THE colony which only a few year ago was held in small esteem and looked upon as an incumbrance by British statesmen has evidently be-come of some value in their eyes. The honors conferred on Sir John Thompson, living and dead, are not the less gratifying to Canadians because they were well earned; and the recognition of the merits of Sir Mackenzie Bowell by Her Majesty, the Queen, was doubtless influenced by the confidence placed in his ability and worth by the Canadian people, and is no small compliquent to Canada.

turns 33 per cent of the population of the United States are of foreign par-entage. In 1870 it was only 28 per cent which goes to show that the pro-portion of persons of foreign parentage is gradually increasing. The same return illustrates well the fact that the native population of the New Eugland States is moving westward and that their places are being taken by foreigners. Philadelphia long known as the most American of Amer ican cities has 56.58 per cent of its population of foreign parentage. In the southern states on the other hand the proportion is very small, sinking as low in North Carolina as seven-tenths of one per cent South Caro-lina has 1.53 per cent, Georgia 1.78 per cent, and Virginia, Mississippi, and Alabama each less than 3 per

—There was a brilliant and lively assemblage of relatives and friends at the residence of Mr. Jacob. S. Allen at Upper Cape on Saturday evening last. The primary object of this gathering was to extend a greeting to Mr. Ainalie Allen and his brile, of Amherst Head, who were expected to have been present, but who on account of the storm were detained. Though the absence of the parties whom it was the intention to homor was sincerely regretted, yet the party was composed of spirits who were capable of enjoyment in spite of disappointment, and a most delightful evening was spent by all present.
