LONDON LANCET UTTERS A WARNING TO SUFFRAGETTES

Mental Diseases Increase in Finland Where Women Serve in Parliament—British Suffragettes After Prison Reform

LONDON, June 1.—The Lancet hands on to the British suffragettes a terrible warning from the Finnish doctor, Granholm, who asserts that there is a certain connection between the votes for women movement and the frequency of the mental diseases. Dr. Granholm has been carefully investigating in Finland, where women both vote for members of parliament and are eligible to serve as such. He has come to the conclusion that domestic life has become unfavorable for the normal development of the young of both sexes, the result being a marked increase in mental aberration. In the municipality of Vuornos, where the doctor asserts he is able to exclude any common causes of mental diseases and where very emancipated views are held by the female population, and particularly by the female teachers, he speedily noticed that the number of lunatics increased from 20 in 1900 to 67 in 1902. The population had increased in that period from 11,888 to 12,137.

REFORM WOMEN'S PRISONS. It has been suggested to the suffragettes many times that they lay aside the suffrage issue temporarily and assist in prison reforms, since they have complained bitterly of the unsanitary conditions of the prisons which they have sampled. That they have agitated among parliamentarians was shown in yesterday's debate in the House of Commons when members discussed reforms in women's prisons. It was suggested that women be appointed as board commissioners as they are better able to understand the needs of their own sex. It was also suggested that a prison garb which is presentable and fit be provided instead of the present shapeless, uncomfortable garments. The Secretary of the Home Office said it was not desirable that the clothing of female prisoners be made less unsightly. The number of female prisoners was increasing, and thought that nothing should be done to make prison life more attractive. Regarding the unsanitary condition of Holloway Jail as stated by a suffragette doctor after her incarceration, the secretary declared the statement was not supported by the facts.

ENGLAND'S RAILROADS. The statistics of the Board of Trade as to the railways of the United Kingdom for 1902, issued last evening, show that the roads have an authorized capital of \$6,970,000,000 paid up. Their gross receipts were \$97,890,000, expenditures \$82,320,000, and net earnings therefore \$15,570,000. The miles of line in operation were 23,191; miles travelled, 28,331,000; total gross traffic, 15,170,000 tons; total passengers 1,290,117,000; an increase since 1896, over 6,000,000. The number of third class decrease over 3,000,000 and the second class over 15,000,000.

BABY NEAR DEATH IN SNAKE'S COILS Summoned by Little Girl's Cries, Father Finds Her Being Strangled and is Attacked.

SOUTH NORWALK, Conn., June 1.—A seven foot black snake wrapped itself around the infant daughter of Edward Schoonover yesterday afternoon and was strangling her just as a python would do when the father heard her cries. After a fight he killed the snake with a hoe. When Mr. Schoonover approached the snake it left the child and attacked him, but a lucky stroke of the hoe cut the reptile's head off. The child, who is two years old, was unconscious when the father picked her up and her body has since become black and blue, showing the great strength of the snake. Mr. Schoonover recently purchased a farm in Winnipauk and he took the child there today for an outing. He placed her in a basket while he worked in the field near by. The snake is one of the kind known as "old settlers." It was almost white with red and scarlet from head to tail. It has been seen in the neighborhood scores of times within the last ten years and has killed hundreds of small chickens.

WANTS BRITISH FLEET TO VISIT THE COLONIES

LONDON, June 2.—The Daily Mail, in a burst of enthusiasm over Australia on account of the proposed visit of the American fleet, in an editorial this morning, reminds the Commonwealth that the British Admiralty is not altogether to blame for the withdrawal of the Chinese squadron, which left Australia open to naval attack, because of large detachments of the fleet were stationed at distant colonies, dependent in Europe would be risked, and furthermore colonial contributions towards the maintenance of the navy were not adequately recognized. The Mail suggests, however, that in 1903, the admiralty should despatch a powerful fleet of modern battleships on a voyage to the great colonies of the British Empire, with a view to showing them that Great Britain possesses finer ships than the United States.

MEMBER OF RUSSIAN DUMA ON TRIAL

ST. PETERSBURG, June 1.—The Duma tonight surrendered M. Korsoroff, the socialist deputy for trial, on the charge of having delivered a post-election speech at Ufa, in which he incited armed resistance to the authorities. As the speech was delivered after the elections, it therefore came within the limits of legislative immunity, and the arguments with regard to the handing over of the socialist deputy hinged on the question of principle.
