fresh products of the same kind, a number of ust be taken into consideration. First. of the raw material and the waste when ed in the small quantity used in a single making it ready for the table. It is obvious that on can not be made for time, as the car may be had throughout the year and the fresh only a limited season, and purchase of a produc son is usually at a high cost. In making ase of either the fresh or caned article, the maller the quantity, the higher the price; food th by the single can costs more than if bought in the dozen cans or case, as does the half peck o s compared with the bushel or barrel. Take, example, a No. 3 and a No. 10 can of whole ap the former usually retails for 10 cents and the site for 25 to 30. Those who can use the latter here a decided advantage, as it will contain between and five times as much as the former.

there is a vast difference in canned foods, and, as many other lines of commerce, the cheapest in is often the most expensive. The can of water ted tematoes, the green hard pears, the handful d berries in a pint of water, or poor-quality beans Goods which are strictly standard should give best food value for the cost. Peas, corn, beans, domatoes which are good field run but which lack uniformity and niceties which are necessary for fancy article, will have all the nutritive properand be just as palatable, but cost several cents ase of canned foods; the asparagus must be and the fewest possible stalks in a can; the n is just as good and a medium number of stalks ish a more edible product. The little peas are, ally, the costly ones, for less than 5 per cent. of that kind; the large ones are the better flaand more nutritious, and one-third the cost. flar examples might be cited of a number of other ets. Canned foods should be purchased by the en or case, straight or in mixed lots, rather than

# READY MARKET FOR

There is an Opportunity for Retail Hardware Merchants to Increase Sales in This Line

### INTEREST THE PUBLIC

dlar Recently Visited An Ontario Town and in a Week Sold 60 Lawn Rakes: More Than the Local Markets Had Sold in Ten Years.

In the lawn and garden tool line there is a great opportunity for retail hardware merchants to create new business, says the Hardware and Metal Journal. Just at this time, when nearly all hardware merchants are endeavoring to keep sales up to a high take advantage of every opportunity to create new business, there is a splendid opportunity for increasing sales in this line alone. There is not a town or city in Canada where you cannot find lawns that could be greatly improved in appearance if their owners would invest in a few modern tools and spend a few hours each week in beautifying the grounds around the home.

grounds around the home.

This is no reflection on the many thousands of beautiful lawns that may be seen in our towns and cities, for it is doubtful if in any country in the world cities, for it is doubtful if in any country in the world commissioner for Canada, 19 Victoria Street, London and other material continued large and if present inquiries result in orders a long period of active buying of sleet bars is promised.

The United States Steet Corporation is booking the property of the cties, for it is doubtful it in any country in the world you will find a larger percentage of the population possessing lawns and grounds around their homes than you do in Canada. But the fact remains that the majority of people have not yet been educated to take full advantage of the many modern below; that

three local hardwaremen had sold in ten years. And A. Dutch firm are in the market for carborundum the interesting part of it was that the pedlar sold a rake almost identically the same as a line the hardwaremen all carried. Furthermore, the pedlar sequence 25 cents apiece more for the rakes than the current and the pedlar sequence 25 cents apiece more for the rakes than the current and the pedlar sequence 25 cents apiece more for the rakes than the current and the pedlar sequence 25 cents apiece more for the rakes than the current and the pedlar sequence 25 cents apiece more for the rakes than the current and would like to be pedlar sequence 25 cents apiece more for the rakes than the current and would like to be pedlar sequence 25 cents apiece more for the rakes than the current and would like to be pedlar sequence 25 cents apiece more for the rakes than the current and would like to be pedlar sequence 25 cents apiece more for the rakes than the current and would like to be pedlar sequence 25 cents apiece more for the rakes than the current and would like to be pedlar sequence 25 cents apiece more for the rakes than the current and would like to be pedlar sequence 25 cents apiece more for the rakes than the current and would like to be pedlar sequence 25 cents apiece more for the rakes than the current and would like to be pedlar sequence 25 cents apiece more for the rakes than the current and would like to be pedlar sequence 25 cents apiece more for the rakes than the current and would like to be pedlar sequence 25 cents apiece more for the rakes than the current and would like to be pedlar sequence 25 cents apiece more for the rakes than the current and would like to be pedlar sequence 25 cents apiece more for the rakes than the current and would like to be pedlar sequence 25 cents apiece more for the rakes than the current and would like to be pedlar sequence 25 cents apiece more for the rakes than the current and would like to be pedlar sequence 25 cents apiece more for the rakes than the current and the rakes are current and hardwaremen were asking for the same product. The hardwaremen complained about the pediar taking their trade—but who was to blame? In discussing the matter with the hardwaremen, the writer asked them after with the hardwaremen, the writer asked them if they had every had a window with the respective miles. The hardwaremen complained about the pediar taking for the sale of dry goods.

An engineer at Vancouver, B.C., wishes to hear the matter with the hardwaremen, the writer asked them is the matter with the hardwaremen, the writer asked to the matter with the hardwaremen, the writer asked to be a minimum company in British Columbia stated to the activity of their respective mills. Demand is urgent and munitions producers are anxious to get

shears, grass shears, or any of fifty other articles used around the grounds of a home, he could do a big business. Why could he? Because he would show the goods. Pedlars do not hide the goods under counters or in the back of a store, or under the cover of a waggon. They show the goods and explain their uses—and this is where some hardwaremen seem to fall down. But there are other hardwaremen who society for Testing Materials will be held at Atlantic the summer season. They know that if you get one of your customers taking a pride in his home surroundings, you are cultivating a good and permanent

### TRADE INQUIRIES

o consideration valuing

Here were three hardwaremen who took it for touch with munitions manufacturers in Great Brit. A mining broker at Vancouver desires to get into granted that if the people in town wanted lawn tools they would go to the hardware store and ask for them. I feel sure that if a pediar went into that town and needled lawn tools with importers of Douglas fir lumber—doors, sashes, town and peddled lawn sprinklers, turf edgers, hedge window frames, interior and exterior trim, flooring

# NO FALLING OFF IN

Some Mills Unable to Make Deliveries Owing to Activity of Their Respective Plants

### RAILROAD BUYING IMPROVES

Demand for Steel Bars for Conversion into Shrapne Persists—Mill Operations Running at Between 80 and 85 Per Cent.

antinued to show improvement during the past week. The demand for steel bars for conversion into shrapnet has shown no falling off. There are enquiries before the market for about 75,000 tons of steel bars, and it is expected that these will result in orders in the ne future.

Prices on shrapnel bars have become firmer. Sales were made some time ago at \$1.55 per 100 pounds, but it is not expected that much under \$2 per 100 pounds will be accepted on future orders. The railroads have been showing a tendency to buy on a somewhat larger scale. Foreign orders for am-

the majority of people have not yet been educated to take full advantage of the many modern "helps" that have been developed and perfected in recent years, and in this connection probably no one is more to blame than the retail hardwareman.

A Birmingham firm of fruit merchants ask to be placed in touch with Canadian exporters of appless.

A Dirmingham firm are in the market for gas tubed, and would like to hear from Canadian manual works time and sixty laws rabas. The standard oil company of the following the made by the end of the current year.

Into touch with Canadian firms able to supply birch that have such as are used for this purpose.

A Birmingham firm of fruit merchants ask to be placed in touch with Canadian exporters of appless are holding firm, and it is expected that advances of from \$2 to \$4 per ton will be made by the end of the of this of the past few weeks reduced the prince.

the matter with the hardwaremen, the writer asked them if they had ever had a window display of rakes and lawn tools or advertised them in season in the newspapers. Of the three hardwaremen not one could say that he had ever made a special feature of lawn tools or brought them to the attention of the lawn tools or brought them to the attention of the lawn tools or brought them to the attention of the lawn tools or brought them to the attention of the lawn tools or brought them to the attention of the lawn tools or brought them to the attention of the lawn tools or brought them to the attention of the lawn tools or brought them to the attention of the lawn tools or brought them to the attention of the lawn tools or brought them to the attention of the lawn tools or brought them to the attention of the lawn tools or brought them to the attention of the lawn tools or brought them to the lawn tools or advertised them in season in the beautiful as soon as possible. Railroad buying continues to improve and plates are in good demand. Prices for various steel products are housing firm. In fact the tendency is upward and it would not be surprising to witness further advances in quotations.
