WASH NEW FLANNEL.—Cut the Soap small, and boil it in a little water.
Have two tubs with water as hot as the hands can bear, previously blue the
water well, to keep the color of the flannel, and put some of the boiled soap
into one tub to make a lather; then wash the flannel without squeezing it.
Put it into the other tub, and wring it in a large towel. Shake it then out,
and, after drying it, smooth it with a cool iron.

GERMAN CREAM BISCUIT.—Take four ounces of butter, six ounces of
powdered loaf-sugar, seven ounces of flour, one tablespoonful of fresh cream
and one egg. Make the above into a dough, beating it well; then roll it out
very thin, cutting it into square pieces two inches long and one broad.
Bake it in a quick oven, and when done they should be a light yellow brown.
