PICTURES REACH HERE FOR EXHIBIT OF NAVY LEAGUE

Some Wonderful Views Will Be Seen at Armories.

D. N. M. Talbot of the British ministry of information, arrived in the city from Toronto yesterday, bringing with him the pictures which are to be exhibited for a week in the Armories, commencing May 19. These photos, some of which are very wonderful, were taken from the air, and among them is the largest photo taken in the world, measuring 17 feet by 23 feet. They are being exhibited under the patronage of the Governor-General, the Lieutenant-Governor and Brig.-Gen. L. W. Shanpon. This will be the fourth ex-D. N. M. Talbot of the British minis-

They have already been shown in Montreal, Toronto and Hamilton. The exhibit will be opened by George M. Reid, president of the chamber of commerce, Brig.-Gen. L. W. Shannon and Commodore Amelius Jarvis of Toronto.

How Britain Does It.

How Britain rules the waves and the sky above the waves, not to mention putting up a good fight under the waves, will be vividly depicted at the exhibition.

We are assured furthermore by Mrs. Eddy that a man is "the same after his head is chopped off as he was before." And I think a perfect gem of unconscious Christian Science humor is in Mrs. Eddy's statements concerning the "unthinking lobster." She says, when a lobster's claw is broken off he grows a new claw because he does not think. Whereas a man who has his leg broken off, does not grow a new leg because he thinks. Incidentally I wonder what the Christian Science chaplain, (of whom there were a few in the war,) said to the boyshwho were brought back to the hospitals badly shattered and with missing limbs. Would they say to a soldier with his two legs shot off, "Stop thinking, get up and walk."

We are assured furthermore in Mrs. Eddy's book that dyspepsia did not exist in the days of our forfathers. She says, "If a random thought calling itself dyspepsia tried to tyrannize over our forefathers, it would have been routed by their independence and industry! In olden times who ever heard of dyspepsia?" I used to wonder why Mark Twain became so indignant
