#### BOSTON LETTER.

No Improvement in the Small pox situation at the Hub.

The Spiuce Lumber Market Continues tro g-Local Fish Trade is Generally Quiet-Bits

of News.

(Special Correspondent of the Sun. BOSTON, Nov. 21.-Boston experienced the first real indication this week that winter is appro Light snow fell morning in sufficient amount to cover the ground, but disappeared next day. In New Hampshire, Maine, Vermont and Northern New York there is a foot or more of snow, and runners have been out since last week. In this city there has been little heavy frost and the grass on the squares is yet

The first bishop of the new episcopa diocese of the Philippine Islands will be a Canadian, Rev. Charles H. Brent of St. Stephen's church, Boston, who has finally decided to accept the appointment. Fr. Brent is a native of Toronto a son of Canon Brent of the Cathedral there, and a graduate hen's church he was associated of St. John the Evangelist (the Cowley Fathers) and had charge of St. Augustine's church. While a high churchman, his departure will be deeply regretted by the other wings of the Episcopal communion. The loss is doubly heavy on St. Stephen's parish, as the rector, Fr. Torpert, recently died while visiting Toronto.

The national reciprocity convention now being held in Washington is attracting much interest in New England, but the general opinion is that it will not result in any great change being made in the tariff. Many leading republicans have already thrown cold water on the question, and most to be opposed to any tariff tinkering. United States Senator J. H. Gollinger birth, has declared himself to be a bitonent of improving trade relations with Canada. In an interview

this we "We sell three times as much to Canada as the dominion sell to us. Why should we make concessions? In mion, there will be no reciprotreaty with Canada. I was in Toronto recently and heard Sir Wilfrid Laurier, the Canadian premier, say in a speech that Canada was through with sending delegates to Washington looking for trade concessions. He said that if negotiations were resumed we would have to take

There is no improvement in the smallpox situation here. In fact conditions are worse, if anything, and citizens are uneasier than they have been at any time since the disease broke out. Since last week there have been about 40 new cases and two deaths. A general vaccination in all stores and milar establishments where crowds assemble is being carried out. During the present epidemic there have been 180 cases reported to the Boston board of health. There were 20 new cases in Boston and Cambridge today.

The members of the Harvard street last Thursday evening to their new pastor, Rev. Dr. Stewart, formerly of St. John, and his wife. Dr. Stewart was formerly located at St. George, N. B., and is well known in Baptist cir-

cles in the provinces. The Maritime Provincial Club of Boston and vicinity held its annual re-union and ball in Oddfellows' hall tonight. Several guests from all three provinces were present, and the attendance was very large. Martin Mc-Pherson was in charge of the func-

The annual ball of the Prince Edward Island Association was held on Tuesday evening in Mechanics' build-ing. The affair was also a reunion for many of the former residents of

After Jan. 1 the marriage of first ins will be forbidden by law in the State of Pennsylvania. Such a law already prevails in New Hampshire, Ohio and some other States, but in many localities the law is not observed. In New Hampshire, when first cousins desire to marry, it is said they go to some other State, where there is no such law, and have the ceremony

A Chicago despatch recently an-nounced that an attempt was being made to corner the egg supply of the country, but Boston egg handlers and importers know nothing of it. There are over 102,000 cases of eggs in cold alone, and the supply elsewhere does not appear to be giving out. The choicest eastern eggs can be had here for 35 cents a dozen and fresh laid western eggs may be had at 25 cents.

Burnham & Morrill of Portland have along the Nova Scotia coast 30 large lobster factories that are operated in the winter months. The present lobster laws in this country have caused many factories to be removed to the provinces, where smaller fish are al-

lowed to be put up.

Among provincialists in the city recently were the following named: Hon. H. A. McKeown and Mrs. McKeown, Turnbull, St. John; J. M. Lyons, Moncton; G. M. Mitchell, Liverpool, N. S.; Hon, F. D. Borden, Canning, N. S.; F. Mosely, Mrs. H. Grant, G. V. Att-more, F. Macdonald, Sydney; J. W. Pitcher, M. Barrie and Mrs. Barrie, Hallfax; Dr. J. A. W. Morse, Yar-

Lieut. Robert E. Bell., M. D., of Lowell, has been selected to command the Lowell ambulance corps connected with the Massachusetts State Militia,

hn B. McLean, the base ball player, and Policeman William H. Hill of Cambridge, became mixed up in an

outsiders interfering, the policeman lost his club and the catcher escaped ms McLean bit his ear badly during the mix-up.

John Verrall, an Englishman with numerous aliases, is under arrest in Indianapolis, he having voluntarily surrendered himself and admitted tha he has been guilty of extensive forgeries in Boston, Halifax, Toronto and other cities. In Halifax he says he was known as L. V. Latham. The total of his alleged forgeries amounts to \$12,000. In Boston he was known as Vincent T. Buckley, and pretended to be a book canvasser. The Bosto police have a warrant for him. Verrall is about 38 years of age and claims Neville family of England.

The death occurred in Brookline Nov. 11, of Mrs. Anna A. R. Pavn-Sills widow of James Payn-Sills, formerly

that city. The spruce lumber market continues strong, with a scarcity of stock noted and prices are firmly held at the top notch. Cedar shingles are scarce and very firm. Dealers report that they are having trouble filling orders. Extra cedars are worth \$3.15 to 3.25; clear \$2.85 to 2.95; second clear, \$2.35 to 2.45; sap, \$2.10 to 2.20; extra No. 1, \$1.75 to 1.80. Clapboards continue firm at \$32 to 33 for extra spruce, \$30 to 31 for clear, and \$27 to 28 for seco clear. Laths are also very firm and prices are higher. For 15-8 in. \$3.15 to 3.25 is asked. and for 11-2 in. \$3. Spruce dimensions, 10 and 12 in, are to 18.50; 10 and 12 in. random lentghs, 10 feet and up, \$19 to 19.50; merchantable boards, \$15 to 16; matched boards, \$17.50 to 18.50; out boards, \$12.50 to 13. Hemlock is very firm in sympathy with spruce. Hemlock boards 12, 14 and 16 feet, are worth \$14 to 14.50 for good eastern. Five cargoes of lumber were received from the provinces last week, with a total of 550,000 feet, 10,000. feet of piling, 50,000 laths and 32,000

The local fish trade is generally quiet. The market for codfish continues easy, though nominally little changed. Jobbers quote large shore and Georges at \$6.50 to 7; medium, \$5.25 to 5.50; large dry bank, \$5.75 to 6; medium. \$5.25 to 5.50: large pickled bank, \$5 to 5.25; medium, \$4.62 to 4.75. supply, with the market firm. Nova Scotia large split are quoted to \$6 to 6.50 per bbl., and medium at \$5.50 to 6. Sardines are selling are low prices because of competition. Quarter oils can be had for \$3.25 to 3.35, and three-quarter mustards at \$2.50 to 3. Canned lobsters are scarce, but little trade is doing. The market is wholly on a nominal basis. Live lobsters are worth 16 cents at first hands here, and boiled

### FAIRLY CONE MADI

is a modest way of telling of the torture that thousands of people have suffered from Skin Diseases—before they learned of that wonderful healer Dr. Agnews Ointment.

But "gone wild with joy" only faintly expresses ng in the thankful hearts that hav been relieved from skin tortures by this greatest of skin healers. Have you Piles? Salt Rheum? Eczema? Ring-worm? Pimples? Has baby got Scald Head? Have you any eruption of the skin? One application of Dr. Agnew's Ointment skin? One application of Dr. Agnew's Ointment will help—a few will cure—it never fails. 35 cts.

TEMPERANCE RALLY.

The World's Sunday School Temperance Sunday rally was held Sunday afternoon in St. Andrew's Church by the St. John Sunday School Association, and was well attended W. C. Whittaker presided.

The programme consisted of: Organ selection, Miss Bessie Everett; singng by St. Andrew's Church choir; re ponsive scriptural reading; hymn, God Bless Our Cause; address of welcome by the chairman; exercises by preliminary classes of Main Street Saptist and St. David's Presbyterian Sunday schools; recitation, I Have Signed the Pledge, Fred Barker, Germain Street Baptist; hymn, The Temperance Banner; address on temper ance by Rev. J. A. Richardson, rector of Trinity Church; hymn, Mourn for the Thousands Slain; recitation, a promise class of little boys from Queen Square Methodist Church; quartette; prayer, R. W. Weddall; temperance doxology.

### Why Catarrh is Fatal.

Because it pours a flood of poison into the circulation that saps streng and digestion so materially as to render the body incapable of resisting di-sease, and consumption is the result. Catarrh is quickly cured by Catarrhozone, a fragrant germ destroying ozone, a fragrant germ destroying vapor that goes to the root of the disease. It soothes and heals the inflamed mucous surfaces, clears the head and throat, and positively never fails to perfectly cure Bronchitis, Asthma, or Catarrh. Nothing is so good for diseases of the respiratory organs as Catarrhozone. Large outfit \$1. Small size 25c. Druggists or by mail from Polson & Co., Kingston, Ont.

ANNIVERSARY AND DONATION.

At the Methodist parsonage, Elgin, on Friday evening last, the Rev. W. E. Johnson and his estimable wife were given a very pleasant surprise, the occasion being the twentieth anni-versary of their wedding. Shortly after 5 o'clock eighty or more of their friends, Mosely, Mrs. H. Grant, G. V. Attde, F. Macdorfald, Sydney; J. W.
her, M. Barrie and Mrs. Barrie,
ifax; Dr. J. A. W. Morse, Yarth.

Children Cry for CASTORIA WOLSELEY, N. W. T.

How New Brunswicker's Have Grown Wealthy There.

Wenderful Grain Crop-Senator Perley, of Sunbury County and Walter Black of Sackville Judge E. L Wetmore's Son and His Big Hotel-Death of James Biden of York County-A Few Words About

(Special Correspondence of the Sun.) WOLSELEY, N. W. T., Nov. 18 .- The possibilities of this great country can hardly be excelled in almost any conceivable feature of production. The four seasons have been exemplified here in rapid succession. The spring was late and backward, seeding in April, but a snow storm delayed th work until the first week of which made the seeding later than usual. A timely rain in June followweek of August, by- the end of the month the crop was all in stook and a considerable acreage stacked. Then there was a sudden reversion the temperature previously prevailing. east winds set in with rain. came a foot of snow, which covered the great harvest fields with grain in stook and stack, making them look like whitened sepulchres of a

All this has been changed. The snow gradually disappeared, the ponderou threshing outfits went into commis-sion, and as a result the farmers are busily engaged handling their exceeding crop, the products of their labor to the immense elevators all along the line, which are now being filled to their utmost capacity, while train load after train load have been sent forward, and are still being sent as fast as empty cars can be proc From the township of Wolseley ten, over 100,000 bushels of wheat, have vators in this town, and yet looking from any elevation on the fields around one comes to the conclusion that very little threshing has been done. fact, the stook threshing is only about completed. Much threshing rema be done throughout the vast fields of wheat vet. There are from three to seven elevators at all the towns along the line. These are now about filled and a grain blockade is imminent, although the C. P. R. is doing its utmost to furnish cars for shipping the

Threshing has been completed of the Perley farm, and as a criterion mentioned that the wheat gave over 38 bushels per acre; oats about 90, and barley 70. Ten bushels of barley were sewn on eight acres and produced about 560 bushels. From the 475 acres ley farm has produced 14,000 bushels wheat, 7,000 do. oats, 560 do. barley, some rye, and 1,300 bushels of pota toes taken off four acres. And yet only about one-tenth of their lands are under cultivation, all of which is

equally good. Your correspondent has also had the pleasure of meeting with Walter Black, a son of George Black of Sackville, who is now visiting his son here. Mr. Black is a graduate of Sackville Academy, a first class school teacher, and an engineer. He came here about two years ago. He will have this year about 9,000 bushels of wheat and 2,000 bushels of oats. All wheat above mentioned has graded No. 1 hard and No. 1 northern. Owing to the great lemand for threshers, Mr. Black took advantage of the times and bought Senator Perley's outfit when he finished threshing, and is now engaged in aking care of his bountiful harvest. He too has a number of N. B. men men in his employ, Guy McLeod of St. John, Frank Miles, Bert Wilson, Gibon; A. L. Treadwell, Maugerville, and Jacob Weazel, Fredericton. Mr. Black's wife is a granddaughter of Recorder . D. Yerxa of Frederict

Nearly 2,000 bushels of wheat are nov coming into this town daily, which put over \$1,000 into the pockets of the armers every day. Men who were fortunate to come here a few years ago are now in easy circumstances and many are wealthy. Land that was purchased near this town for \$5 per acre will pay the interest of six per cent at the rate of \$60 per acre. Onethird of the crop for the rent of the land is the general rule here between landlord and tenant.

Beside those of our own province people who are flourishing here there are quite a few from Nova Scotia and quite a number from Ontario, James P. Dill, formerly of Colchester Co., N. S., is a prosperous merchant in the town and a large land holder. His sister, Miss N. Dill, is the obliging and painstaking dispenser of His Majesty's mails, who discharges her official and arduous duties without fear or favor. As common for all the towns alon the line of railway, there is a weekly edition of the Wolseley News, a paper published in the interest of the town by Mr. Hall, a non-political sheet, sympathetically grit. V. H. Wetmore a Fredericton boy, son of Judge E. L. Wetmore, has leased the new hotel, which is now about completed. It is larger than any hotel in Fredericton, is fitted with all modern improvements and will be furnished as a first class congratulated upon his enterprise and pluck, will open the house to the pubic as soon as the furnishing is com-

to Regina by your corres pondent during the visit of their High-nesses was full of interest, as we had ber of old New Brunswick friends while it gave us great pleasure to see several of them taking a leading place in the festivities of that memo occasion. There were Hon. Senator W. D. Perley, Hon. G. H. V. Belyea and Judge E. L. Wetmore. Regina, although elaborately adorned for the

n, was seen at a disadvantage The country about Regina is an end-less wheat producing prairie.

On Tuesday, Nov. 5th, Wolseley lost

by the hand of death two old pioneers James Biden, sr., and Andrew Elliott, whose ages were about 70 years. The ormer came from Stanley, Vork Co. and was a brother of Charles Biden, postmaster of Lower St. Mary's. Deceased left his home there 39 ago, ultimately homesteading here in 1882, as also did the latter. Their funerals took place at the same hour on Thursday, and as a mark of esteen by which they were held all business was suspended in the town during the services at their respective homes, and the funeral corteges left the town for the cemetery. The late Mr. Biden leaves four sons, who reside here, and three daughters. To correct an error that crept into a recent letter re Qu'Appelle valley, "9 miles miles wide" should have been one mile wide and about 300 feet below the table land on either side. At Fort Qu'Appelle ther is a lake 14 miles long which embraces the full width of the valley. A short distance below, connected by a narrow and straight stream, there is an other take 7 miles long, and a short distance below that another 5 miles long. All have deep water and abound There have been no storms her ince the snows of September. Wheat

that was threshed and put into open bins in the field kept in excellent con lition. The roads are like macadam Thousands of Americans of the western states are now turning this way, and many foreigners are coming into the country, which should be a strong incentive to our maritime young men to turn this way rather than go to a foreign country and be wood and drawers of water." Men who came here a few years ago poor in pocket and purse are now on the high road to independ-They homesteaded or bough land at \$5 per acre which is worth \$50 per acre when brought under cultiva tion by the sturdy sons of toil. The wheat fields are equal if not better than placer mining, as it raises the "dust" while supporting the inne man. G. A. T.

ETOPS THE COUGH AND WORKS OFF THE COLD.

BATHURST S. S. INSTITUTE.

A Sunday school institute of two ns was conducted in the Methodist Church at Bathurst on Friday, Nov. 22, under the direction of Rev. A

in the chair and the minutes were kept by the county secretary, Mitchell

After devotional exercises led by Mr. mith, the afternoon session was upled by two conferences; one on How Best to Use Temperance Sunday in Our Schools? This elicited much nterest. The second conference wa cond week in January), its purpose our Sunday schools. Pastor H. id and J. Goldsmith well led the people in these subjects. The tes ers took a deep interest in these things for their own work.

For the evening after a Bible readng, a conference of forty minutes or Home Department work brought out many points of value to church and A conference on The Sunday school Teacher and his Work closed a aluable conference.

The remains of Mrs. Sadie Lightwood, who died of Bright's disease in Boston on Thursday, were forwarded through St. John on Saturday to Traeadie, N. S. Deceased was 42 years of

THE LUMBER OUTLOOK. About \$248,000 Worth of Logs Hung Up-The General Situation.

Last year out of a total cut of about one hundred and forty million feet of lumber eleven and a half millions were hung up. This year the cut has been one hundred and thirty-three millions, and of it no less than thirty-one millions have failed to come down. The drives which were hung up last year were 5,000,000 feet of Kilburn's logs and 6,500,000 belonging to the Woodman estate. This year the 31,000,000 feet are divided among different lumber operators, nearly every one having some interest in them.

Of the drives which have failed to come down, 25,000,000 is regarded as being in danger, while the other 6,000,000 is safe. On the main river, just below Eel river are 10,000,000 feet of the lower corporation drive, in charge of Morrison and R. J. Noble. The tail of this drive is twenty miles below Woodstock and thirty miles from the boom limits. It belongs to Kilburn, W. H. Murray, Cushing, Stetson, Cutler & Co., Charles Miller, N. H. Murchie, Randolph & Baker, Cunliffe Sons and Dunn

Another 10,000,000 is on the main river

is known as Kilburn's drive. The balance of the 25,000,000 which

Besides these drives there are 6,000 .-000 feet lying in safety at three different points. One drive of 2,000.000 is on the Fish river; another of 3,000,000 on the Northwest river, both of these be ing owned by W. H. Murray. The former is in charge of Laliberte and the latter part of Kilburn's big drive. On the St. Francis river there is a small drive of 1,000,600 feet, owned by

The cut this year was estimated at 135,000,000, and the returns to date show this estimate to be a very correct one. There have been rafted from the Fredericton booms 35,332 joints, containing a little over 67 tons of timber. This is made up of 119,000 feet lock, 6,417,000 feet cedar, 3,768,000 feet pine, 81,093,000 feet spruce, in all 91,-

Above the boom limits there have been rafted 11,497,000 feet, making a total of almost 103,000,000 which has reached safety. The lumber which is at present hung up is worth at least \$8 per thousand feet, or for the whole lot no less than \$248,000.

above Grand Falls. It is the upper corporation drive, and is in charge of L. W. and E. W. Pond. It is owned chiefly by W. H. Murray, and is what

is regarded as being in danger, consists of 5,000,000 feet at present situated at the head of the Aroostook Falls, in charge of Morrison and Noble. It is a part of the big drive now below Eel river, which failed to get into the main river. This drive is owned by N. H. Murchie, Dunn Bros and Robert Aitken.

The 25,000,000 feet are so situated that if in the spring the ice runs out as it does four times out of five all this lumber will be saved. It is hoped that there will not be a rise in the for if this should occur the logs un river will be liable to be brought into almost certain danger. In the position in which they now lie they will be quite easily saved, but a rise in the water or a sudden running out of the ice in the spring will make their loss almost certain

The Mitchell, Sterling, Gill and Glasier booms have all been disconnected from the piers and hauled ashore. The sheer booms throwing the logs into the taken in and housed for the winter. It is expected that the sheer booms at Crock's Point, throwing the logs into Chelsea. the Douglas and Sugar Island booms, will be taken care of by tonight. In the Douglas boom there are about 750,-000 feet and in the Mitchell about fore Capt. Bloomfield Douglas, R. N. 1,500,000 feet which, on account of the R., for a master's certificate.

St. Stephen, N. B.

ice, cannot be rafted and which will necessitate leaving those booms out all winter. It is, however, believed that they will be able to stand any strain that may be put on them.

Among the mill owners along the river, logs are becoming scarce, and it is probable that only two mills-those perated by Cushing-will run during the entire winter. Six mills are running today, Miller's two, Cushing's two and Stetson, Cutlers & Co.'s two. Of these both of Miller's will close down tonight, and the Stetson, Cutler & Co.'s in eight or ten days.

It is said that the owners of the ten million feet or so of logs in the corcoration drive, stranded near Brown's Island, have decided to remove them from the river as soon as it can be ione, says the Fredericton Herald. While there is no great danger of the logs being carried out to sea in the spring the majority of those interested feel that it would be safer to have them hauled out of the water and scattered it is felt that the work can be done at a fairly reasonable figure

DEATH OF DANIEL MCBEAN.

James Bayne received a telegram last night from Chelsea, Mass., conveying the information of the death of Daniel McBean, formerly of this poor health at that time, and it is understood has been ill most of the time since. The deceased was a native of Vale Colliery, N. S., but worked for many years in the shops here. was an elder of St. John's Presbyterian church and a prominent member of Prince Albert lodge, and a man very generally respected. His wife is a sister of W. B. McKenzie of this

## THE WORLD'S GREATEST FAMILY MEDICINE

Triumphs Over Kidney and Liver Troubles and Constipation.

In the medical world of this twentieth century it would be difficult to find a single remedy which has cured so many cases of serious and chronic disease as has Dr. Chase's Kidney-Liver Pills. The phenomenal success of this, the favorite pre-

scription of the famous receipt book author and physician may be attributed to the fact that it is the only preparation extant which has a direct and combined action on the kidneys and liver. Anyone who realizes the intimate connection between these two great filtering organs can easily see the reason why Dr. Chase's Kidney-Liver Pills cure where other remedies fail.

Mr. R. B. Dixon, McGillivray, B.C., writes:—"I have found Dr. Chase's Kidney-Liver Pills to be exactly what I needed. Since 1897 I have been on the construction of the Crow's Nest Pass branch of I have been on the construction of the Crow's Nest Pass branch of the C.P.R., employed in all capacities and exposed to all kinds of weather. I contracted a severe cold, then pain across the back, and owing to the hard fare we sometimes had to live on, the liver got sluggish and out of working order. Dr. Chase's Kidney-Liver Pills seemed to be the very freatment I needed, and they have made me well again. I also used Dr. Chase's Ointment for Eczema last summer. It cost 60 cents a box, but was worth \$60. The cure was complete."

## Dr. Chase's Kidney-Liver Pills

Because of their remarkable influence in regulating the kidneys, liver and bowels and thereby curing constipation, kidney disease and liver complaint, Dr. Chase's Kidney-Liver Pills have come to be considered unapproachable as a family medicine. They are found in a great majority of Canadian homes and have by far the largest sale of any similar preparation. 25 cents a box, 5 boxes for \$1.00. At all dealers, or Edmanson, Bates & Co., Toronto.

TO THE

It is therefore a money-
