as to-morrow is likely to be given to an exchange of views between the Canadians and British. The British Ambassador will accompany the Premier to the White House to-morrow morning and introduce him to the President.

The British Embassy has extended an invitation to Sir Wilfrid to be a guest during his stay here, but he has determined to remain with the other Canadian representatives at the Shoreham, where quarters have been engaged.

A tompartson of Notes. representatives relative to Behring Sea.

dian representatives at the Shoreham, where quarters have been engaged.

A comparison of Notes.

It is now definitely settled that the coming meeting will take a much broader scope than was first anticipated. At the outset there will be a comparison of notes between the seal experts, Mr. Hamlin for the United States. Prof. Thompson for Great Britain and Prof. Macoun for Canada. The Canadian Premier and Sir Louis Davies, Sir Julian Pauncefote and General Foster will be present in an unofficial capacity, ready to take up the larger phases of the question when the seal experts have concluded their exchange of technical information. It is said that the relations existing between Great Britain and Canada make it essential that all questions of an Imperial character should be concluded by the direct representatives of the Imperial Government. At the same time the presence of the Canadian Premier is expected to assist in reaching speedy conclusions, without the usual delays of acting through the British Foreign Office. The formal execution of these conclusions would devolve entirely on the Imperial authorities in London and their representative here, the British Ambassador.

FROM THE HAMMOND REEF.

Result of the First Clean Up Shows a Gold Brick Weighing Five Pounds.

The officials of the Hammond Reef Gold Mining Company vesterday announced the result of their first clean up. From 259 tons of ore run through the ten-stamp mi caught on the plates.

The brick, which has every appearance of "fineness," has been sent to the United States mint, and until word is received with using threatening language towards a man named Dennis Hanrahan. A fine of \$10 and costs was imposed and Haggerty was bound over to keep the peace for a year and furnish sureties in the sum of \$500. He refuses to either the sum of \$500 in the magistrate either cannot or will not have him arrested. The papers were given to a special constable, there being no one in regular authority, but the special constable absolutely refuses to arrest Haggerty. Hanrahan is mortally afraid of Haggerty, and is in constant dread that some of his threats will be gout in execution. It is understood that the matter has been brought to the notice of the Attorney-General.

Deputy Attorney-General.

October 10 and costs was imposed and from that institution the exact value of the bar cannot be stated. Roughly speaking, though, the black set mant, and until word is received from that institution the exact value of the bar cannot be stated. Roughly speaking, though, the black set mant, and until word is received from that institution the exact value of the bar cannot be stated. Roughly speaking, though, the black set mant, and until word is received from that institution the exact value of the bar cannot be stated. Roughly speaking, though, the bar cannot be stated. Roughly speaking, though, the bar cannot be stated. Roughly speaking, though, the bar cannot on the plates. To this has to be added something like \$1 per ton. With such a value the liammond Reef is a gigantic proposition, for the deposit is from 50 to 100 feet wide, and the ore can be mined and carried to the stock pile at less than 50 cents per ton.

The director wet yesterday in Toronto to consider the proposition, for the deposit is from 50 to 100 feet wide, and the ore can be mined and carried to the stock pile at less than 50 cents per ton.

The director wet is to the bar cannot

HAMILTON & CO.,

Birds' hearts.

Fatty degeneration is often the cause of death with birds. As with men and women, it is generally brought on by wrong diet. Cottams Seed furnishes no more fat constituents than can be profitably appropriated. It produces healthy muscular tissue. [117] NOTICE "BART. COTTAM & CO. JONDON, on label. Contents, manufactured under 6 patents, sell separately—BIRD BRAD. Juc. : PERC. I HOLDER. 5c. : SEED, 10c. With COTTAMS SEED you get this 25c. worth for loc. Three times the value of any other Seed. Sold everywhere. Read COTTAMS illustrated BIRD BOOK, 59 begges—post free 25c.

THE YUKON MUTUAL

Mining and Exploring Company of Toronto, Limited. Capital Authorized \$20,000.00. 4000 Shares of \$5.00 each. No Shares issued at a discount.

Only 1600 Shares for sale. Only 2000 Shares issued. Only 2000 Shares issued.

The company has made a contract with a party of explorers to proceed to the Yukon district as early as possible next spring. The company agrees to pay the expenses of the party to the extent of \$1000 per man, and the explorers agree to divide all the gold they may take and all claims they may discover equally with the company after paying all expenses.

You can stay at nome and share in the Yukon millions.

the Yukon district.
