The schooner Swift Current, from Alberton; FE Island, to St John's, Nfid. previously reported ashore at Broad Cove N. S., had a hard experience. The vessel sailed from Halifax for St John's Nfid. with a cargo of 2,000 bushels of oats on Docember 22. On Saturday, Dec. 29, the wessel encountered a heavy gale, and when about four miles outside of Margaree Island she was so badly iced up that she became unmanageable and was altogether at the mercy of the sea. The vessel drifted with the gale towards the shore, with the crew of five men lashed to the people of the place and a large number gathered on the shore to render assistance. When the vessel struck, it was after dark, and the lives of those on board would have been in great danger were it not for the bravery displayed by the shore yoople in rescuing them from the ill-fated craft.—North Sydney, C.
