**AYER'S
Sarsaparilla**

Is a highly concentrated extract of Sarsaparilla and other blood-purifying roots, combined with Iodide of Potassium and Iron, and is the safest, most reliable, and most economical blood-purifier that can be used. It invariably expels all blood poisons from the system, enriches and renews the blood, and restores its vitalizing power. It is the best known remedy for Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blotches, Sores, Holes, Tumors, and Eruptions of the Skin, as also for all disorders caused by a thin and impoverished, or corrupted, condition of the blood, such as Rheumatism, Neuralgia, Rheumatic Gout, General Debility, and Scrofulous Catarrh.

Scientific and Useful.

A LITTLE sweet oil and beeswax rubbed on mahogany polishes it up beautifully.

A DISH or vase of fresh water should be kept in every room where there is a fire, especially an open fire. The water absorbs the gas rising from the coal and all other impurities of the air.

COLD nights in some localities may injure plants at the window. Remove them when severe cold is expected to the middle of the room and if necessary cover them with a sheet or with newspapers.

A SLIGHTLY damp cloth rubbed over a dusty carpet brightens it wonderfully, and gathers all the dust. This is an excellent way to cleanse the floor of an invalid's room, where noise and dust are objectionable.

A CORRESPONDENT of one of the medical journals says that the application of a strong solution of chromic acid three or four times a day by means of a camel's hair pencil is the best and easiest method of removing warts.

STALE buns may be made to taste as nicely as when fresh, if they are dipped for a moment or so in cold water and then put in a hot oven for five or ten minutes. They will turn out as nice and as crisp as when first baked.

A VERY pretty blanket for the baby's carriage is made of blocks about six inches square of scarlet and white worsted, crocheted in Afghan stitch; on the scarlet block work some little figure in white. The white block may be ornamented or not, just as you please.

INVALIDS BREAKFAST.—Breakfast for the sick should, if at all possible, be ready for them as soon as they are prepared to eat. They not only need the nourishment, but in a weak, exhausted state of the system, waiting is a strain on the nervous strength which great care should be taken to avoid.

WHIPPED CREAM.—Soak one ounce of Cox's gelatine in a gill of cold water, or just enough to cover it, and let it stand half an hour. Then stir it into half a pint of milk, flavour with vanilla, sweeten very sweet, and let it just boil up to dissolve all the gelatine. Let it cool, then strain it into a pint of sweet cream, and whip it with an egg beaten for fifteen minutes. Set it in a cool place for an hour. Put it into the basket, with candied grapes laid over it just before it is to be eaten.

ORANGE ICE.—Squeeze the juice from six large oranges and two lemons, after rubbing off the oil of the peel with lumps of white sugar. Pour a pint of boiling water over the squeezed lemons and oranges, and put it away for half an hour. Then strain upon the lumps of sugar, and when dissolved, add to it the juice of the fruit, with one pint of cold water. Sweeten very sweet, as the freezing takes out the sugar, and add to it the beaten whites of two or three eggs, and freeze at once. It can be made without the eggs, but they will give it the appearance of snow, and add to the delicacy of the ice.

SCOTCH BUNS.—To one pint of yeast add one quart of lukewarm water, one teacupful of lard and butter mixed, two cups of brown sugar, one pound of English currants, one pound of raisins; do not chop the raisins, but cut them in two pieces. Beat six eggs very light; mix the butter and sugar together, then put in the eggs and fruit, put in allspice, cloves and nutmeg according to your taste, then stir in the yeast and water, and flour enough to make a dough that can be moulded in loaves. This quantity will make three loaves. Put in long, narrow tins to rise. When very light—which will be in from four to five hours—pierce with a silver fork, and bake in a moderate oven for an hour.

DELICATE COOKIES.—Cookies that are as nice as cake and that will keep well are not often made. Follow these directions and you will succeed in having them. Take half a pound of butter and half a pound of sugar; beat these together until they are as light as butter and sugar can be; then beat three eggs very light also, the white and yolks together; then mix them with the butter and sugar, add one cup of flour, and beat a long time. Observe that there is no baking powder, or soda, or milk used. Knead in flour enough to make a dough that you can roll out, like common cookies. Season with coconut or with nutmeg seeds; roll them neither very thick nor thin, and bake in a quick oven. They look nice cut with a diamond-shaped cutter, and with the caraway seeds on top.

JACOB LOCKMAN, Buffalo, N.Y., says he has been using Dr. Thomas' Electric Oil for rheumatism; he had such a lame back he could not do anything, but the bottle has, to use his own expression, "oiled him up." He thinks it is the best thing in the market.
