

The Mill Cannot Grind with Water That's Past.

This is what a fagged out, tearful little woman said in telling her cares and weaknesses. Her friend encouraged by telling of a relative who had just such troubles and was cured by Hood's Sarsaparilla.

"I, little woman now has tears of joy, for she took Hood's Sarsaparilla, which put her blood in prime order, and she lives on the strength of the present instead of worrying about that of the past."

Humor. "When I need a blood purifier I take Hood's Sarsaparilla. It cures my humor and it is excellent as a nerve tonic." Joan Eason, Stafford Springs, Conn.

Erysipelas Sores. "After several years of suffering from my nose, took Hood's Sarsaparilla and it cured me. My brother was also relieved by it of erysipelas in his face." Etha Cousens, Burdon, N. B.

Visit of the Fair Wage Officer to London.

Mr. D. J. O'Donoghue, Fair Wage Officer in connection with the Department of Public Works, was in town yesterday in connection with the building of the new Drill Shed and Armory at London. It is his duty to see that the labor employed in erecting the Drill Shed be paid at the current rates prevailing at the present time in London for the various classes of work required. Tenderers will therefore put in their figures, taking into account the rate of wages reported by the Fair Wage Officer of the Dominion Government. We understand that as soon as Mr. O'Donoghue's report is sent in, and confirmed, tenders will be promptly asked for the work.

DEADLY FIGHT

On the Top of a Rapidly Moving Passenger Train.

St. Louis, Mo., Oct. 6.—On the top of a Chicago and Alton passenger train, moving at the rate of 40 miles an hour, Wm. Burke, of this city, and an unknown man, fought a duel to the death yesterday.

The two men were heading their way to Chicago. After the train left East St. Louis, the stranger drew a revolver and demanded Burke's money. Burke refused to comply with the request, and grappled with his antagonist. During the struggle which followed the unknown shot Burke in the side, but the latter finally managed to push him from the top of the coach. He was picked up with his skull crushed in and otherwise horribly injured and barely alive. Burke will recover.

Rome, Oct. 6.—A Taku dispatch says the Russians mistook the French for Boxers in the attack of Shanghai Kwan, and fired on them. The French returned the fire. Six Russian soldiers and seven Frenchmen were killed.

Owing to restrictive regulations and unfavorable treatment says a New York Herald dispatch, from Hong Kong, British shipping companies have abandoned the West Indian trade and sold their vessels for the Yang Tze, leaving foreigners in the river ports dependent on Chinese launches in the event of a rising.

"The United States Government has proposed to the powers to insist that Prince Tuan be beheaded, that the emperor be induced to return to Peking to form a government of Progressives, and that the support of European bayonets, and that the empress dowager be deposed."

The Daily Chronicle admits that it finds considerable difficulty in believing the report.

Letter of Condolence.

The following letter of condolence has been sent to the family of the late R. J. C. Dawson, in London, England:

London, Ontario, Canada, Sabbath Morning, Sept. 30, 1900.

To Mrs. R. J. C. Dawson and Family: Dear Christian Friends, We, the members of class No. 6 of the First Methodist Church, have, with great surprise and deep regret, heard of the death of our beloved leader, last Sabbath, in London, England. You may rest assured that the mournful news was a great shock to the class, as we were soon expecting his return to us, in increased health and spirits. His place will be hard to fill, so faithful and punctual in his attendance at the class, always greeting each member with a very cheerful, hearty and inspiring shake of the hand, and very particular in visiting the members, especially if any were in sickness or trouble of any kind. Even when in poor health he would be found at his post of duty at the class, and attending the ordinances of God's house, when others in like circumstances would remain at home and nurse themselves. Though of quiet manner, he was a person of deep and earnest piety, and had a wonderfully retentive memory for God's Word, repeating to the class with closed Bible, not only Psalms, but long chapters from the Scriptures. You may be sure that you have the deep and heartfelt sympathy of each member of the class in the great bereavement that you are called upon to pass through, in the loss of a loving husband and an affectionate father.

All that we can say is to take comfort from the fact that he spent over forty years of his valued life in active, faithful, earnest and loving service for his Master, having filled the positions of secretary, Bible class teacher and superintendent in the Sabbath school; also for a great number of years recording steward of the quarterly board of the church, as well as the important position of class leader, leaving a name and memory behind him that will for many years to come, in the advancement and promotion of God's cause.

Dear friends, we trust that in this, the greatest trial and affliction of your lives, that you will be abundantly strengthened both in soul and body by the God of all consolation and grace.

ever trustfully relying on that God who is too wise to err and too good to be unkind to his loving followers, and in keeping in mind that he who sees the end from the beginning, orders all things wisely and well, both for our spiritual and temporal interests. Our prayer as a class is that the God who has ever been a father to the fatherless and a husband to the widow, may be your strength, support and comfort all the way along life's journey, and if faithful to the end, you will all meet an unbroken family in that upper and better home above, where a loving Saviour will wipe the tears from every eye.

CONCESSIONS ARE OFFERED

At Sixty-Nine of the Coal-Mining Operations

In the Lackawanna and Wyoming Valleys, But Nobody Goes to Work.

Scranton, Pa., Oct. 6.—In compliance with the agreement of the Individual Coal Operators' Association, covering the Lackawanna and Wyoming Valleys, to give an increase in wages to their striking mine employees, the following notice signed by each operator in the association, and posted for himself at the mines controlled by him, was issued this morning: "This company makes the following announcement to its mine employees: 'It will adjust its rate of wages so as to pay to its mine employees on and after Oct. 1, and until further notice, a net increase of 10 per cent on the wages heretofore received.' 'Not—it is understood in the foregoing that the powder will be sold to miners for \$1.50 per keg, and that the difference between this rate and the old rate of \$2.75 shall be taken into account in fixing the net advance of the price noted above for this class of work.'"

This is identical in form with the notice posted in the Hazleton region. This notice was put up at no less than 60 mine operations during the morning.

NOBODY WENT TO WORK.
Inquiry at the offices of several of the operators revealed the belief that the strike could not last much longer, probably not over another week, any further. The miners and laborers would thoroughly understand the situation and realize just what the increase means.

It was also learned that the rate applied to every condition of earnings that held before the strike was declared, and this meant that the allowances for "dead" work and hard places would stand.

It is figured out that the only inequalities which may arise will be the case where one miner is able to get out more coal with a keg of powder than another, but the latter's allowance will about even this condition.

WHY THEY WAITED.
The individual operators delayed announcing their willingness to grant the increase, pending the report of the committee sent by them to New York to endeavor to secure carrying companies. The committee was unsuccessful, and so reported, and the operators, feeling their position, decided to follow the leaders and grant the advance. It is the general opinion that a great majority of striking miners would be willing to accept the offer and return to work.

NO FURTHER CONCESSIONS.
New York, Oct. 6.—The Evening Post says: "President J. Rogers Maxwell, of the Jersey Central, and the president of another coal carrying railway, who declined to be quoted for publication, made the definite announcement that no further concessions would be granted to the striking miners, and that if they did not accept the 10 per cent offer the strike would be fought out."

IRON WORKERS ACCEPT A CUT.
Lancaster, Pa., Oct. 5.—The 1,600 striking employees of the four rolling mills of the Susquehanna Iron and Steel Company, at Columbia, held a meeting last night and decided to accept the 25 per cent cut in wages, and go to work on Monday, provided the company will pay the 25 per cent cut in heat in addition to the 25 per cent cut in wages. The strike has been in effect for two weeks. The company has not yet given an answer to the men's proposition.

STOPPED DRILLING.

Port Gormer, Oct. 5.—As a result of the strike of their drill men, Messrs. Hogan, Macdonnell & Co., contractors for the work of improving the harbor, have decided to lay up their drills. This means that from 75 to 100 men will be thrown out of work, and that work on the harbor improvements will be practically at a standstill.

AGAINST CHILD LABOR.

St. Louis, Oct. 6.—The National Tobacco Workers' Union of America has decided to take up the fight against child labor. It can be seen by the way the union label from all the factories which give employment to any one under 16 years of age. Tobacco factories all over the country will be given until May 1 next to recognize the order.

THE ROYAL BOX.

The czar of Russia did not long ago see his happiest moments were those passed in the library among the books at the Winter palace.

The Prince of Wales still pursues his law studies most systematically. He was chosen a member of the Middle Temple a number of years ago.

King Menelik of Abyssinia receives Europeans at his court on Sundays. His state posture on such occasions is to sit cross-legged under a canopy of drapery.

The king of Bavaria was kept very short of money when he was a boy. One day he heard some one say that tooth dentists were scabious, and off he went to a dentist and offered to have his own extracted for a monetary consideration.

One of the favorite amusements of the empress of Russia is in drawing caricatures. Freed from the fear of the censor, she indulges with her pen and pencil in a way which makes even Russian ministers tremble, drawing them in caricature which would mean death or Siberia to any other artist.

SIR WILFRID'S MEETINGS

The Premier Will Spend a Week in Ontario.

Dates for Stratford, Wallaceburg and Windsor—Unionism in Ottawa.

Ottawa, Oct. 6.—Several of Sir Wilfrid Laurier's colleagues will be with him at the meeting in Toronto on Tuesday, Oct. 16. Subsequently other meetings will be held throughout the province, where the ministers will divide in parties of three.

On Wednesday, Oct. 17, Sir Wilfrid Laurier and Sir Richard Cartwright will speak at Stratford; on the 18th the premier will speak at Wallaceburg, and on the 19th at Windsor. Sir Wilfrid will also be accompanied by Hon. David Mills.

During this time it is expected that Hon. W. S. Fielding, after the Toronto meeting, will remain in Ontario for a few days, and accompanied by Hon. William Mulock, hold a series of meetings.

Hon. William Patterson, has engagements from now until Oct. 21. After that date he will hold several meetings at important centers.

Hon. Mr. Tarte has received numerous invitations to speak in Ontario, but, owing to departmental work, cannot arrange for dates in response to these invitations until after Oct. 15.

It is expected that a large number of Liberals from outside constituencies, and especially from the 44 ridings comprising the central district, will be present in Toronto on the 16th. At present Sir Wilfrid will devote but one week to Ontario, and all his meetings during this visit, save the Toronto demonstration, will be in the western district, for should he return to the province later than this fall, time will not permit him to go further west than the central district.

UNIONISM IN OTTAWA.

Trade and labor unionism is progressing rapidly in Ottawa. Drygoods clerks, bartenders, teamsters and housekeepers are organizing, while new unions of carpenters and butchers have been formed. The idea of running a labor candidate is gaining in favor. It is felt that more success will be met by placing but one in the field. With two votes all labor men can give one to their own candidate, while those who dislike leaving their former party will have the other vote to keep themselves in line. The same method will probably be followed in West Toronto and in Hamilton, where the double vote is used.

His power is as great as that of the Czar, his word is law, and his judgments, be it said to his credit, are like those of Solomon. Although as poor as it is possible for a reigning prince to be, Lord Nicholas is as proud as Lucifer and is very jealous of his descent from a race of fighting men.
