

Electric Lighting For Outports!

For a number of years there has been a growing demand for a satisfactory electric lighting system for use in the outports. There are dozens of so-called "farm lighting systems" on the market. Almost without exception they are unable to produce a steady flickerless current, without first charging storage batteries and then taking the lighting current from the batteries. In using this system they are up against many difficulties:—batteries of fair capacity are expensive; they require constant attention. When they are new, about 15 per cent. of the current is lost when passed through batteries; after one or two years this proportion rapidly increases; this means that a large portion of the current is wasted; batteries that will produce 110 volt current are very expensive; therefore the manufacturers of most battery systems use what is known as low-voltage. A low-voltage current will only give a satisfactory light when used close to the battery. If the current is carried by wires to other buildings a short distance away, a great deal of energy is lost and it gives a poor light.

Low-voltage systems cannot use standard lighting equipment such as lamps, electric fans, electric irons, electric toasters, etc., but require special low-voltage apparatus from the factory.

After comparing the various lighting systems on the market, we found one that overcomes all these difficulties. It is known as the Unilectric Lighting Machine, which is the only machine of its kind made. It consists of an engine specially designed for electric lighting purposes, directly attached to a special dynamo and electric governor. This outfit will produce a steady flickerless 110 volt current without having to depend on batteries; it will use all standard equipment in common use. Wires can be run from the engine in any direction up to two thousand feet without change.

Three of these lighting machines have been in use in Newfoundland from one to two years and are giving perfect satisfaction. Monsignor Reardon, Placentia, lights Church and Presbytery; Rev. Father Maher, St. Lawrence, lights Church, Presbytery, Convent and School; G. C. Fearn & Son, Placentia, light their shop, office, fish stores, saw mill, blacksmith's shop and ship yard. We have also ordered for them an electric boring machine to be run by current from Unilectric machine and to be used in shipbuilding.

We are now installing the Unilectric Lighting System for Mr. Fred Ayre in his country residence. The Unilectric Corporation of Detroit are doing their best to supply the demand for these machines, but do not expect to be able to furnish them at present prices except for a very short time. They have promised us three more machines at present prices if orders are sent in promptly.

Anyone interested in the best country lighting system ever made will receive one of our catalogues and full information by writing us.

The Unilectric Engine is built for continuous service. The engine is equipped with the sliding sleeve valve and is guaranteed for five years.

A small inexpensive battery can be attached to wires to allow the use of a few lights when machine is not in operation.

Help to Win the War by
Using Less Flour

Oaten Bread Recipe:

TAKE
1 sifter full of Ogilvie's "STANDARD" Flour and 1 sifter full of Ogilvie's ROLLED OATS

THEN
Scald the Rolled Oats with 2 cupsful of boiling water. Make sponge with 1/2 yeast cake and one cup of Ogilvie's "Standard" Flour; then add the Rolled Oats—after allowing sufficient time for them to cool.

ADD
1 tablespoonful of Butter,
2 teaspoonfuls of Salt,
1 1/2 tablespoonfuls of Sugar.
Knead well, adding Ogilvie's "STANDARD" as required to give it the proper texture before proceeding to bake.

The above recipe will make a
Wholesome and Delicious Bread.

100 Crates Onions,
50 Sacks Onions,
80 Crates Green Cabbage,
80 Crates Calif. Oranges,
All Counts.

Do You Perspire Freely?

Many people are acutely sensitive to the odors arising from excessive perspiration, and yet under no circumstances is it wise to completely check perspiration for it is essential to health—many of the impurities of the body are gotten rid of by perspiration.

O'MARA'S PERSPIRATION DEODORANT does not unduly check perspiration, but when properly applied it keeps the body comfortable and sweet—it counteracts body odors.
