## Cable News.

Special to Evening Telegram.  
TOKIO, April 16.  
It is officially announced that arrangements have been concluded for the issue in Paris of a Japanese loan of \$35,500,000 at 5 per cent.

Special to Evening Telegram.  
LONDON, April 16.  
An official bulletin says that the Duchess of Connaught had an undisturbed night. Pulse and temperature were normal, and condition satisfactory.

Special to Evening Telegram.  
LIEGE, April 16.  
The strike is spreading here. The Socialist policy, it now appears, was not to show the full strength of the movement at first, but to let the stoppage of industry be progressive. Several hundred more machinists, employed at the National Arms Factory, came out to-day. A number of arrests were made this morning of persons accused of interfering with those willing to work.

ROME, April 16.  
A bulletin says that the Pope had an alarming coughing spell this afternoon, almost causing suffocation. The attack was followed by such exhaustion that his attendants feared the worst. Subsequent to the attack the Pope had a period of deep depression, but after rest appeared relieved. At 5.45 p.m. his condition was considered stationary.

LONDON, April 16.  
Mrs. Flora Drummond has been summoned to Bow Street Court on Friday to answer a charge of inciting to crime and misdemeanour, under a statute of Edward III. She joins Lansbury and Miss Kenny, who are similarly charged.

NEW YORK, April 16.  
By a wireless message sent by the commander of the pilot boat "New York" last night, news was received of the rescue of the captain and crew of the schooner Lottie R. Russell, which was wrecked. While in the neighborhood of Sandy Hook the "New York" spoke the tank steamship Georgian Prince, bound from Progresso to Providence, which had aboard the Russell's crew. The Russell left Charlottetown on April 11th, and her captain and crew of six men were picked up at sea the next day. They arrived off Sandy Hook last night. The Russell was 300 tons, and lumber laden.

LAS PALMAS, Canary Islands, April 16.  
The dirigible balloon Sachard, in which Joseph Brucker, formerly of Milwaukee, proposes to make a trans-Atlantic flight, is being inflated. Capt. Brucker announces that he will start for America to-day or Thursday—if the present favorable wind holds good. Great crowds watched the work of preparation.

## Wasted Effort.

Still Mexico is torn asunder. I wonder what it means? The people there are raising beans. Month after month the cannons rattle and burrs are pelled down by jets who should be herding cattle or hauling hay to town. Their leaders talk a lot of glory, while stirring up the storms, and prancing up and down in gory, bedraggled uniforms. But Mexico's becomomed acres should know a better yield than harvests for the undertakers and dead men in a field. I'd rather take a team of horses and plow for winter wheat, than strew my doggone farm with corpses, all stark, with upturned feet. I'd rather herd a bunch of chickens and gather up their eggs, than take a gun and raise the dickens, and shoot men in the legs. I'd rather raise some mint for toddlers, or grain for wholesome bread, than have a corncrib full of lead. I'd rather dig, in dripping sweat, than deal in swats and bluffs; one cord of elm is far, far better, than seven cords of stiffs. In Mexico those men amazing should put their guns away, and soak their swords and go to raising greens, sugar beets and hay. A hundred pounds of yellow pumpkins is of a greater worth than twenty tons of butchered bumpkins in any mart on earth.

Copyright, 1911, by George Nathan Mason

SEALERS ARRIVE.—A number of men from the Southern Cross arrived here by the shore train last night from Harbor Grace. They say their seals are very large and average 52 lbs., and she will likely finish discharging to-morrow.

MINARD'S LINIMENT RELIEVES NEURALGIA.
