

done in order to secure the location for the School, did not have a little land ploughed and the location staked off, as this would have been of practical use in connection with the institution, whereas the hay will never probably be required at that institution.

I am also to state that the price paid for the cutting of this hay seems very exorbitant, and the hay was not cut on land belonging to Messrs French & Smith.

The Voucher cannot be paid until further information relative to this matter is received.

I likewise beg to refer you to the letter to you of the 31st October last in which you
(2) were
