CTTAWA, May 9 .- The commons got one step nearer to prorogation on Satunday by fincily getting rid of the two private bills that have, with the exception of the government bill respecting the lean to the G. T. P., each taken up more time this session than any other of the bills on the order paper. After spending the whole day in final obstruction of the Canada Life bill and Mr. Conmee's bill to incorporate the Michigan and Ontario Power Company, the opposition finally alwed both bills to pass a third reading. The way is now clear for a speedy clearing off of the rest of the items or the order paper during the coming

The morning sitting was devoted to Mr. Conmee's bill, which, on motion for a third reading, was again attacked on the ground that it was an invasion of provincial jurisdiction. Mr. Porden claimed that the federal government had no right to grant a company expropriation powers over the lands under the control of the provincial government.

Sir Wilfrid Laurier maintained that the Dominion government, since it had the power to make laws for the good government and good order of the country, had the corroborative power to incorporate an expropriation clause in any federal hill if expropriation was found to be necessary.

The bill was passed by 76 to 39. The Canada Life bill to correct an error of the incorporating bill of 1897 and permit the shareholders to declare dividends on capital investment before distributing profits to policy holders was again epposed by Mr. Henderson Mr. Lancaster and Mr. Turriff on the ground that parliament had no right interfere with the jurisdiction of the courts in respect to declaring what was really intended by the bill of 1879. Mr. Clark, who was in charge of the hill contended that the overwhelming evidence was that parliament in 1879 had intended to put the company on the same basis as were all other in surance companies in the matter of distributing profits to policy holders. The defeat of the present bill would, he said, mean the ruin of the company and would involve great loss to all its

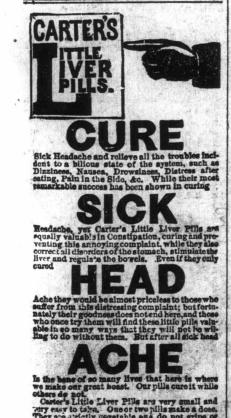

policy holders. Just before adjournment at six o'cloc Just before adjournment at six o'clock the opponents of the bill gave
