The New York World on Canadian Affairs.

In Saturday's issue of the New York World we find the following relative to the fears of invasion in Canada :-

"Our Canadian neighbors are in a bad way. Upper and Lower Canada are at swords' points again and separation is talked of. A panie is under way also touching the probability of a war with he United States. The Kenucks and Blue Noses are convinced hat these terrible Yankees intend to over run and conquer their frozen and sterile ountry. That uneasy agitator, Thomas D'Arey McGee, is out in a letter in which he ewaly warns the Canadians that the lankees ere preparing for an invasion of Canada with an army of 100,000 men. He says that there is a concentration of stores at Fort Montgomery, Rouse's Point for an immense army and that he has positive inforoution of the hotile intentions of the Wash. cabinet. Of course all this bosh is lumply to keep the name of Mctee before the people of the Provinces, so that when the kingdom he predicts arrives, he may be capacity of the company for many years. me of the chief flunkey's to the new sover

The Rev. gentleman assumed greed of the Yankees, will all be left Simcoe on Saturday week, and preached neitements to keep our neighbors in constant fear of an invasion, with its attending scenes of devastation and suffering. To escape these panies we take the liberty of naking a suggestion to the Canadian press. Let them all come out from dissolving the connection between Canada and the mother country, and agree to become part of the United States. We alluded, in last week's issue to the debate on the speakership and to the extreme bitterness and virulence with which it heir Steamboats gratuitiously at the was conducted. We are now happy to observe that the press, throughout the Province, is out in condemnation of the bitter conduct of some of the members of the op position. The Kingston "News"-a con servative paper-condemns, in very proper terms, the dragging up of the Aylward's case as a judicial murder, for the purpose of making political capital against Mr. Wallbridge; and says it appears evident that in spite of all the controversy, in spite of all the Parliamentary papers, and official copies of the judge's notes of the evidence, the idea that the culprits were executed because they were Catholics still rankles in the Lower Canadian mind. Mr. Turcotte must have counted on this feeling when he raked up Mr. Wallbridge's connection with the adminjectionable qualification. In this part of Upper Canada the reference is looked upon as positively disgraceful to the Lower Cana-Canada members who joined in the hounding down of a political opponent by so base an appeal to the religious prejudices of a portion of their auditory. It was a deliberate insult to the Chief Justice of Upper Canada, who was the presiding judge, and who happened to be present in the Assembly when the allusion to the trial was made: and who properly resented the insult by at once leaving the House. It was equally a reflection on the Governor General; and as a partizan expedient, it was one which will shed no honor upon the Opposition. The Opposition must use legitimate weapons if it wishes to succeed with honor; and success without honor would only be worthy of the party calling itself Conservative

NELLIE.

SIR-We had the pleasure of attending a social Pic-nic last Thursday afternoon, got up by the young ladies of this village. About 3 o'clock a good number of both sexes might be seen going towards "McCaffrey's Landing," where the boats were ready to convey us to "Rocky Point," about three miles from the village. After we got fairly started the metry song and joyous laughter seemed to speak out the happiness of the heart within, and bid dull care adieu for one afternoan at least-suffice it to say we arrived at the 'Point' without accident or incident worthy of note about half-past four o'clock when we had a jolly time getting a swing fixed, fire kindled and several mysterious looking baskets conveyed to a convenient Then, preparing tea, but, as too place. many cooks spoil the broth, some went away boat riding, others swinging, and two or three of the quieter ones enjoyed a pleasant chat under the trees, till half-past five, when tea was announced. I shall never forget the puzzled look of some of the party, who, I presume, expected to see a board table and seats-alas! for human expectations; behold white tablecloths spread out, the luxuriant green grass serving the place of both seats and table. As there was no alternative we seated ourselves in true Eastern style, to partake (I doubt not) of the contents of the "mysterious baskets," consisting of an endless variety of cake, accompanied SIR-I was a little disappointed, while by a cup of excellent tea.
