An Awful Catastrophe at the World's Fair.

One of the Buildings Destroyed by Fire,

And About Forty Firemen Lose Their Lives.

Feet From the Ground. Vain Efforts of the Victims to Sav Themselves by Leaping - Blood Curdling Scenes of Horror.

The Men Caught in a Tower 200

World's Fair Grounds, Chicago, July 10.—Just before 2 o'clock this afternoon the cold storage warehouse, south of the Sixty-Fourth street gate at the World's Fair, caught fire in the top of the cupola, which rises fully 200 feet from the ground. Through this cupola the chimney passes. The cupola is built of wood and is highly ornamented with columns and pillars. Near the top is a landing. The fire broke out about 30 feet above this.

With about 40 of his men Capt. Fitzpatrick climbed up the ladders to this landing and were preparing to throw

streams of water to the burning portion, when the fire, which had eaten its way inside to a point below where 40 firemen stood, broke out with volcanic ferocity on all sides.

An exclamation of horror went up from An exclamation of horror went up from the lips of the thousands of people who had assembled about the building to see the fire. About five of the men saved them selves by sliding down the ropes. Before the others could follow the fire had burned away the ropes. The unfortunate fellows who remained huddled together on the north side of the cupela were doomed. It was beyond the reach of any of the ladders, and the crowd stood horror stricken and powerless to rescue the helpstricken and pro-less crew. The flames ran higher and higher until the men were almost concealed from view.

LEAPING TO DEATH.

At this moment one of the men sprang far out into the air and was dashed to pieces on the roof fully 80 feet below Another and another followed his example, crazed by heat and doubtless preferring to be killed by a fall than burned to death. When five had jumped the upper portion of the cupola gave way and the remaining

firemen were Swallowed up in the seething mass of burning timbers. Meantime the fire engines on the grounds had been called, and aid had been summoned from Hyde Park, but the main portion of the fire was far above the reach of the streams fire was far above the reach of the streams of water. The building cost \$250,000, and was stored with meats, fruits and wines. It was built and occupied by the Hercules from Works Company, manufacturers of refrigerating machinery. The loss will probably reach \$500,000.

probably reach \$500,000.

OTHER BUILDINGS BURNED.

Several small hotels on Stoney Island outside the fair grounds and just west of the cold storage warehouse caught fire from the flames. The warehouse is complete ruin, and it is doubtful if the remains of the firemen who lost their lives in the fire will ever be recovered.

WORLD'S FAIR STABLES.

The World's Fair stables, south of the cold storage building, were also burned, but no lives were lost there, and it is believed the live stock in the barns were all saved.

raphs made of transparent tortoise il, on which is a silver bow.

eading the gifts from the painters is a second Account.

Second Account. NEARLY FORTY PERSONS KILLED.

CHICAGO, July 10 .- The destruction by ng fire of the cold storage building at the suited in the death of nearly 40 persons tyear.

If fans the Princess has received a choice lection, numbering sixteen, and includsome valuable old lace ones, as well as the princess has the monogram of the most striking, from the Countess of lesche, has the monogram of the neess May in diamonds. Another is the given by the South Africans in Eng., which is composed of white ostrick ters, ivory, diamonds and gold—all nots of South Africa. Both sides of this furnity are the same state to pot this cupola that the fire was at the top of this rower to the same state to the support of the same state to the same state to the same state to the same state to the death of nearly 40 persons and threatened the destruction of the white city. The structure was 250 feet long by 150 feet wide and was constructed entirely of wood covered over with staff. The main body of the building was five stories high. In the center of this rowe the same state to pot this cupol at that the fire was also covered.

dench, Spanish and feather fans. One of the beach of the

down the hose gave way and they dropped into the seething mass of fire and were lost, and the multitude below gave utterance to a grean of sickening horror. Another of the imprisoned men started down the rope on the north side of the tower, and had almost reached the roof when it gave way, and he fell, striking on his head. He was instantly killed. There remained, according to the count of various spectators, from 25 to 30 men on the tower. They were hopelessly

from 25 to 30 men on the tower. They were hopelessly

EEFOND REACH OF HELP.

The longest ladder fell short of reaching them by a full 40 feet. Death of a most awful kind was fast approaching

At this terrible moment Capt. Fitzpatrick's tall form and white helmet appeared in front of the men, who were huddled together on the narrow balcony. He appeared to be addressing his brave followers. What he said will probably never be known, for he alone of all the men around him at that moment escaped alive, and his injuries are such that it is doubtful whether he will ever recover consciousness. As he ceased to speak one of the men crept around the burning balcony to the east and As he ceased to speak one of the men crept around the burning balcony to the east and returned a moment later with a rope. It was hastily fastened to the railing around the balcony and thrown to the roof. Capt. Fitzpatrick pointed to it. The foremost man seized it and started to slide down, but ere he was half way the cruel flames rolled up, and he was

SWALLOWED BY THE AWFUL YOLGANO.

rolled up, and he was

SWALLOWED BY THE AWFUL VOLCANO.

Another tried it and met the same fate.

One after another five of the men at this
moment sprang from the balcony to the
roof and were killed. Seeing his men jumping to their doom, the heroic captain
seized the rope and started down. A ladder
had been raised, but was almost twenty
feet from the end of the rope. He dropped
and caught on the end of the ladder
Marshal Murphy, an old personal friend

and caught on the end of the ladder
Marshal Murphy, an old personal friend
of Capt. Filipatrick, and who has worked
on the Chicago fire department with him for
a score of years, was on the roof. Seeing
there was a chance to save his old comrade's
life he sprang forward and was soon at the
top of the ladder.

A SHOUT OF ADMIRATION AND ENCOURAGE-

went up from the multitude below. The went up from the multitude below. The heroic marshal started back with his friend, but was enveloped in flames. With the energy of despair he cluthed his comrade and slid down the ladder to the roof, where he fell prostrate. Both Murphy and Fitzpatrick were un-

conscious. They were lowered to the ground and taken to the hospital. Scarcely 25 minutes had clapsed since fire was discovered, but so rapid had been its progress that the entire tower was burned

FELL WITH AN AWFUL CRASH, carrying with it several firemen who were playing on the flames with hose from the roof. There was a wild scramble to get off the roof. A large quantity of linseed oil was stored on the top floor, and when the tower fell it crashed through the roof to

Steps Taken to Secure Their Retention in London.

Mr. Seargeant's Suggestions in Regard to the Matter.

Bell" Proposal Revived and Practically Adopted.

Clark's Electric Street Railway Proposal

Laid Before the Council and Sent to No. 1 Committee.

The W. C. T. U. Hall Is Not To Be Exempt from Taxation - A Public Bathhouse a Possibility - Estimates Asked for Cinder

'Cycle Track.

It was half past I o'clock this morning when a tired but pleased crowd trooped out of the west side of the City Hall arcade and made across the market to Aid. John Moule's grocery, in search of refreshments. They were the members of the City Council who had survived the protracted session and much they needed refreshments. The telephone had been worked for all that it was worth, but no restaurant or hetel could be found who would undertake the job of feeding the hungry at such an unseemly hour. When the meeting started all the aldermen were in their places, and when it closed the following stood proudly up to be recorded as having stood proudly up to be recorded as having stuck to their guns. They were: Mayor Essery, Ald. Heaman, Moule, Coo, J., W. Jones, Welford, Carrothers, Stevely, F. J. Fitzgerald, Parnell and Shaw. Mr. F. A. Fitzgerald and City Solicitor Meredith were also present. The electric street railway offer of Col. Clark was referred to No. I committee but the car shop question was discussed until after 1 o'clock and resulted in the Bell offer of last year being, with in the Bell offer of last year being, with one or two slight exceptions, practically adopted. The mayor will communicate

adopted. The mayor will communicate with Mr. Seargeant with regard to the exceptions taken and an agreement arrived at. A large crowd was in the hall at the commencement of the sitting, but they had dwindled away one by one iong before the car shops question was finished.

No. 1 committee's report submitted the was stored on the top floor, and when the tower fell it crashed through the roof to this inflammable fuel, and then the flames rolled up high in the air. As the firemen fled from the roof one of them picked up the mangled form of one of the unfortunates who had jumped from the balcony, and carrying it to the edge of the roof dropped it to the ground, thus saving it from cremation.

Many of the firemen who lost their lives might have been saved had the department been supplied with nots. They could have been saved. Seeing that it was a hopeless task to attempt to save the building, and as all who escaped alive had left theroof, the firemen now directed their efforts of keep the fire from spreading.

The World's Fair stables just south of the big warchouse were burning and the fire had spread to the roofs of several hotels across Stone Island avenue just across from the grounds. With a big effort the hotels was a sufficient spanning that the city limits, and also to the clause that would be required for the purpose of carrying on this work. He also objected to the clause that would be required for the purpose of carrying on this work.

the big warehouse were burning and the fire had spread to the roofs several hotels across Stone Island avenue just across from the grounds. With a big effort the hotels were saved, but the stables were burned to the ground. In less than two hours from the time the fire started the big cold storage warehouse was leveled to the ground.

A complete and accurate list of the dead will be difficult to obtain before to-morrow.

Some women may have perished.

When the fire broke out there was a large number of World's Fair visitors in the warehouse. The firemen rushed in and made for the roof, and in an instant there was a rush for the stairways and exits.

In their excitement some of the men thrust women and children aside, and a number of them were thrown down and badly bruised.

It was reported that a number of people lost their lives.

Let trought a ledy's watch was found.
