We Feel That We Owe It to Our Customers to Give Them this Information About Silks and Dress Goods
In the Spring Prices Will Be 25 to 50 Per Cent. Higher Than They Are Now and Many of the Better Qualities Will Not Be Obtainable at Any Price

We have placed orders for Silks and Velvets for spring selling, and in many instances we shall have to pay more than our prices to you now are; but that is only part of the story. What is even more serious is that in many instances the qualities are not up to their old-time standards. Some of the better grades of silks will simply be cut off the market. Inferior qualities will take their places, and at higher prices. Therefore, those of our customers who wish to protect themselves with old reliable quality silks are advised to buy from our present stock. The prices are lower and the qualities better than will be available next spring.

The Story About Wool Fabrics Has Been Published But Will Bear Repeating

The regulations of the British Government provide that 100 per cent. wool fabric shall not be manufactured for commercial purposes, and the regulation of the American Government will not permit the exportation of all-wool fabrics except under special license. All this means that people who want 100 per cent. wool fabrics should buy from our present stock. Next year there will be less available, and that which will be available will be priced very much higher than now.

Old Reliable Silks, Velvets and Dress Goods---Many at Old Time Prices

Duchesse Satins continue pretty near the old prices with us, but Satin Paillettes will soon be completely off the market, the schappe or filling used in their manufacture being now used for war purposes. Duchesse Satins, in colors, \$1.60, \$2.00, \$2.50 and \$3.50.
