One writer says the civilians, though knowing something of what is occurring, are ignorant of the progress of the war. Little information leaks out. Most of the non-combatants have caves in the hills or underground cells, where they spend the nights in safety. Bands play occasionally in the parks and the prices of food are slightly higher.

The Chinese are suffering severely in many ways as a result of the fighting. The food on the junks is provided by the government to enable the Chinese to leave Port Arthur. The red cross nurses, in the absence of regular work, have established eating houses for the needy Some of the Chinese are still working on the new shipbuilding works.
