

ANOTHER SHOCK AT SAN FRANCISCO

NUMBER OF WEAKENED WALLS THROWN DOWN

Distribution of Food Turned Over to Commissary Department—All Necessary Provisions on Hand.

San Francisco, April 25.—At 3.15 o'clock this afternoon a shock of earthquake was felt. It lasted nearly a minute, and caused considerable alarm, though no one was injured. A number of walls of burned dwellings which were still standing in a weak condition were thrown down and frames of buildings were considerably shaken up, but the damage done was slight.

The shock was also felt in Oakland and Berkeley, but in these places it was very slight, and of brief duration.

MEETING OF THE GENERAL EXECUTIVE.

San Francisco, April 25.—At a general executive meeting to-day at Port Mason, the special legislative session and the measures there to be considered were thoroughly discussed. The question of martial law was also considered. The matter of food distribution was finally and completely turned over to the commissary department in charge of Major Devol, and the various committees reported.

At the meeting were Mayor Schmitz, General Greeley, General Funston, Secretary Metcalf, Garrett McNerney, and representatives of every committee. The entire assembly drew up a message to Governor Pardee, in which they stated their request for a special session of the legislature and the reasons of this request, and accompanied it with another message asking for a prompt reply.

The feature of passing a general emergency law, empowering the city to declare martial law, was considered enough bonds for the reconstruction of San Francisco, was legally explained. The opinion of all present was that by all means this session should be called, and that the emergency calamity laws should be passed. It was shown that the expense would be less than three thousand dollars a day.

The food committee reported that all necessary provisions were on hand and obtainable. They said they were even overwhelmed with provisions. Perishable food is causing trouble. Mayor Schmitz drew up a telegram which was to be sent over the entire United States requesting all relief to be called, and that the relief should be called from the relief of the city. Food supplies should be limited to staples. General Greeley assured Mayor Schmitz that the army was willing and ready to take all necessary measures now being enforced. But as a supplement to this assurance, he petitioned the municipal authorities to realize the fact that the army is being overworked, and that they should cover to cover to wide a range of work, and that they have not within their power to attend to so much as has been assigned to them. Mayor Schmitz offered a committee of relief, but the committee was unanimous and emphatic in responding that San Francisco is "well able to design the City Beautiful," which it is proposed to build.

Conditions are So Numerous and come so rapidly that I have simply been unable to make a record of them. Mayor Schmitz estimates the sum total to be between four and six million, but I feel reasonably sure that the total is above six million.

The relief fund has been set up to and including Tuesday, April 25th, as reported by the committee on finance, was \$2,306,436.05. Of this amount \$2,115,716.95 was from out of town sources, while the local subscriptions amounted to \$190,719.05. These figures are considerably lower than those published unofficially on several occasions, but the finance committee takes cognizance only of those subscriptions, of which it has been definitely informed.

Twelve thousand people are being fed daily at St. Mary's cathedral on Van Ness avenue, a relief station organized by Rev. Father Hannigan and headed by him as chairman of the committee. This is perhaps the best organized and most systematically conducted station in the city. Distribution is made according to the number in each family. Nine sub-institutions give out orders and it is being arranged for these stations to be given out at other sub-institutions. Fourteen members of the clergy are in charge of the various branches of the work.

The Southern Pacific officials to-day stated that their estimate of the number of people who had left the city up to 10 o'clock this morning is 350,000. Of this number 50,000 or more have returned. Travel outward bound has been greatly reduced.

Falling Off in Volume Yesterday, and traffic across San Francisco bay in the afternoon was but little less than the normal. Including the donation of E. H. Harriman, the contribution of the Southern Pacific Company to the suffering people of San Francisco is figured by some of the prominent officials at nearly \$1,500,000.

In accounting for the total they say that passenger traffic carried without charge represented \$600,000, and that the free hauling of freight will amount to about \$550,000.

The military authorities in Washington have been fully informed of conditions prevailing here, and all sorts of registering the 200,000 people who remain within the city boundaries, have been fully explained in a telegram to the military secretary at Washington. It is understood that Gen. Greeley has telegraphed the military secretary that it is impossible for the military authorities to undertake at this time to inaugurate bureaus for the registration of the homeless or other persons.

The surgeon in charge of the general hospital at the Presidio states that his force is perfectly organized and well able to cope with any contingency that may arise on the reservation. Recently five members of the army nurse corps are due at the Presidio from Chicago to-morrow morning. They will be divided between the Presidio and the emergency hospital of the city. Since the beginning of the calamity, 20 deaths have occurred in the general hospitals and 10 children have been born in the maternity wards.

MEAT MARKETS ARE BEING REOPENED.

San Francisco, April 24.—Retail business within a limited area is being resumed. Several meat markets were opened this morning. Butcher and cheese stores are making ready to provide for the wants of their customers. Stocks of groceries are being received. Bakers are being re-opened. Flour and other necessary materials are being procured.

At a meeting held to-day the retail dealers decided to make an effort to obtain such provisions and supplies as will enable some of the restaurants to reopen.

Wholesale dealers of the Produce Exchange held a meeting yesterday and established a list of prices as follows: Butter, 30 cents per 14-pound roll; 40 cents for 2-pound rolls; eggs, 20 cents dozen; cheese, 12 cents per pound spot cash. Violation of the regulation will entail heavy penalties.

LOSSES OF THE FIRE DEPARTMENT.

San Francisco, April 25.—The losses of the fire department are considerable compared with the great damage sustained in other departments of the municipality. As far as known there have been 10 deaths and one injured. Early this morning a charred body was found in the ruins at North Beach, which may prove to be that of another fireman. The apparatus of the department, while damaged, is still intact. Nineteen companies, however, have been put out of commission, and many of them were disbanded.

At a meeting of the fire commission held this morning it was reported by Chief Dougherty, that, including the dead and injured, there are about 100 members of the department missing. It is believed, however, that these men have been separated from their companies and will join them as quickly as they can. In order that the affairs of the department may be straightened out, orders were sent to each battalion chief, directing that missing men be located and ordered to rejoin their companies. It is hoped by tonight to have them all accounted for.

Besides Chief Sullivan, the only identified dead fireman is James O'Neill, the fireman on duty with engine 4, whose body was found beneath the ruins of Howard and Third streets. O'Neill was killed by a falling cornice, while trying to extricate himself from the ruins.

DR. DEVINE'S REPORT ON CONDITIONS IN FRISCO.

New York, April 25.—Dr. Edward T. Devine, who was sent to San Francisco to distribute the relief fund of the Red Cross, has returned with a report that the city is in a state of chaos, and that the relief fund is being distributed in a haphazard manner.

Working arrangements made by which finance committee of the citizens' relief committee becomes a finance committee of the Red Cross. Supplies received and distributed by military authorities to persons destitute, designated by us. Indiscriminate free transportation to be stopped on Thursday. Mr. Jessup's suggestion is that the relief fund be distributed in a haphazard manner. Have wired to Washington suggestion that remittances of money should be made to the finance committee after consulting with military authorities. Judge Morrow, Mayor Schmitz and others. Known loss of life less than 300, and about 400 injured. No abnormal sickness, but destruction of houses and property cannot be concealed.

OUTSIDE HELP IS NOT REQUIRED.

New York, April 25.—The Staats Zeitung prints the following telegram exchanged yesterday: "Hon. Theodore Roosevelt, President of the United States, Washington: 'Your statement is reported in the German press as declining assistance to the suffering people of San Francisco. I feel it my duty to correct this false impression so that our friends in Germany may be permitted to follow the dictates of their heart and contribute to the relief of the suffering people of San Francisco.'"

"Washington, April 25th. 'Hermann Ridder, New York Staats Zeitung, New York City: 'Your kind message to the President is received. The spontaneous contributions of the American people have been able to meet all requirements and proffer of aid from all parts of the world have been so in excess of needs that to avoid any discrimination it was determined best to accept of no help. The President wishes the German people to understand how deeply we appreciate their hearty sympathy and that we are quite as grateful to them for fraternal motives as we would like to be. It is very possible to accept their generous aid.'"

(Signed) "Robert Bacon, acting secretary."

San Francisco, April 25.—Things are quieting down in San Francisco, and all the militiamen were withdrawn from the streets yesterday. Telephone communication with Oakland has been re-established, and will be resumed in undisturbed portion of the city in a few days. The belt railroad is now operating and all sorts of relief supplies are being distributed from there. The electric light lines were started on East street last night, and these lights will be extended to the wharves and will provide a great deal of light.

An official list of the conditions of the school buildings throughout the city shows that 25 buildings were utterly destroyed and that 44 were partially damaged. The local agents at between \$175,000,000 and \$200,000,000, but New York sends word that the insurance men there think the loss will not exceed \$125,000,000. Chicago's loss was \$125,000,000, and three companies defaulted to the amount of \$35,000,000. The loss in Baltimore was paid in full. It amounted to \$35,000,000.

The State Supreme court has made a sweeping order granting a rehearing in all cases in which a petition had been filed, and in which the time for granting a rehearing will expire before May 1st. A similar order was made in respect to appeals in that court by the United States District Court of Appeals.

DELEGATE EXPLAINS NUMBER OF CHANGES

That Will Be Introduced During Summer—Gives Account of Programme Contemplated Here.

The recent meeting of the British Columbia Amateur Lacrosse Association held in New Westminster was most satisfactory in every particular, according to the local delegates, Rev. W. W. Bolton and Lionel Yorke. The delegates' edition of the local delegates' edition, a synopsis of the proceedings was given in which a number of interesting points were omitted. Rev. Mr. Bolton announced that it was decided to tax each club belonging to the association extra amount in order that the difficulty experienced in the past in respect to finances may be overcome. Hereafter, also, the double referee system will be in vogue.

It is the intention to introduce it in connection with all senior league and exhibition matches. Upon suggestion, it was agreed to test another proposal, namely, the practical elimination of the possibility of the game being stopped by the whistle except in case of a player being injured or a goal scored. This point, perhaps, needs a little explaining. Its advantages were clearly pointed out to a Times reporter by Rev. Mr. Bolton on Monday. All players and the majority of enthusiasts are aware of the fact that there are many so-called "tricks of the trade" which are brought into use in cases of emergency upon the field. For instance, when one team has possession of the ball and is making a well ordered attack upon a poorly defended goal with every chance of scoring, it is not improbable that one of the players will deliberately "kick the ball" himself, as is termed in lacrosse parlance; in other words, he would intentionally foul one of the opposing players, the whistle would blow and the play would stop. This is a very undesirable practice, and it is not probable that one of the players will deliberately "kick the ball" himself, as is termed in lacrosse parlance; in other words, he would intentionally foul one of the opposing players, the whistle would blow and the play would stop.

UNITED IN MATRIMONY.

Mr. Albert E. Shore and Miss Mildred Jordan Principals in Interesting Ceremony.

A very pretty wedding was solemnized Tuesday evening when Miss Mildred Jordan and Mr. Albert E. Shore were united in the holy bonds of matrimony. The bride looked charming in a gown of white duchess satin, embroidered veil and orange blossoms. She carried a shower bouquet of bridal roses. She was attended by her cousin, Miss Cynthia Robinson, in a dress of white allottress cloth, and Miss Gladys Rutter, who looked very dainty in white silk. Both wore wreaths of white roses and carried shower bouquets of pink roses. The bridegroom was supported by Mr. Percy Rutter. The bridegroom's gift to the bride was a gold watch and chain, and the bridesmaids gold bangles.

After the ceremony a reception was held at the bride's residence, Constance avenue, where about fifty guests sat down to a sumptuous supper.

The happy couple left amid many congratulations and showers of rice for Portland, Ore., where the honeymoon will be spent. The bride's travelling dress was grey cloth, trimmed with green velvet and pink roses. The bride's veil was white tulle, and the bride's shoes were white.

They were the recipients of many handsome and useful presents, some of which are as follows: Silver pudding dish, Mr. and Mrs. McArthur; silver sugar tongs, Mr. and Mrs. F. Bell; lemonade set, Mr. and Mrs. A. Bird; dozen silver spoons, Mr. and Mrs. H. Nunan; half dozen silver teaspoons, Mr. and Mrs. A. S. Somers; burnt wood handkerchief box, Mrs. M. Leeman; lemonade set, Mrs. Farnell; carving set, Mr. and Mrs. Boyce, Peterboro, Ont.; silver butter knife, Mr. and Mrs. Dinsley; oak and silver butter dish, Mr. and Mrs. A. Gordon; silver and glass fruit stand, Miss Gladys Jordan; chocolate jug, Mr. and Mrs. Herman; silver salt cellars, the Misses McArthur; tea caddy, Mr. and Mrs. Gasson, New Breton, Eng.; silver sugar spoon and butter knife, Mr. P. Rutter; pair vases, Mrs. M. Campbell; silk inlaid box, Master R. and F. Elliot; carving set, Mr. and Mrs. Hobbs; painter's Misses C. and E. Robinson; hand-painted fruit dish, Mr. and Mrs. Philip; silver cake dish, Mr. and Mrs. Yarwood; half dozen silver teaspoons, Mr. and Mrs. Austin; half dozen silver teaspoons, Mr. and Mrs. Boyce; cheque, Mr. and Mrs. J. Day; cheque, Mrs. M. Boyce, Selwyn, Ont.; cheque, Mr. C. Jordan; household linen, Mrs. C. Jordan; made lace handkerchief, Mrs. Adams; chocolate set, Mr. and Mrs. McDonald; Vancouver; silver berry spoon, Mr. J. McArthur.

INFECTED FRUIT TREES.

Large Shipment From United States Cremated in Vancouver a Few Days Ago.

Fruit growers should be extremely careful in ordering plants from the United States, and the same applies to those purchasing ornamental Japanese shrubs. In the early part of the season, Cunningham the fumigation and clear certificates from the other side of the line are not worth the paper they are written on, while there is the gravest danger that new plant diseases, unknown at present in Canada may be introduced from the countries on the other side of the Pacific.

Only a couple of days ago upwards of 7,000 condemned fruit trees were burned at the Vancouver fumigating station in addition to a number of Japanese ornamental plants. The fruit trees, which were intended for distribution in Okanagan, Similkameen, and Kootenay, consisted of apples, pears, plums, cherries, peaches and apricots.

Inspector Cunningham is outspoken in his advice to buyers to absolutely refuse to take any stock from Florida, the state most infected with insect pests. Last season in a few parcels received by mail there were no less than five different species of scale insects and many of the worst pests now doing such damage in California, which have been directly traced to the Gulf state.

In a recently published interview the inspector reiterates his advice to buyers to purchase as far as possible in Canada, which is practically free from insect enemies. If they must try foreign productions these should be obtained from Great Britain, Holland, France and Germany, where efficient inspection is made.

Andrew Carnegie has donated \$50,000 to Victoria Methodist College, Toronto, for library. The board of governors has accepted the gift and will provide the other fifty thousand for its maintenance.

SEASON'S LACROSSE PLANS OUTLINED

DELEGATE EXPLAINS NUMBER OF CHANGES

That Will Be Introduced During Summer—Gives Account of Programme Contemplated Here.

smoothly, and to make the game and not their own little shibboleths the first consideration. The four days' preliminary work put in by the delegates of this city, who, without thought of the value of their own time and the expense attached, went over and thrashed out every subject beforehand, doubtless tended in no small degree to the more than kindly reception given to Victoria. Those locally and on the Mainland who thought that the board's policy was ruinous and my position as to professionalism an insult, have their answer in the fact that the delegates are eager to come over and help us, and gave the special spot of honor in lacrosse in the province to the leader of the new order of things in this city.

But, to my mind, the most important action of all taken last Saturday was the appointment of a committee to revise the constitution and by-laws and rules of the game. I had hardly dared hope for such a thing. We had given notice of various amendments in a distant hope that it might act as a forerunner of better things, but our highest hopes were realized, and again evidencing the more than friendly feeling of the Mainland, efforts to assist the game I have been privileged to act as chairman. I consider it a very great privilege, for nothing can help lacrosse in British Columbia so greatly as having a set of rules which will be lived up to. Every delegate was agreed that so many holes had been driven into the present constitution that it was impossible to have any discipline amongst us. We agreed to wait till 1907 for this; but are expected to report to a special meeting of the council in July, when the new rules are to be finally passed upon.

"Our own board of managers has now its hands full, but as if not content with all this we are working on a proposition of even greater magnitude which will reach out to every corner of British Columbia, but of this more anon, when, in our opinion, the time is ripe.

"To make it convenient for Victoria, Mr. Gray has kindly consented to postpone the meeting of the B. C. I. L. A. to the middle of May, which will fit in with the meeting of the B. C. Association Football League, of which I am president, both meetings having this year to be held in New Westminster."

PRACTICE ARRANGED.

On Wednesday Lionel Yorke, the newly appointed manager of lacrosse in Victoria, called at the Times office to announce that regular practices had been arranged for Monday, Wednesday and Friday evenings at Oak Bay park. He stated that this plan would be followed throughout the summer months with the exception of the occasions on which there were Saturday matches. Then practices would take place on Thursdays instead of Fridays.

Mr. Yorke is confident of being able to effect an improvement in the situation during the ensuing season. He thinks that the proper plan has been adopted in dropping from the senior league temporarily in order that more time and attention may be devoted to the juniors and the intermediates. There are many who, he states, who will soon be able to take their places in the first rank with credit. He also hopes to be able to place a first-class twelve in the field for the Victoria Day exhibition match with Vancouver. A number of the old seniors have consented to turn out to practice for that occasion, so that the younger element will be strengthened and given confidence. Mr. Yorke announced his intention to participate in exhibition games. He will be a valuable acquisition as there is no more capable defence stick-hander in the West at the present time.

C. L. A. BROKEN UP.

Yesterday's meeting of the National Lacrosse Association at Montreal took action that will probably result in the breaking up of the senior C. L. A. It was decided to admit the Tecumseh and Toronto players into the Canadian Lacrosse Association on condition that they agree to abide by the two years' residence rule and do not go East of Kingston for importation. This means that the clubs in question will have any of their old men who wintered East. This works out to the benefit of the other clubs, as the meeting decided on the eligibility of many men who were last year on Toronto teams to play for the other associations. There will be a meeting to-night when the new clubs will have delegates present. By-laws, constitution and schedule will probably be adopted.

IN VICTORIA WEST.

The Victoria West team organized for the season last night at a well attended meeting, when it was decided to enter a team in the city junior league. The first match so far set with outsiders will be with the Vancouver juniors on Victoria Day, on which occasion the local team will don the new uniforms that have been ordered.

The reports read at the meeting were very satisfactory, the club being strong in every respect. The election of officers also took place with the following result: Alex. Stevens, president and manager; Walter Crocker, captain; Percy Wilson, vice-captain; and H. Campbell, secretary-treasurer.

BASKETBALL.

WIN FOR FERNWOODS.

Monday an exciting game was played between the Victoria West and Fernwoods, the latter proving too strong for their opponents. Although the Fernwoods have lost three of their old players, their places have been excellently filled. James Holmes has decided to cast in his lot with the Fernwoods. This year "Jimmie" is in the best of condition, and with the team he has behind him it will be no trouble for them to win the championship. Another player, Barnswell, is also going to take a hand in it. As the public knows, a few years ago whenever Jimmie went to the bat it generally meant a home run; as an all round player he was considered one of the best. So with the two "Jimmies" as battery the Victoria Fernwoods should have one of the fastest teams on the Coast.

The boys played a very fast game yesterday, making a lot of double plays, and at the bat they showed themselves to great advantage.

The team already has had several comers from different nines, so it will not be long before the public will have a chance to see some first-class ball. The Fernwoods will hold a full practice on their grounds on Thursday evening, when a game will probably be played with the Cedar Hill nine, commencing at 6.30 o'clock sharp.

The team is ordering a new lot of smart looking uniforms, which will be ready for the first match proper. The team is looking out to win this year against all comers, and one of the first scalp

they will be after is that of the Victoria nine.

TWO GAMES ASSURED.

Two games are promised Victoria fans in the near future. Both will be between the University of Washington and the local nine, the first taking place on the 24th of May and the second upon the following day. They will be played, of course, at the Oak Bay grounds, the diamond of which is now being put in shape for the season's series of games. By the day of the initial match the infield should be as level as a billiard board.

With regard to the personnel of the Victoria team, it is impossible to say much at the present time. As stated yesterday, regular practices are being held, but, so far, they have not been as well attended as might be desired. This, however, should improve now as all concerned must realize that there is not much time left to get in shape for the Americans. The local nine are expected to prove fast and reliable. The battery, as far as known at present, will comprise W. Blackburn, pitcher, and R. Feden as his assistant, and Robertson, catcher. The former needs no introduction. He is well known from his past performances, and it should be interesting to all lovers of the game to hear of his return to control have improved wonderfully. The remainder of the team will be strong enough to cope with the average amateur aggregations of the Pacific Coast.

A CHALLENGE.

A challenge has been received by Victoria printers from a baseball organization of Vancouver, representatives of which called. The latter suggest that the proposed match might take place in connection with the Victoria Day celebrations. It is understood that the proposal is being considered and that it is not unlikely that it will be accepted. This, however, is conditional upon it being possible to make satisfactory arrangements for grounds and other details.

THE OAR.

TRAINING FAITHFULLY.

Although the California disaster has somewhat interfered with the plans of the University of Washington with respect to rowing, the four-oared crew of that institution are still training faithfully. They are now looking forward to the Victoria Day regatta with much interest. The University of Washington is an interesting contest, as both the visiting and local crews have expressed their determination to cross the line first if careful preparation can give them the necessary speed.

J. B. A. REGATTA.

The first club regatta under the auspices of the James Bay Athletic Association has been arranged to take place on the 18th of May over the harbor course. Already quite a number of armaments have commenced the regatta, and many are competing are requested to submit their names without delay.

THE KENNEL.

VICTORY'S SHOW.

The premium list of the fifth annual bench show under the auspices of the Victoria Kennel Club, which will be held on the 16th of Victoria Day, May 15th, has just been issued. It is compiled in an attractive and convenient manner and is a credit to the executive committee, and speaks, perhaps, more directly of the energy and enterprise of the secretary, Walter Winsby.

With the list is published a pamphlet which reads in part as follows: "The show is held to improve the various breeds of dogs, to encourage the breeding of thoroughbred dogs, and for the development of those traits in them most necessary for the purposes of which mankind requires them."

"You are asked to bring the good work, as without your assistance shows cannot be held. Without dog shows, dogs would soon degenerate, the different breeds in terms of utility and beauty would be lost, and the world would be poorer for it."

"Help the Kennel Club to raise the standard of our dogs, and also to educate the dog-loving public to properly appreciate the beauty and value of thoroughbred dogs."

"Have your dogs judged by one of the most competent judges in America—H. Payne, of San Francisco. His opinion is the basis of all dog shows, and his judgment is the basis of all dog shows, and his judgment is the basis of all dog shows."

"All dogs shown will receive the best of care and attention. The hall will be properly disinfected and ventilated."

The exhibition will be held in the Philharmonic hall, from 10 o'clock to 6 o'clock. Hon. J. Wulfssohn, Imperial German consul, Vancouver, offers a cup for the best Irish setter bitch shown in Victoria.

NAVY'S JUDGE.

It is announced that Major J. W. Taylor, of Rutherford, N. J., will judge all classes in connection with the Vancouver show.

POOL.

CLARENCE TOURNAMENT.

Another game was played in the second round of the Clarence pool tournament last night, when S. Robinson beat P. Winch by a score of 75 to 64.

THE TURF.

SUCCESSFUL MEET ASSURED.

Now that the trouble regarding the Driving park has been settled, it is expected that things will be moving towards a big meet at the fall fair. The track will be put in order as soon as possible and facilities given at the earliest moment for training.

The disaster in San Francisco will doubtless have the effect of increasing the talent available for the northern circuit, as it is not probable that as large stables will be maintained in California as in the past. In fact, many horsemen have stated publicly that they will move their strings at once. Though it is not known that the Oakland and Colma tracks have been damaged by the earthquake, the state of business during the summer will certainly detract from the attendance at the tracks, and the horsemen are not in the business for fun they will seek other pastures.

This should mean larger fields and improved standards for the smaller tracks up north, and the Victoria meet ought to reap some benefit. The Agricultural Association should distribute their programme at once, build more stables and generally make a bid for the largest meet yet at this season's fair. It may be necessary to hang bigger purses, but the attractions will result in increased entry.

World Veterinary Dentistry.

\$2000 a year. We teach you to make in three months the first match proper. The Detroit Veterinary Dental College, Detroit, Mich.

fees that should more than cover the additional expense. Occasions have been known where big fields have more than covered the value of prizes in entry fees, and big fields should be in order this year in all the Northwestern states and British Columbia.

ATHLETICS.

THE OLYMPIC GAMES.

Phalaris, Greece, April 23.—The free style discus throwing in the Stadium to-day was marked by a number of fine performances. Martin J. Sheridan, Irish-American A. C., New York, the American champion discus thrower, won, distance 41 metres 46 centimetres, beating the world's record. Giorgantzas, Greece, was second, with 38 metres 6 centimetres. Japiniers, Finland, was third, 35 metres 82 centimetres. The five kilometres bicycle race was won by Verri, Italy. H. Crowther, England, was second.
