

LABOR'S FUNCTION.

Canada's Women Workers.

They Worked for Victory; Now They Toil for Prosperity

THE Hand that Rocks the Cradle sometimes keeps the Ship of State from Rocking. Woman has become a Great National Force, Industrially and Politically in Canada. The great work of our Women during the troubled days of the War was a great factor in gaining Victory for our Cause. Woman proved her efficiency in Industry during the feverish days of the World Conflict; now she is willing to employ her Efficiency during the Critical Days of Reconstruction. Woman is

LET us welcome Woman to the World of Organized Workers. There is so much to do that there is work for all to do. There should be good employment for every returned man, for every woman, and for every one with a Mind and a Hand for work. Woman at the Wheel of Industry today is a welcome partner to help replace the wastage of war by producing good, union-made, Canadian-made products of Peace.
