Golding was a member of the second contingent to South Africa.

No facts of a definite character have been learned which shed any light as to the motive which caused Golding to destroy himself. His close friends speak well of him, and his employers give him a good character. His mother and his sweetheart are brokenhearted. All know of no reason for the young man's rash act.

Mr. Golding went to Hampton on Tuesday afternoon, returning to the city by the Sussex yesterday morning, accompanied by his mother, who is now visiting her friend, Mrs. Hay, at 62 Waterloo street. The cleaners in going through the first time to clean up the car saw no signs of blood, and had no suspicion that anything was wrong. Passing through at a later hour, James Kavanagh tried the door of the closet and found it locked. He notified the foreman, Oscar Peterson, who on making an examination noticed blood coming down the hopper. He called the attention of Wm. Mc-Adoo, the carpenter, to the circumstance. The latter got a ladder and looked in the window. The sight that met his gaze he will not forget soon. The body was in a crouching position, and the floor was reeking with blood.

Miss Mary Richmond, of the Philadelphia Society for Organizing Charity abominates professional beggars, and has innumerable stories in proof of the worthlessness of these men. Many of Miss Richmond's stories have a humorous turn. Thus, recent-

"The gentleman, a true philanthro pist, turned and saw a thin and ragged figure at whose breast hung a card saying: 'I am blind.' The gentler took a coin from his pecket, and dropped it into the blind beggar's cup. "But the coin was dropped from too great a height, and it bounced out again. It fell and rolled along the pavement, the beggar in pursuit. Finally it lodged in the guttar, whence the blind man fished it out.
