Although an an-nouncement of the settlement of terms was made in the Times yesterday, some other papers intimated that, as the men had been refused a two cents an hour increase in wages, they would insist on a one-year agreement, so that the mat-ter could be taken up again at the ex-piration of that time, but at a special meeting held last night the men decided to accept the terms in the agreement as drafted and sign a three-year agree Niagara Falls, March 22 .- After working from early morning until late tonight, Chief Lyons, District Attorney Fred M. The gossip of the quarter is that Patky and Mrs. Pierog did not get along together because of her objections to his domestic affairs. He had married her sister, but had not brought her with him. The three knives and the axe which were used have been found by the police, the knives in the kitchen, where she met her death, the axe in an outhouse. Detective Car-mody, after a long search this morning, found the broken sections of the butcher's blade which buckled and snap-ped in the work of the murder. A survey of the premises this morning showed that there had not been a struggie, though Mrs. Pierog was a powerful woman, weighing about 200 pounds and inured to hard work.
