FIRE BADLY DAMAGED BROCKTON SHOE STORE—FIREMEN OVERCOME

Damage is Estimated at \$10,000—Outbreak was Caused by Explosion of Furnace—Adjoining Stores Also Suffered Slightly—Discovered by Manager—Floor Supports Gave Way.

Damage amounting to \$10,000 was suffered by the Brockton Shoe Store, 446 St. Catherine Street West, through a serious fire which was discovered by the manager, Mr. T. R. Trudeau, at 5.40 last evening.

Mr. T. R. Trudeau was preparing to leave the store when he heard a rattling in the pipes, and a minute later saw smoke pouring up from the cellar.

The floor of the store, the supports having given way, began to cave in, and the entire store was filled with dense smoke.

The water filled the basement, poured through the partitions to the cellars of the Pitt River Company, 444 St. Catherine street, and Cochenaler's Jewellery store, 448 St. Catherine street.

About eight o'clock the fire seemed to be under the control of the firemen, when suddenly a huge cloud of smoke poured out of the door, and work had to be commenced again.

FIVE MOTOR CARS WERE DESTROYED IN SERIOUS FIRE

Property Was Destroyed at Rate of \$1,000 Per Minute. Loss Estimated at Over \$10,000 With Insurance of Only \$5,000. Firemen Had Hard Fight.

Ottawa, November 26.—Fire destroyed property at the rate of one thousand dollars per minute this morning when the machine shop of Alderman Harry Low, 92 Dufferin Avenue, caught fire from spontaneous combustion and five big motor trucks were destroyed.

The property loss will be over \$10,000, and there is \$5,000 insurance.

Aside from the actual property loss, Ald. Low also suffers the temporary demoralization of his transfer business, which he has been operating for the last five months. This morning, however, he secured horse-drawn vehicles to do some of the work formerly done by his motor trucks.

Shortly before one-thirty o'clock this morning, Mr. Porter Lamb, foreman of the Ottawa Gas Works, living at 308 McKay street, noticed Mr. Low's workshop in flames. Running to a fire alarm box, he turned in an alarm and later rushed to Mr. Low's home awakened him, and informed him that his workshop was on fire.

Mr. Lamb was returning home when he discovered the fire.

Yesterday afternoon Mr. Low and his workmen completed a small addition to his workshop to cover a big one-ton truck. It was in this addition that the fire started, and in a few minutes' time had spread throughout the workshops, and the building was a mass of flames when the firemen arrived.

The destroyed workshop was situated at the rear of Mr. Low's home. It was two storeys high, and was of frame construction covered with iron sheeting.

Four motor trucks used in the Eclipse transfer service were housed in the building, along with another big truck which was nearing completion. All were completely destroyed and reduced to ordinary junk which would bring about eight dollars a ton.
