**MISS CANADA TO NEW YORK ON THURSDAY**

Spend Month Visiting Relatives—Engagements in the Provinces for Summer.

Miss Winifred Blair—Miss Canada—will leave tomorrow evening for New York where she will spend a month visiting relatives. The visit will be entirely of a private nature and Miss Blair will spend her time in rest and recreation. On this account, she has been unable to accept an invitation to attend a function to be held under the auspices of the Canadian Club of Boston.

Late in May or during the early part of June, Miss Canada and party will leave for a fishing trip under the guidance of J. J. Harry Allen, president of the N. B. Guides' Association, on Cain's River, York County. The party will leave Fredericton by canoe spending two nights in camp en route.

Miss Canada has accepted an invitation to be present at a carnival of volunteer firemen at Glace Bay on May 24. While in Sydney this winter she was unable to visit Glace Bay on account of her Halifax engagement. The invitation for her to attend the firemen's carnival has been received from E. Mack Forbes, barrister, who is in charge of the arrangements.

Miss Blair has also received an invitation to attend the Woodstock opening of the harness racing circuit at Woodstock on July 12 and is planning to take in this event. She has also accepted an invitation of W. B. Snowball, president of the Chatham Exhibition Association, to be present at the opening of the Chatham fair in September.

**TO GET \$200,000 IF SHE APOLOGIZES**

Mrs. Gilmour Arrives on Liner Paris to Find Reason for Codicil to Mother's Will—Denies Slandering Family.

New York, March 28.—The arrival on the French liner Paris of Mrs. Gertrude Linderman Gilmour brought to light an odd demand set forth as a codicil to the will of her mother. The will provided that before Mrs. Gilmour could inherit her share of the estate, amounting to \$200,000, she must apologize for slanderous remarks she was alleged to have made against the Linderman family. The apology, if one is given, must be made to B. A. Linderman, an orphaned son of the late Machinery company. The chief holdings of the Linderman estate are in Muskegon, Mich. it was said.

Asked if she would fulfill the terms of the will, Mrs. Gilmour, who was dressed in mourning, replied:—

"I deny emphatically saying anything slanderous about my family that would result in the alienation of my mother's affection to the extent that she would put such a clause in the will. I am here to find what it is all about. In the meantime, I am keeping my mind closed regarding the money and sticking to the principles concerned in the request."

Mrs. Gilmour said that she was allowed one year in which to reach a decision as to what she would do. After her mother died last August she said she had ample time in which to make up her mind.

J. M. Alonso Arellayas, tennis champion of Spain, arrived here for a six months' visit. He will represent his country in the next Davis Cup contest. He said that Spain has been in for polo and tennis largely because the King has set the pace in the former sport, and the Queen has become an ardent tennis player.

Mr. Arellayas, who has industrial connection in this country, said that Spain was one of the best electrically illuminated countries of Europe, even the villages having their homes lighted by electricity.

Leonard Kennedy of the engineering and construction company bearing his name, returned from Italy, where he drew up a contract for the development of the harbor of Palermo, Sicily, at a cost of \$10,000,000 in American money. The plan calls for the deepening of the harbor, the erection of a breakwater and other improvements.

**Gave United States British War Secret**

Major Scarff Makes Claim For Invention Reward.

London, March 16.—(By mail.)—While large awards have been granted to British officers who made inventions during the war, Mr. Justice Sargent said that he understands the American Government do not grant any awards or remuneration to service inventors.

He made this statement when a claim by Major F. W. Scarff, inventor of a ring-mounting for machine guns, against the American Government for the use of his invention, came before a joint sitting of the Royal Commission on Awards to Inventors, and the American Commission for the Adjustment of Foreign Claims, at Lincoln's Inn Old Hall.

Major C. G. Moore, formerly R. A. F. and liaison officer, said that in March, 1918, Admiral Sims asked him to take more than twenty war inventions to the United States.

"Had I known it was not properly covered, at the risk of a court-martial I should not have taken it," he added with regard to Major Scarff's invention.

F. Morris, counsel for Major Scarff, said that by the disclosure of the invention before it was patented, the American Government were able to make tens of thousands of Major Scarff's device, which was a jealously guarded secret.

The commission reserved judgment.

**RADIO CALL SAVES LIFE ON LIGHTSHIP.**

Revenue Cutter Takes Doctor 80 Miles and Brings Patient Back for Hospital Operation.

Cape May, N. J., March 27.—For the second time within a week wireless telegraphy came into play when W. B. Johnson, fireman on the Penwick's Island lightship, thirty miles south-east of this city, was attacked with what the captain of the lightship thought was appendicitis.

The radio operator on the lightship sent out an S. O. S. call, which was picked up by the radio station here and flashed to Captain R. C. Weightman of the coast guard Kickapoo. The message said, "Bring a physician to the lightship."

Dr. V. M. d'Arcy, president of the Board of Health and veteran of the World War, volunteered. The Kickapoo proceeded down the coast, Dr. d'Arcy was put aboard the lightship and found that the sailor's condition required an immediate operation to save his life. The Kickapoo then steamed under forced draft to the Delaware breakwater, where Captain Lynch of the Lewes Coast Guard Station transferred the sick man to the hospital. Word was received here by radio that the operation was a success.

**Little Girls Confess Thefts**

Regina, March 28.—With the capture of six little girls all under thirteen years of age and the confession of the children concerned, the city police have cleared up a series of mysterious petty thefts which have been taking place since last December.

A little school girls in the southeast residential district yesterday told the police, not without a tinge of pride, that they had been making the price of the Christmas presents and picture shows by organized looting of houses. The value of goods stolen by the children is over \$150, one haul alone being over \$35 cash.

**BLIND MAN AND WIFE RESCUED AS HOME BURNS**

William Cook and Wife Caught in Fire in St. Patrick Street—Two Alarms Attract Crowd.

William Cook, the blind man who plays an organ in the streets, and his wife were rescued semi-conscious from the house in which they had been living at 95 St. Patrick street, this morning, when fire broke out in the flat they occupied. Policemen Walter Coughlin and H. L. Bilzard forced their way into the building in spite of the heavy smoke, which made breathing difficult even at a distance from the house. In the second flat they found Mr. and Mrs. Cook and, with some difficulty, got them out of the burning building and into the home of Mrs. A. Leighton, across the street. Mrs. Cook had fainted before she was removed.

The alarm was rung in about eleven o'clock from Box 64, and was followed within a few minutes by a second alarm. This caused a considerable dash of people to the scene under the misapprehension that the cotton mill was afire. The fire was in the upper flat of a house and shop at 95 St. Patrick street, owned by John J. Davis, who kept the shop and occupied the lower floor, and occupied upstairs by Mr. and Mrs. Cook. The blaze was not spectacular, but got a stubborn hold in the roof and caused the firemen considerable trouble before it was put out at about 12.10 o'clock.

Mr. Davis estimated the damage at about \$2,000, including the effect of the heavy streams of water played on the fire as well as the damage to the building from the fire itself. The stock in the store was reported not very much damaged. The chief cause of loss was through water on the plaster of the house and the burning and charring of the roof. There was no insurance on the building.
