In Dollars and Cents.

The Advocate stigmatises our references to taxation under the present administration as misrepresentation, and with its usual mathematical inaccuracy publishes an emasculated list of certain wares and merchandise used by the fishermen in the pursuit of their calling. Let it suffice for the moment to take the Advocate's list and prove conclusively to the fishermen and others that they are paying duties far and away in excess of those they should be paying if the Government were not so shilly-shally in its demands on the earnings of the producers. It is one thing to talk in percentages. It is another to detail the sums paid on certain articles in dollars and cents. The ratio of percentage is apt to be misleading, but the exact figures cannot be mistaken or their veracity questioned. When we said that the fishermen were being taxed seventy cents on every dollar earned, we were not so far out of the way as our good friend the Advocate would have his readers believe. The actual average of general taxation is sixty-five cents to every dollar earned, since the small reduction made on certain tariff articles by the Government last spring. Prior to then, just what taxation was short of the original amount named is but infinitesimal.

On Salt the duty paid at the present time is 14 cents per ton. Under late Governments, this very necessary commodity was on the free list. On coal in the outports, formerly free, the amount of duty is fifty cents per ton. This as a result of the five per cent. sales tax. On Pork, formerly \$1.50 per barrel, the duty now averages \$3.50 per barrel, more than double. On Beef, according to the Advocate, the duty works out at 11 per cent. This makes the rate per barrel \$1.60, where formerly it was but one dollar. On Tea at an average rate of twenty-four cents per pound, invoiced, the duty is about 8 1/2 cents per pound. On Molasses, to carry further the Advocate's per centum rate the duty is 10 cents per gallon, where formerly this article was admitted free of duty. On Gasoline the duty is roughly seven cents per gallon. On Kerosene Oil in steel barrels (and these were one time recommended by Mr. Coaker as the best in which to ship Codoli) the duty is 5 1/2 cents per gallon. On Flour, which for some years was free, until the tariff of 1914 put it up to 25 cents per barrel the present sum of duty is roughly 68 cents. On the value of Lines and Twines, formerly free, every pack costing one dollar, fifty cents pays 7 1/2 cents duty, and so on in proportion to greater cost price. Rope pays the Government today on the Advocate's basis of percentage about 3 1/2 cents per pound. The regular tariff rate is 1 1/2 cents, but sur, super and sales tax have brought the duty over double. Raisins and Currants, when not imported from Greece are taxed at four and a half cents per pound. Peas may be rated at 75 cents the barrel. On Beans the duty is roughly 1 1/2 cents per pound, formerly 1/2 cent, until Acting Minister of Finance Squires, added the 10

per cent. surtax, the 25 per cent. super tax and the 5 per cent. sales tax. Rice is a small item, the original duty being 1/4 cent per pound. It is now approximately 1 cent. On Tar the present duty works out at 9 cents per gallon, as per the basis of percentage given by Advocate. Pitch pays forty-four cents duty on every dollar worth imported. Oakum is listed at 1 cent per pound in the tariff. It is nearer 2 cents per pound when sur, super and sales taxes are added. Sixty-six cents have to be paid on a suit of oil clothes costing \$2, and so the list may be carried on. Other merchandise and sundries used by the fishermen will be compared later on. Sugar (a sweetly sour subject to the editor of the Advocate) Tobacco, Nets, Boots, Clothing, Dories. All the duties collected on these will be given in dollars and cents, in order that the fishermen, whom the Advocate professes to serve so truly, may see just where they are being mulcted of sixty-five cents from every dollar they earn to maintain an extravagant and reckless administration.

The Humber and the Railway.

To-day we begin the publication of a series of articles, of the nature of a review, on the Humber Proposition and the Railway situation. These articles are written from an impartial and unprejudiced point of view, and are intended to "furnish such practical information as is necessary for intelligent judgment, which the general public have not the opportunity of obtaining." The second of this series will be published to-morrow and afterwards on each succeeding day until completed.

Rotary Boy Life Survey.

"Where are the men to lead to-day? Sparring an hour or two, Teaching the leads the game to play, Just as men should do? Village and stumps are calling, 'Come,' Here are the boys, indeed, Who can tell what they may become, If only the men will lead?"

ANON.
Rotary's Boy Life Survey starts to-day. The captains of teams for the various wards have completed all preliminary work and are looking forward with confidence to the successful attainment of their objective.

In undertaking this work, the Rotary Club is conscious that the prime requisite to success is the will to serve and the purpose to achieve. It is their aim to help the boys become strong, clean and self-reliant; boys at their best, who will, make citizens of the highest type possible. Data on many important phases of the Boy Life of the city not being available, a preliminary survey is essential before future plans can be discussed intelligently. The accuracy of this information is obviously of great importance, therefore the Rotarians are making a direct appeal to the parents or guardians to assist them in this work.

The Rotary Club bespeaks for its representatives a sympathetic reception, believing as they do that with the co-operation of the citizens of St. John's, a field of service with great possibilities will be found, promising far reaching results in the development of our future citizens.

Posted as Missing.

TWO DANISH VESSELS BELIEVED LOST.

The Danish schooners Immanuel and Ane Marie have been recently posted as missing and are believed to have been lost with all hands. The schooner Immanuel, 144 tons, and registered at Marstal, took a fish cargo from this port in the fall of 1921, and after discharging at Oporto, proceeded to Bona, where she took a cargo for Oporto, sailing for that port on December 18th, 1921, since which time no trace of her whereabouts has been found. The other missing schooner, Ane Marie, 194 tons, is also registered at Marstal. This vessel left Akerup on May 11th, last for Rose Blanche, presumably to load fish, but has not reached her destination. Both ships carried crews of six men all told.

Naval Advertising Stunt.

STAR MOVIE'S "FOUR HORSEMEN" IN PARADE THIS MORNING.

In connection with the picture "The Four Horsemen of the Apocalypse," which is being shown at the Star movie all this week, the management arranged a parade through the city streets to-day. Four youths mounted on bronchos and carrying banners advertising the picture made their appearance on Water Street this forenoon, and attracted the attention of everybody. The Star management is to be congratulated on their unique way of advertising this great picture.

Attempted Suicide.

SLASHED THROAT WITH RAZOR.

A thirty-year-old resident of the South Side, who has been ill for some time past, attempted suicide yesterday morning by slashing his throat with a razor. The unfortunate man is subject to sudden attacks of insanity, during one of these he made the attempt to take his life. Fortunately relatives were near and Dr. Anderson was summoned. Several stitches were necessary to close the wound and it is expected that the victim will make a speedy recovery.

Naval Prize Money Forms.

NOT ARRIVED AS ANTICIPATED.

It has been ascertained from the G. W.V.A. that the Naval Prize Money forms did not arrive on the S. S. Sachem as anticipated. It is however hoped that in view of the previous advice received stating that those forms had been mailed that they will perhaps come via New York when their arrival should only be a matter of days.

Why is This Thus?

Nineteen of the vessels owned by St. John's firms are now in that port unengaged, says the H. Grace Standard, of Oct. 20. In addition to that number, five are at Burgeo, awaiting cargo. At this season of the year, the enforced idleness of twenty-five vessels means a heavy loss to the owners, the trade and the men who go in them. And yet foreign-owned vessels are engaged in the fish-carrying trade.

Schooners Ready.

FLEET MAY DESCEND ON ST. JOHN'S.

Following up the meeting on Friday night, a further gathering was held by Bonavista Bay fishermen at Wesleyville on Saturday, when a course of definite action was decided upon. This will probably be made known to-day.

In the meantime, a fleet of forty schooners is now at Wesleyville, and if it is decided to move on St. John's, these, with an equal number from Greenspond and Valleyfield, will sail together to this port.

The North Aroused.

ELOQUENT RESOLUTIONS ADOPTED—MORINE UNANIMOUSLY ELECTED ADVISER AND LEADER.

Large mass meetings were held on Friday and Saturday, says a telegraphic message from Wesleyville. Intense interest, absolute unanimity and grave determination were exhibited by all. The fishermen of the north side of Bonavista Bay are in the right to stay for a fish, and no shadow of turning back will be shown. Mr. A. B. Morine, K.C., was unanimously elected adviser and leader. The subject of the meeting was a demonstration day. The following resolutions were adopted by acclamation:—

WESLEYVILLE, Oct. 23. A. B. Morine, Esq., St. John's. Whereas industrial conditions in this country have come to such a pass as to render it impossible for the average fisherman to live on the diminishing returns obtainable at the time:

And Whereas the fishermen of this country recognize the impossibility of keeping their families together in any semblance of respectability or independence:

We therefore submit the following proposition as an expression of public will, and resolve:

First.—That there should be an attempt made by the Government of this country in conference with the exporters of fish, who reside at St. John's and elsewhere, to make it possible for the fishermen to obtain \$5 per quintal for Labrador fish, and at least \$7 per quintal for shore cure, if this is an economic possibility, made so by the condition of the foreign markets; and

Second.—That the Government should forthwith reduce taxation of the people of this country to a point consistent with the purchasing power of the people from the point of view of the necessities of life, making an exchange of commodities for cash nearer to a standard of equivalents than it is at the present time, and that this reduction of taxation be not less than 25 per cent.

Furthermore, let it be resolved that the fishermen unanimously stand for united action, having the common will expressed by some accredited leader or spokesman, advised from time to time by the various committees representing the fishermen of the Colony.

We further resolve that in case of failing to comply with the demands of the fishermen, we insist on the resignation of the Government at present in power. In the last, that copies of these resolutions be sent to the Prime Minister, Sir Richard Anderson, Squires, K.C.M.G., to the Leader of the Opposition, Sir Michael Cashin, and to the Public Press. Dated Oct. 21st, 1922, Wesleyville, B.B.

JESSE WINSOR, Chairman.

Notice to Fishermen.

In connection with the Fishermen's movement for higher prices, I shall be obliged if the shippers of craft now in this port, or arriving from time to time with unsold cargoes of fish, will call at my office for consultation and united action. DIED.
Passed peacefully away, on Oct. 21st, Sarah, beloved wife of George Coleman and daughter of Alexander and the late Mary Ann Fitzpatrick, of Lawrence, leaving a husband and one child to mourn their sad loss. Funeral to-day (Monday) at 2.30 p.m. from her late residence, 13 Bond St. On Saturday, Oct. 21st, after a lingering illness, William Collingwood, in his 81st year. Funeral on Tuesday at 2.30 p.m. from his late residence, 383 Theatro Hill. Friends and acquaintances are asked to accept this, the only intimation.

IN LOVING REMEMBRANCE of our dear son and brother, Francis, who was drowned Oct. 21st, 1920. May his soul rest in peace. We miss you as the days roll on, Your smiling face can see; In memory of the days gone by before you crossed the sea. Just a thought of sweet remembrance From a memory fond and true, Just a token of affection And a longing still for you. We loved you, old or young, can tell how much, how dearly and how well. God loved you too, and thought it best To take you to His home at rest. —Inserted by his father, step-mother and brothers.

HEALTH
When the body becomes in a run-down condition and cold settles in the bronchial tubes there is a cause both for the run-down condition and for the bronchial cold. This cause is in the spine and the chiropractor by his skill is able to find the disturbed joints and to adjust them to proper position. When the spinal nerves are freed by his adjustments health is the natural follow-up. Neglect of such a condition may lead to tuberculosis.

Exchange Bronchitis for Health
(Monday) Health Talk, No. 4 (By Dr. W. H. MacPherson, D.C., P.C.)

Any one would exchange a case of bronchitis for health and gladly. The truth about health is that it is more natural than bronchitis. Those who have bronchitis are unnatural. They have departed from normal and to recover is easy, provided you choose the method which restores normal bodily conditions.

When the body becomes in a run-down condition and cold settles in the bronchial tubes there is a cause both for the run-down condition and for the bronchial cold.
