

# "METALLIC" covered buildings defy the elements

**THIS** is a strong but a true statement. "Eastlake" Galvanized Shingles on the roof, "Empire" Corrugated Iron or "Metallic" Siding on walls, and the building will last for generations. And it will do more than just "last"—it will be always fireproof, stormproof, lightning-proof, neat in appearance, and dry inside. Thirty years of successful use all over Canada prove these statements.

**"Eastlake" Shingles**  
have already stood over 30 years. They make your building safe from fire. Easily laid yet no storm can lift them, no sleet or rain can drive underneath. Fit snug and tight in the valleys. "Eastlake" heavily galvanized shingles are the original and best, their patented features can never be equalled. Get our prices.

**"Empire" Corrugated Iron**  
is always uniform in gauge and size, therefore it is easily and quickly laid by even inexperienced labor. Has deep, snug-fitting corrugations and makes a strong, rigid fireproof wall that needs no paint or repairs. All
