

Like a Miracle

Consumption—Low Condition Wonderful Results From Taking Hood's Sarsaparilla.

Four years ago while in the old country (England), my daughter Hannah was sent away from the hospital, in a very low condition with consumption of the lungs and bowels, and weakness of the heart.

She was sent to the hospital, in a very low condition with consumption of the lungs and bowels, and weakness of the heart.

Hood's Cures

THE REPORTER COUNTY NEWS.

INTERESTING LETTERS FROM OUR STAFF OF CORRESPONDENTS.

OAK LEAF

TUESDAY, April 2.—The time of the year for making sugar has arrived and most of the farmers have begun operations, but the run has been small as yet.

HARD ISLAND.

THURSDAY, March 21.—Our enterprising young cheese maker, Mr. Jas. Robertson, has returned from Guelph, where he has been attending the Ontario agricultural college.

FRANKVILLE.

SATURDAY, March 30.—Sugar making has commenced. Our cheese factory opened on Tuesday, 19th, under the management of J. Jones.

PORTLAND.

SATURDAY, March 29.—Portland is beautifully situated on the Rideau Lake, while to the south and west is a range of the Rocky Mts.

WILKINSON.

MONDAY, April 1.—The weather for the past week has every appearance of spring. The merchants have already received some new spring.

TOLEDO.

MONDAY, April 1.—Great preparations are being made for sugar making. The merchants have already received some new spring.

WARBURTON.

MONDAY, April 1.—Messrs. Jas. A. Wright and Jas. Bolger passed through town on Saturday. They purchased a very fine black coat from Mr. John Gavin.

SEELY'S BAY.

FRIDAY, March 29.—R. Gardner's cheese factory will commence operations on Monday, April 1st.

DESERONTO.

MONDAY, April 1.—The Salvation Army has a new lady captain and the barracks is crowded every evening.

ELGIN.

MONDAY, April 1.—A grand revival is being held in the Methodist church, conducted by our pastor, Rev. F. Reynolds, assisted by Mr. Bates of the Bay of Quinte conference.

FRANKVILLE.

SATURDAY, March 30.—Sugar making has commenced. Our cheese factory opened on Tuesday, 19th, under the management of J. Jones.

LOCAL SUMMARY.

ATHENS AND NEIGHBORING LOCALITIES BRIEFLY WRITTEN UP.

Events as Seen by Our Staff of the Press.—Local Amusement Billed Right Down.

I have only one bicycle left, but have more ordered to arrive in a few days.—E. S. Clow.

Mr. A. Moran, formerly with J. H. McLaughlin, has entered the employ of Mr. G. W. Beach.

Miss Oloze Sexton, milliner, will shortly return to Athens. Her stock has already arrived.

Rheumatism is primarily caused by acidity of the blood. Hood's Sarsaparilla purifies the blood, and thus cures the disease.

Mr. J. DePencier Wright, student at Trinity University, is spending Easter vacation at his home, The Rectory, Athens.

Wm. Reid, of Plum Hollow, leaves today for the Canadian North-West. He will locate on a farm about six miles from Elmhurst.

Lost—On Tu day last week between Bay St. and the street, a black mitt. Finder will please leave at this office.

Arza N. Sherman is very busy this spring fitting up cheese factories and mills. This week he is at Lyndhurst fitting up a mill and cheese factory.

The Ladies Auxiliary to the Brookville General Hospital will meet at the residence of Mrs. Fisher on Wednesday afternoon, April 10th, at 8 o'clock. A full attendance is requested.

Mr. Ed. Miles, C.T., arrived here yesterday, and states that Athens has been added to his route and that in future he will call on the merchants of this village every six weeks.

Please remember the Sugar school, in the basement of St. Paul's Presbyterian church on Tuesday evening, April 1st, at 8 o'clock.

Special meetings will be held at the Salvation Army barracks Wednesday April 3rd, and Friday, Saturday, and Sunday, April 5, 6, and 7th, led by Capt. Cameron of Brockville also Adj. Magee of the Social work. The public are invited.—CLARA SPATA, Captain.

The new large-size post cards admit of great possibilities in the way of postal formal correspondence. An Athenian lady filled one up last week, and being struck with the amount of information she had written, was curious enough to count the words it contained and, to her surprise, found the number to be four hundred.

Eight years ago farmers in this section did not tap their trees till about the 1st of April. There was considerable snow on the ground that year at this time, and a sudden rise in temperature and a down-pour of rain carried it away in about twenty-four hours, producing a frost that did great damage to bridges, etc.

The brass band is making highly satisfactory progress towards proficiency. An experienced bandsman told the Reporter a few days ago that he never knew a band to excel the Athens players in mastering the scales and the already several unions parades were being rendered harmoniously and in good time. Up to the present the band has been under the leadership of Mr. C. C. Slack.

A new tongue, whitestones and neck yoke were put on the Athens fire engine yesterday. The whitestones are Bissell's Patent Truss, and the neck yoke has been patented by a strap with buckles has been put on the neck yoke that will allow a large or small team to be readily attached without change to the harness. In case of fire those having teams to put on the neck yoke will require only harness on their horses.

Mr. C. Barber, for several years clerk in the grocery of Mr. Joseph Thompson, severed his connection with that firm on Saturday last and after spending a short vacation at his home will leave for New York city where he will enter the employ of his uncle, who runs several of the largest grocery establishments in the city. Cliff was deservedly popular in Athens and will no doubt make a success of his life in the big metropolis of the Empire State.

Mr. John E. Steacy of Warburton gave the Reporter a pleasant call on Friday afternoon last. Besides attending to a large and well cultivated farm on the sixth concession of Lansdowne, John has taken to act as agent for several agricultural implement firms, run a traction engine and threshing during the threshing season and a circular sawing machine during the winter. His trip to this vicinity was to cut up several large piles of stove wood, including Elwin Fair's year's supply, in this village.

Yesterday (last of April) was not a particularly good day for business in Athens. The disagreeable weather kept farmers and villagers alike within doors, so that business men generally simply sat and waited. But there was one business house that was a hustling, bustling hive of industry all the dreary day—at least, so thought the junior clerk, for he was delivering messages all day long. He looked tired but was still chuck full of business when he called at the Reporter office shortly before 6 p.m. to learn if he had any reply to the message he had delivered earlier in the day. Needless to add, all the messages contained the same little stanza connecting the brilliancy of the messenger with the 1st of April.

Hough's Improved Langwath's Hivo is cut and supplied in the flat or nailed at the planing mill and sent and most popular. The 8-frame is generally best adapted for our climate. By a special order it will be cut 9 or 10 frame. A space of 1 1/2 inches is allowed for every frame. This gives right length of cell comb and a proper bee space between combs. In nailing, give frame 3/4 inch draw—that is 3/4 inch (nearly) shorter at bottom than top.
