DAMAGE BY HAIL THIS YEAR WAS SLIGHT
Saskatchewan's losses from hail in 1920 was very much lower than in the previous year, according to a special re-

port by A. E. Fisher, Superintendent of Insurance for Saskatchewan, with a statement of the premium income received and the claims paid by the various companies underwriting hail insurance in Saskatchewan during 1920. The figures are not complete, as there are a several companies which have not yet paid totalling \$1,806,208.21, loss ratio of 75.02, while the loss ratio for 1920 is estimated at approximately 41 per cent. The statement does not deal with the operations of the Saskatchewan Municipal Hail Insurance Association, which also had a favorable year.
