Had a Distressing, Tickling Sensation in The Throat.

COULD NOT SLEEP AT NIGHT.

Dr. Wood's Norway Pine Syrup is rich in the lung-healing virtues of the Norway pine tree. It is a pleasant, safe and effectual medicine that may be confidentially relied upon as a specific for Coughs, Colds, Bronchitis, Hoarseness, Sore Throat, Quinsy, and all Throat and Lung Troubles.

It will stop that tickling in the throat which causes the dry cough that keeps you awake at night.

Mrs. J. A. Smith, Marshville, Ont. writes:-"I had a very bad cough and that distressing tickling sensation in my throat. It was so bad I could not sleep at night and my lungs were so sore I had to give up work.

"Our doctor gave me medicine but it did me no good, so I got a bottle of Dr. Wood's Norway Pine Syrup, and by the time I had used two bottles I was entirely eured. I am always recommending it to my friends

Do not be humbugged into buying the so-called Norway Pine Syrups but be sure and insist on "Dr. Wood's." It is put up in a yellow wrapper; three pine trees the trade mark; the price 25c.

THOUSANDS WATCH MARINE TRAGEDY

THIRTY MEN IN RIGGING

Largest Sailing Ship in World Is Wrecked at Dover After Collision.

Dover, England, Nov. 7.-Within a tone's throw of safety, thirty memers of the crew of the five-masted steel schooner, Preussen, the largest sailing vessel in the world, are lashed to the rigging of the ship today, while great waves wash over them and threaten any moment to drown them. and staunch sea-going Lifeboats said Mr. Rodie. "We have near by, but would be dashed to pieces tugs, braving the gale, are hovering if they attempted to go alongside. The storm shows no sign of abating and it is not believed the men can hold on much longer.

Along the shore thousands of persons have gathered to watch the dramatic scene, and though every man is willing to risk his life to save the imperilled mariners, not one can turn a hand. The Preussen, a German-owned ves-

sel, early Sunday collided in the channel with the steamship Brighton. Neither seemed seriously damaged, the Brighton making port under her own steam. Nothing more was heard of the Preussen until she was dashed on the rocks at South Foreland, and it s surmised that her steering gear was disabled by the collision.

For hours tugs and tiny lifeboats braved the storm in an effort to take off the crew. Life-lines were fired from shore, but for some unaccountable reason the crew failed to make them fast. The great ship is now breaking up. From the shore the sailors can be seen clinging to the rigging, with waves breaking over them. They have been in this exposed position for thirty hours, and it is not believed they can stick much longer. The Preussen was built in 1902, and
