Municipal Council.

WEEKLY MEETING.

The weekly meeting of the Municipal Council was held yesterday afternoon. Mayor Cook presided and the full board were present.

After the minutes of the last meeting were confirmed, the following matters were discussed:—

Sir M. P. Cashin wrote in reference to the street widening at junction of Monkstown and Circular Roads, and suggested to the Council the advisability of moving poles which, if left in their present position, would become a menace to traffic. The Council decided to make the alterations referred to.

Mr. T. B. Clift wrote re the condition of a portion of Gear St., which, if not looked after, might become a dumping ground. The City Engineer will investigate the matter.

At the request of the Dominion Secretary of the Great War Veterans' Association, the Council met a deputation from the Daughters of the Empire, to discuss matters in connection with the Soldiers' Monument, Garrison Hill.

Mr. John Duff, Mundy Pond Road, offered a portion of his land for dumping purposes. The Council will accept his offer.

The Secretary of the Truckman's Protective Union again asked for more equal distribution of the work in connection with various City Departments, amongst the members of the Association. At the present time the Council has not more than six carmen employed in connection with the whole service, and these are not even permanently employed, but should any extensive work be undertaken, they will be only too glad to accede to the wishes of the Union.

Application of F. Mosler to have hopper removed from the front of his dwelling, in view of same being connected with water and sewerage, was referred to the City Engineer.

Mr. F. W. Knight, complained of the dump, opposite his dwelling, which was being filled from the opposite side of Waterford River. He also referred to other matters in connection with the Promenade.

Applications were read from Wm. Hanlon and M. Doran, for position as Impounder. These, with other applications lately received, were given consideration. Mr. Peter Purcell was appointed to the position.

Permits for repairs, subject to the Engineer's approval, were given the following:—R. G. Herder, Pleasant Street; P. Bursell, Southside; Wm. Beags, Young Street; A. Willar, Holloway Street; and F. W. Pike, Patrick Street.

The following plans were passed, subject to the approval of the City Engineer:—R. G. Ash, extension, Patrick St. L. Stone, extension, Dick's Square; O. Brown, Garage, Blach Street; Mr. Davis, Garage, Gower St.; W. P. Panny, dwelling, Scott Street; Martin-Royal Stores, rebuilding of premises, Water Street.

P. Bulger's application for permission to use store, corner of Duckworth, and Cochrane Streets, for workshop, was referred to the City Engineer.

Tenders for piling of Steer's, Ayre's, and Bowring's Coves were read as follows:—Jacob Bishop (for three coves) \$589; H. G. Herder (for three coves) \$760.10; A. Osmond, (for three coves) \$680; Wm. Cummings, (for three coves) \$994; H. Brown (Ayre's Cove only) \$340. The tender of Mr. Jacob Bishop, was accepted.

Sanitary Supervisor Dwyer reported on the work in connection with his Department for the week, also pointed out that a number of houses on Colonial Line, Yonge and Chapel Streets, Queen's Road and Carter's Hill, are not connected with water and sewerage; also new houses recently erected on Franklin Avenue. It was ordered that the Plumbing Inspector take the necessary steps to

IMAGINARY ILLS.

WALT MASON

I often weep for Pink McGill, who lives next door but two; he thinks he is extremely ill, that shortly he'll be through, and sleeping idly on the hill, beneath the sod and dew. He talks for hours about his aches, in wearisome despair; and yet I think his pains are taken, a pipe dream and a square, and he could waltz his weight in snakes and never sweat a hair. If he would cease to grieve and whine about imagined pains, and say, "To-day I'm feeling fine, from boot-heels up to brains," his face with ruddy health would shine, brisk blood would warm his veins. Old Pink McGill would be a peach if he'd forget his ills, and cease to murmur and to reach for Dr. Faustus's pills, and fire the druggist and the leech who fill him up with squills. For he's a man of many gifts, well versed in ancient lore, and wise to all the noble shifts of hard and seers of yore; but as he is he merely lifts a bottle from the floor. Oh, he could tell us splendid tales of lonely ships and seas, of pawing steeds and armored knights whose banners rode the breeze, but as he is he only waits of spasms in the knees. He shows a most indecent haste when there's new dope to try; and he is taking pills that taste like hen's nests in July; and so a good man goes to waste—and this is why I cry.

Almonds and Gambling.

Unusually rich in superstitions are the gambling resorts of Deauville and Monte Carlo this year.

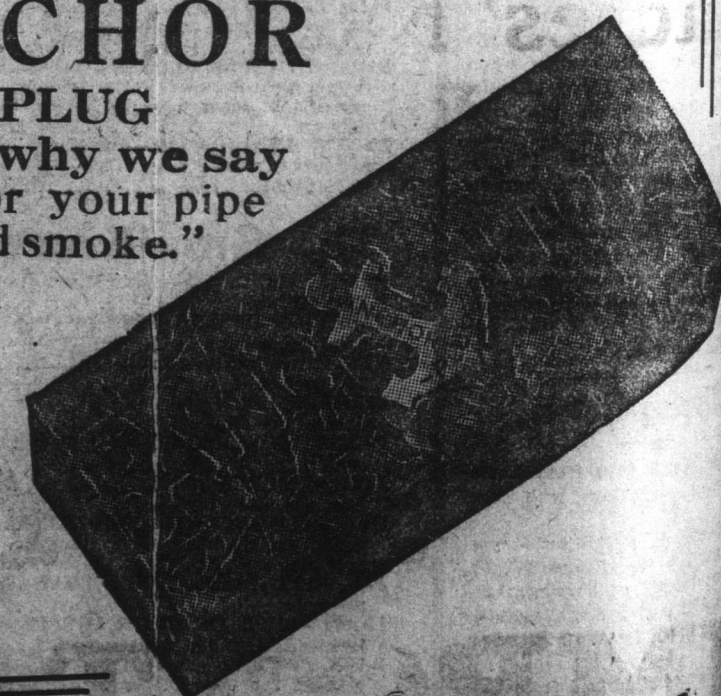

Not the least inexplicable of these strange faiths is the belief voiced by a Russian at Deauville that "eating almonds for dinner is the secret of good luck at the tables."

The black cat superstition is almost invariably in evidence. At Monte Carlo this season a man and woman appeared at the tables every night, and while the man played the woman remained seated nursing a black cat. The man at first won considerably; but later his luck changed, and with luck

Took No Chances

An old lady who is very sore paid a visit to a family acquaintance. She prolonged her visit and finally said to one of the family:—"I'm going away directly, and I want you to go part of the way with me." Can't do it, we have to have dinner as soon as we can," replied Tommy.
