"Just My Luck."

If the boy who exclaims, "Just my luck," was truthful, he would say, "Just my laziness," or "just my inattention."

Luck is waiting for something to turn up.

Labor, with keen eyes and strong will, will turn up something.

Luck lies in bed and wishes the postman would bring him news of a legacy.

Labor turns out at six o'clock, and with a busy pen or ringing hammer, lays the foundation of a competence.

Luck whines.

Labor whistles.

Luck relies on chances.

Labor on character.

Luck slips down to indigence.

Labor strides upward to independence.

"Luck," in the Bible sense, is a good old English word: "I wish you good luck in the Name of the Lord." But "Luck," with no thought of a God of Providence, is a bad word altogether.

How Birds Learn to Sing.

A wren built her nest in a box on a New Jersey farm. The occupants of the farm house saw the mother teaching her young to sing. She sat in front of them and sung her whole song very distinctly. One of her young tried to imitate her. After proceeding through a few notes its voice broke and it lost the tune. The mother recommenced where the young one had failed, and went very distinctly through with the remainder. The young bird made a second attempt, commencing where it had ceased before, and continuing the song as long as it was able, and when the notes were again lost, the mother began again where it had stopped and completed it. Then the young one resumed the tune and finished it.

Overworked men and women, the nervous, weak and debilitated, will find in the Acid Phosphate a most agreeable, grateful and harmless stimulant, giving renewed strength and vigor to the entire system.

Officer A. H. Bralley
of the Fall River Police

Is highly gratified with Hood's Sarsaparilla. He was badly run down and no appetite, what he did eat caused distress and he felt tired all the time. A few bottles of Hood's Sarsaparilla effected a marvellous change. The distress in the stomach is entirely gone, he feels like a new man, and can eat anything with old-time relish. For all of which he thanks and cordially recommends Hood's Sarsaparilla. It is very important that during the months of March April May the blood should be thoroughly purified and the system be given strength to withstand the debilitating effect of the changing season. For this purpose Hood's Sarsaparilla possesses peculiar merit and it is the Best Spring Medicine.

March

The following, just received, demonstrates its wonderful blood-purifying powers:

April

"C. I. Hood & Co., Lowell, Mass.:
"Gentlemen: I have had salt rheum for a number of years, and for the past year one of my legs, from the knee down, has been broken out very badly. I took blood medicine for a long time with no good results, and was at one time obliged to walk with crutches. I finally concluded to try Hood's Sarsaparilla, and before I had taken one bottle the improvement was so marked that I continued until I had taken three bottles, and am now better than I have been in years. The inflammation has all left my leg and it is entirely healed. I have had such benefit from

ished it. This done, the mother sang over the whole series of notes the second time with great precision, and again the young one attempted to follow her. The wren pursued the same course with this one as with the first, and with the third and fourth, until each of the birds became a perfect songster.

"In a Minute."

If you asked Dora to do anything, she would reply, "In a minute." It was a bad habit she had. "Dora, please bring me a drink of water."—"In a minute."—"Dora, go upstairs, and bring me down my comb."—"Yes, mother, in a minute."—"Dora, come to your dinner."—"In a minute."

One day Dora's bird was hopping about on the floor. Somebody went out, leaving the door open, just as "somebody" is always doing. Dora's mother said, "Dora, shut the door, or the cat will be after your bird."

"Yes mother, in a minute," said Dora; "I just want to finish this line in my drawing." But the cat did not wait. In he came, and with one dart had the bird in his mouth.
