CLARA LOUISE KELLOGG

And Her Wonderful Career.

After her retirement from her successful appearance in opera in Vienna, Clara Louise Kellogg confined herself to concert engagements. Her debut was made as Gilda in "Rigoletto" in New York city, but her greatest success was as Marguerite in Gounod's "Faust." Clara Kellogg never grew weary of singing the old familiar songs and ballads for encores, and when she sang Gounod's "When to Thy Vision," she transported her hearers to the story of "two fond flow'ers on one stem united."

"When to Thy Vision" is to be found on page 475 of "Heart Songs"—that unique volume of songs and music now being almost given free to its readers by this paper. We endorse the book by our distribution, and ask our readers to look for the coupon elsewhere in today's paper.

GILLET'S LYE

Curtain Burned.

A burned curtain was all the damage done by a slight fire which took place at the house of H. Scott, 227 Brussels street, last night. Whilst the burning fabric was being torn down the alarm was sent in from box 15, which resulted in the motor chemical turning out. Its services were, however, not required, as the blaze was extinguished "ere" it arrived, although the chemical's arrival was most prompt.

Wonderful Bilious Remedy Actually Prevents Attacks

There are two great causes of biliousness—they are constipation and defective liver action.

When Dr. Hamilton's Pills are taken they do not only correct constipated bowels, but act upon the liver as well.

Quite unlike ordinary medicines which purge and give temporary relief, Dr. Hamilton's Pills remove the conditions which cause biliousness, and thus permanent cures are effected. No person who occasionally uses Dr. Hamilton's Pills will ever suffer from the headache, bad stomach or bilious complaint. Get a 25c. box today.

BOY SCOUT COMMITTEE HELD MEETING IN BOND'S

Arrangement for Scouts to Use Y.M.C.A. Swimming Tank—Plans for Meeting Incoming Boats.

A meeting of the local association of the Boy Scout Committee was held in Bond's cafe, last night, at which many important subjects were discussed. Rev. H. A. Cady occupied the chair, in the absence of A. C. Skelton, and was supported by B. W. Waring, R. J. McPherson, M. W. Galle, A. Ellis, H. McDonald and E. Kee.

With reference to the offer made to the committee by the Y.M.C.A. to allow their swimming tank to be used on a certain afternoon to be arranged by the boys, it was stated that Mr. Waring is making arrangements with the various troops, and a schedule will be drawn up. It is expected that Saturday afternoon between 2 and 4, will be the best time.

The subject of meeting the boats, which had the returning wounded soldiers on board, was thoroughly gone into and it was mentioned that although the Missanable arrived yesterday the Boy Scout Association had received no word to have boys on duty.

The suggestion made by The Standard, some time ago, of having a Boy Scout band organized in the city, was again reported on, and it was learned that a number of the troops are desirous of being represented in the proposed band. Mr. Waring was asked to find out how many troops and boys in the troops would like to participate, and it is expected that he will report at the next meeting of the committee.

Boys Residence in Fairville.

Geo. Costley, baggage master on the C. P. R., has recently purchased from the Panton Land and Building Company, one of the two new houses erected by the Panton Company just opposite the Presbyterian church in Fairville. These houses are erected on the property purchased a couple of years ago by the Panton Company from the city. It is the intention of the company to erect during the summer some eight or ten houses which should be particularly attractive to railroad men.

Quebec, Feb. 21.—Sensational talk is going about a fire that today completely destroyed the \$400,000 Beaufort church. The city editor of Le Soleil, Quebec's leading daily, admits this afternoon that, some days ago, he received an anonymous letter from Beaufort, saying that Pastor Desiel, of that parish had been threatened by anonymous letters, presumably coming from sympathizers of Germans interned at the Beaufort armory.

FIRE IN BEAUFORT, QUE. CHURCH THE WORK OF GERMAN SYMPATHIZER?

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home, is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger.

Mrs. P. R. Warren Tells Young Women's Patriotic Association What English Women Have Done.

In spite of the cold night a well attended meeting of the Young Women's Patriotic Association was held last evening in the recruiting rooms, Germain street. Miss Lois Grimmer, the president, was in the chair and Miss Taylor, vice-president, acted as secretary in the absence of Miss Keefe. The chief speaker of the evening was Mrs. P. R. Warren. Speaking directly to the girls Mrs. Warren said that as she had been both in France and England and had seen the work being done there, she felt when she returned to Canada that we here did not grasp the reality of this fearful war. Many of us had made the sacrifice of letting our men go, but what were we doing to release other men? The spirit and lifelessness of Canadian women struck her like a blow on her return last September. The girls could wield an enormous force if they had the spirit which animates the women on the other side. While many Canadian girls are willing, how many are ready? Would we like to have a card with "unfit" handed to us if we were called upon as the women are today in England? There are 400,000 asked for in England. Are the Canadian girls not as clever as the English who are working in munition factories doing work which it was formerly thought impossible for them to do?

Mrs. Warren then told of two incidents she knew personally. A girl of twenty-two was a girl of leisure, never used to working, but strong. A call came for train-car conductors. This girl said to a friend "Let us go." Ten more followed their example. They work from eight in the morning till eight at night and get \$5 a week. They like to work. Asked if the men were rude, "Why no," she said, "they always want to tip us." It is a shame, said Mrs. Warren, "to see the young men employed in St. John. I want the girls to take their places and send them to the trenches. Mrs. Warren asked how many members would be willing to do such work and almost every hand went up.

Another woman has a husband fighting. She left her young baby in charge of a nurse and went to an office every day as secretary of a patriotic association. Wednesday nights she acts on a police patrol with a policeman, looking after girls at the London stations. Saturday and Sunday afternoons she works in a munition factory. The women of France do all the farm work.

Mrs. Warren urged the association to register and train, take business courses and prepare for the call that is surely coming.

Mr. Porter also gave a good address, praising women's sacrifice in this war and telling just in what way it is a war for women.

A large number of new members enrolled at this meeting. It is hoped to have weekly meetings of the society and Mrs. Warren has promised to speak again.
