Or have the proceedings of the Government in the present crisis been so judicious and so prompt—have they evinced so much earn—have they evinced so much earn—issed by them, that the leading resolution and the forfeiture of public esteem and constress and sincerity that the critics have was changed to meet their views. The folcome to the conclusion that it would be lowing is the amended resolution which was

in the powers breit been to indicate on the contine that I would be provided by the internal to be leading would be come to the contine that I would be formation and the contine that I would be formation of the power of the contine that I would be formation of the power of the contine that I would be formation of the power of the contine that I would be formation of the power of the provided by the first the would be formation of the power of a very great marvel after all. It will be done in their own day and under their own eyes, and therefore is not greatly wondered at. But the and the certainty with which that latures can devise that great undertakings who compose it are business men, who latures can devise that great undertakings would do business in a business-like way. are wonderful, and bear the most striking and industrial establishments can be carfeetiment to the scientific process of the testimony to the scientific progress of the age, and to the skill, the energy and the capital. Even if the state supplied the taired what they wanted, they now but it would be payment for labor done,

"a lion in the way." This is most

cal sagacity and commercial enterprise is fraught with consequences which the wis--est and most far-seeing men in the world are only beginning to guess at. What its ultimate results may be it is impossible even to conjecture. One thing, however, is already certain, and that is, that the men who projected the Canadian Pacific Railway, and in the face of the most formidable ulties of all kinds, courageously carried it on to completion, worked better than even they knew, and must now and their most efficient promoters of the advancement and the welfare, not of Canada alone, but of the whole British empire.

## THE SOCIALISTIC CONGRESS.

bor Congress were not in sympathy with put upon them, showed very clearly that of his abilities. It was said of old that a the Continental representatives of labor. Sir Hector Langevin was not qualified to Socialistic doctrines are not well received be the Head of one of the Departments own country, and the Independent's article Socialistic doctrines are not well received be the Head of one of the Departments by any class in Great Britain. The ardent of the Government. This, as far as we can Socialists, even among working men, are see, is the unanimous verdict of the people few in number, and they are not popular. of Canada. British workingmen, like the rest of their The man who permitted a department to fellow-countrymen, are practical. They care very little for mere theories, no matter thow high sounding they are. What they want in the way of reform is something that can be had now, and they are willing that can be had now, and they are willing that can be had now, and they are willing that can be had now, and they are willing that can be had now, and they are willing to "go slow." If they cannot get all they want at once, they will take what they can obtain, and are content to wait until they can advance another step. Their continent all neighbors reproach them for being too cold and too patient, and they also declare plies effectually disqualify him from holding in it, damn his theories in Canada, says:

"It is melancholy to observe that Mr. Vincent is a prophet whose doctrines have not received the honor of acceptance in that colony, such assemblages as can be induced to hear him at all, listen politely, and even pass resolutions patting him on the back (hostile motions and, dissentient speeches being carefully eliminated), and then, having no deepness of earth, go away to admit that, pretty and high-sounding as the plan may be, it is impracticable and impossible. Even the newspapers most disposed to think there may be something in it, damn his precious League to the form of the point of the properties of the honor of acceptance in that colony, such assemblages as can be induced to hear him at all, listen politely, and even pass resolutions patting him on the back (hostile motions and, dissentient speeches being carefully eliminated), and then, having no deepness of earth, go away to admit that, pretty and high-sounding as the plan may be, it is impracticable and impossible. Even the newspapers most disposed to the honor of acceptance in that the work of the honor of acceptance in that occupy a position to which were attached so many in the demonstrated that he was not fit to occupy a position to which were attached so many in the demonstrated that he was not fit to occupy of the honor of acceptance in the

This triumph of engineering skill, politiand, who is to tell, whether, under state disappointing to many of the citizens who, all accepts and companying it is socialism such as this is, the industrious a little while ago, believed that a work, alworkman would get as much as he does solutely necessary for the preservation of

resignation was a foregone conclusion. It has been for some time evident that it was impossible for him to remain a member of the Government. If the Premier retained him in the Cabinet he decreed his own The British delegates at the Brussels La- made, no matter what interpretation was

beyond the power of legislation to make cil would come to this lame and impotent

mr. VINCENT'S CRITICS.

The Sheffield and Rotherham Independent does not look upon Mr. Howard Vincent's scheme of Fair Trade with indulgence, neither does it show that it is impressed with the dignity of that gentleman's position in the political world, or the brilliancy of his abilities. It was said of old that a prophet is not without honor except in his own country, and the Independent's article is another of the many evidences of the truth of the saying. The Sheffield journal, downfall. The disclosures that had been with the dignity of that gentleman's posiis another of the many evidences of the truth of the saying. The Sheffield journal, commenting upon the reception given to Mr. Vincent and his theories in Canada,

that an arrangement of this kind would be beneficial to both the Mother Country and the colonies. There is no qualification in their approval—no hidden censure or conditions men

scandals, is condemned or even adversely criticised. What stronger proof than this could be adduced that our statement was accurate in every respect? for if the Times could have found a single remark finding fault with the course which the Governmen is taking, with respect to the scandals, i would not have failed to reproduce it, and that, too, in large capitals.

## NOTES FROM DUNCAN'S.

(Special Correspondence of the COLONIST.) Mr. Whidden is hard at work on the ne workman would get as much as he does now? The Socialists seem to forget that the State can create nothing. All it can do is to administer; and it does not manage the concerns with which it is entrusted so well that men should greatly desire to widen the sphere of its operations.

THE RESIGNATION ACCEPTED.

We were not surprised to learn, by our is pecial telegram from Ottawa, that Sir Hector Langevin has resigned. His the surprise solutely necessary for the preservation of the public health, was in a fair way of being accomplished.

Some may think that when the sewers cannot are constructed there will be no need of a greatly are mistaken. There is much garbage which the sewers cannot cells in the building will not be needed.

The atmosphere is at present laden with smoke, caused, it is supposed, by bush fires in the neighborhood.

Tuesday last will be a memorable day for the tribes of grouse resident in the district, and a sad one if the bark of the gun was not worse than its bite, for a large amount of

more pity.

Mr. James Flett has finished his new

residence, and may now be called one of our permanent residents.

Considerable uneasiness seems to prevail

Considerable uneasiness seems to prevail among the Indians here on account of the fires they have had in their villages. They blame the Chinamen for it, and the latter appear afraid that the Indians may retalist. One Indian reports that a man was seen by him attempting to fire his house. He says he looked like an Indian, and travelled with feet bare.

## LIBERTY VERSUS COMFORT. How a Pet Goldinch Was Enticed Back Into His Cage. Our pet goldfinch, having escaped

from his cage, flew into a tall ailanthus tree in the back yard, says the Amer ican Agriculturist. There he sat, singing his sweetest and rejoicing in his unexpected freedom. We brought ou his gilded cage and set it on the top o: at all step-ladder, leaving the door oper and just inside a cup of tempting hemp-seed. For two hours he scorned to look at it, though he often fixed his bright little eyes on us when we called him, and answered us with a cheery, defiant "Witzah!" We had almost given up hope of getting him back, when it oc-cured to us to ring his breakfast bell; in other words, to rattle up the hempseed in the tin box where it was kept. This in the tin box where it was kept. was a sound he understood, as we had long made it a practice thus to announce breakfast to his finchship. Fortunately he had nothing to eat when he flew away, and the well-known sound suggested seed, water and lettuce to the little empty stomach, so he hopped down slowly from bough to bough, until he was close to the cage. There he stood for some time, evidently hesitating, until suddenly he flut-tered down into his home, having detered down into his home, having de-cided to abandon the delights of liberty for the solid comforts of civiliza-

Gold while in circulation is handled less than any other medium. It is usually kept in vaults of banks for demand rarely made, and for this reason the loss by abrasion is but 1/4 of 1 per cent. in twenty years. In a \$20 gold piece, the standard weight of which is 516 grains, the government allowance for loss by abrasion is 2.58 grains.

The Friday Superstition The governor of a southern state is in correspondence with the governors of all other hanging states, hoping to all other hanging states, noping to make an arrangement by which no one shall be hanged on Friday. It is thought that if other days shall be selected the superstition which generally attaches to Friday will soon pass away.

# THE OWEN It does not matter much to a boy whether he is good looking or the re-

down below par or even put her out of the market altogether. One never sees 71 King Street West, Toronto, Ont.

C PATTERSON, Manager for Canada.

Electricity as Applied by the Owen Electric Belt and Appliances Is now recognized as the greatest boon offered to suffering humanity. It has, does and will effect cures in seemingly hopeless cases where every other known means has failed. Rheumatism cannot exist where it is properly applied. By its steady, soothing current, that is easily felt, it will cure

Liver Complaint Female Complaints Impotency Constipation Kidney Disease Varicoceie
Sexual Complaints
Epilepsy or Fits
Lame Back.

RHEUMATISM. It is not pleasant to be compelled to refer to the indisputable fact that medical science has utterly failed to afford relief in rheumatic cases. We venture the assertion that although electricity has only been in use as a remedial agent for a few years, it has cured more cases of Rheumanism than all other means combined. Some of our leading physicians' recognizing this fact, are availing themselves of this most potent of Nature's forces.

T RESTORE MANHOOD AND WOMANHOOD.

As man has not yet discovered all of Nature's laws for righ living, it follows that every one has committed mere or less errors which have left visible blemishes. To erase these evidences of past errors, there is nothing to equal Klectricity as applied by the Owen Electric Body Battery. Rest assured, any doctor who would try to accomplish this by any kind of drugs is practising a most dangerous form of charlatanism.

WE CHALLENGE THE WORLD to show a Electric Balt where the current is radio than to show an Electric Belt where the current is under the control of the patient as completely as this. We can use the same belt on an infant that we would on a giant by simply reducing the number of cells. Other belts have been in the market for five or ten years longer, but to-day there are more Owen Belts manufactured and sold than any other makers combined, RLECTENC INSOLES. Dr. Owen's Electric Insoles will prevent Rheumatism and cure Chibliains and Cramps in the feet and legs. PRICE, \$1.00 SENT BY MAIL.

EXTRACTS FROM CANADIAN TESTIMONIALS.

"For eight years I have suffered with rheumatism, and am now out of pain and growing better daily and in my 76th year. Can confidently recommend the Owen Belt when everything else fails." A Menzies, Niagara Fails.

"Having some knowledge of electricity and its power, and having used other belts prior by my use of yours, I can say that it is the best I have ever worn." Jas. Blair, Port Dalhousie. atism, and am now out of pain and growing better daily and in my 75th year. Can confidently recommend the Owen Belt when everything else fails," A Menzies, Niagara Falls.

"Having some knowledge of electricity and its power, and having used other belts prior to my use of yours, I can say that it is the best I have ever worn." Jas. Blair, Port Dalhousie.

"Am much pleased with belt it has done me great deal of good already." J. Sergerim, Gait, Ont.

BEWARE OF IMITATIONS AND CHEAR Part my
