KING AND QUEEN WILL HELP.

The king and queen of Italy are now on their way to Messina, having sailed tonight from Naples aboard the battleship Vittorio Emmanuele. The Pope has shown the greatest distress at the calamity and he himself was the first to contribute a sum amounting to \$200,000 to the relief of the afflicted. British, French and Russian warships are steaming towards the south and already several of the ships of Great Britain and Russia have reached Sicily. Little is known of the fate of theadiplomatic representatives of the foreign powers stationed 'at these posts, although the Italian government is using every effort to releive the anxiety felt on their account.

There is the gravest danger that a pestilence will follow the destruction of the towns, where, on account of the vast havoc caused, bodies will lie unburied for days or weeks. Those who escaped death, many of whom are badly injured, are making their way by the thousands to the nearest place of refuge. Their suffer-

ings even now must be intense as they are without food or clothing. STUNNED AT THE MAGNITUDE.
