STOCKS TUMBLED ON NAVAL LOSSES

General Advance Preceded Announcement of British Abrupt Declines at New York.

U.S. BONDS DECLINED

ered Force in Last Hour of Session.

NEW YORK, June 2.—The stock market experienced a sudden and somewhat severe upheaval today after an early period of active strength, in the course of which several important new high records were registered. Rumors adverse to the cause of the allies were circulated during the intermediate session, but it was not until almost the final hour that the report of the German admiralty was forthcoming.

Prior to that time the list had dis-Prior to that time the list had disclosed gains of one to four points in rails of various classes, with a new maximum for Norfolk and Western at 133 and a nine-point gain in "Big Four," a Vanderbilt subsidiary. The automobile group and rubber issues, identified with the motor industry, were higher by two to five points, with identified with the motor industry, were higher by two to five points, with a gain of 19 points for Willys-Overland at the new high of 294. The movement in these stocks gathered much of its impulse from reports of a huge consolidation to be capitalized at not less than \$200,000,000.

Incidentally, Chandler Motors, Gulf States Steel and American Beet Sugar were elevated at highest figures ever recorded, with a new top price for Mercantile Marine preferred at 98 1-4 Former leaders in the munitions and equipment classes were comparatively

quipment classes were comparatively

equipment classes were comparatively heavy.

The liquidating movement of the last hour gathered force as it proceeded. There was only one marked exception, Willys-Overland recovering all its loss and closing at its early high. Total sales of stocks amounted to 715,000 shares.

Forecasts of the week's known cash movements point to only a nominal gain by local banks, despite steady arrivals of gold from Canada. Bank clearings were somewhat diminished by the intervening holiday, but were largely in excess of the corresponding week of last year.

Bonds were irregular, but Mercantile Marine 4 1-2's kept pace with the shares of that company. Total sales (par value) were \$4,725,000. U. S. 3's declined 3 1-2 per cent., registered 4's 1-4, coupon 4's 1-2 and Panama 3's 1 per cent. on call.

ווטוטה וטווהט טוייי High Record Attained in Choice Cattle at Union

The past week has been an active one on the Union Stock Yards market. Receipts, as shown in the official report accompanying, have been large, the considerably smaller than the week preceding. A notable event in the live stock trade has been the high prices obtained for a few choice lots, the even \$10-mark having been reached on several occasions for small choice lots. The whole trend of the market has been steady thruout, and, while trade was, if anything, a trifle more draggy than last week there was nothing to complain about, taken all round. One feature of the market during the week was the scarcity of stockers, many more of which could have been taken at the advanced rate. While sheep have perceptibly eased off, the week's market just closed was a satisfactory one from every standpoint.

LIVE STOCK RECEIPTS. The total live stock receipts at the City and Union Stock Yards for the week

City and Union Stock Yards for the week were:

Cars 60 487 547
Cattle 741 4611 5352
Hogs 551 9244 9795
Sheep 242 910 1152
Calves 299 1054 1353
Horses 205 2619 2824
The total receipts for the corresponding week of 1915 were:

Cars 38 434 472
Cattle 335 4060 4395
Hogs 622 8114 8736
Sheep 383 876 1259
Calves 141 914 1056
Horses 204 2347 2551
The combined receipts of live stock at the two markets for the week show increases of 75 cars, 957 cattle, 1059 hogs, 298 calves and 273 horses, the only decrease being the slight number of 107 sheep, compared with the corresponding week of 1915.

Market Notes.

H. Harris and E. Maybee, who devote their talents to one of the departments of H. P. Kennedy, handled during the week 140 feeders and stockers; the good feeders brought from \$8.50 to \$9.50 thers of lighter weights \$8 to \$8.25. Stockers weighing up to 600 lbs., \$5.50, \$6.50 to \$7.50, according to quality. One load of good feeders, all even quality, were purchased and shipped to a client in New York State. There is a steady demand for the better class of feeders and stockers, the pasturage being above the normal. On the Union Stock Yards at Chicago on the last day of the month all the good cattle were at the highest point of the year. The \$11 prediction was reached, one load selling for \$11.05 and several loads making \$11. Some of the lower-priced cattle sold 25c under the May high spot. The market for feeders and stockers was slower at the end of the month, mostly 25 to 40c lower than the week preceding. The live stock receipts for the month of May at Chicago still manifest increases in each class; the sheep numbered 281.288, an increase of 67,917. Hogs come next with an increase of 44,391. It must be borne in mind that last year the foot-and-mouth disease sadly affected all persons industry.

THE HORSE MARKET.

A very lively place was the City Cattle Market during the hours of inspection and sale of serviceable horses for artillery and cavalry purposes. The representatives for inspection of the British Government, Sir Adam Beck, Robert Graham and Dr. Sinclair, V.S., of Cannington, carefully looked over every horse presented for inspection: the measuring rod was in use for standard height; few words were spoken; quickly as each Printing

rod was in use for standard height; few words were spoken; quickly as each horse was judged another was ready for inspection. The prices have not varied, \$175 to \$210 being the limit.

Mr. Maher will have horses for the inspection of the French buyers, commencing on Monday. The British buyers will be present on Tuesday, Wednesday and Thursday.

All the horses at the two marts of the City Cattle Market are gathered within a radius of 200 miles from Toronto.

LECTRIC MAKES

Liquidating Movement Gath-Buyers Expect Renewal of Depressing Overtures on Market.

> CHICAGO, June 2.—Announcement of heavy losses by the British in a naval battle with the Germans caused a sharp break today in the value of wheat. Prices closed weak, 2 to 2 1-8 cents net lower, with July at \$1.03 1-2 and September \$1.05 3-8. Other leading staples, too, underwent a set-back, corn 1-2 to 5-8 cents, oats 1-8 to 3-8 cents and provisions 10 to 57 1-2 cents. Altho the wheat market had been tending downward from the outset of trading, it was not until news came trading, it was not until news came of the battle in the North Sea that prices began to descend in earnest. Where before the selling had been somewhat of a scattering character, a general rush to the bear side now ensued. The popular theory was that one consequence of the battle would be to bring about a renewal of peace talk, and thus have at least temporarily a depressing effect on wheat prices, whether peace was altimately brought nearer or not. Under such conditions the market showed no power to rally, and with unabated liquidation, short selling and lack of support somewhat of a scattering character, a tion, short selling and lack of support finished at about the lowest prices

Weakness of quotations at Liverpool was chiefly responsible for early declines in the wheat market here. declines in the wheat market here. The chief reasons given were that arrival of supplies in Great Britain had been on a large scale and that abundant receipts were likely to continue, as huge stocks were pressing for an outlet in several countries, and as the 1916 harvest had already begun in the U.S. All such factors were lost sight of, however, when word was received of the encounter in the North Sea.

Sea.

Corn receded only to a small extent as compared with wheat. Bears were cautious on account of the lightness of receipts, and owing to improved shipping call in the southwest. Oats, like corn, held relatively firm. Estimates were current that acreage reductions this season would cut down the crop 25 per cent, from last year's total.
