of the best Hong Kong spium. A rigorous inspection was then made of the entire cargo, with the result that 100 tins were found. Chinese had done the packing and there was some one in San Francisco evidently in the ring who would have put the marked bags in a certain place when they were to be taken ashore. This seizure has put the inspectors on the qui vive, and in future every mat of rice that comes from China or Japan will be searched. TO EXCLUDE CHINAMEN.

Washington, April 10, -Secretary Carlisle sent a telegram to all the collecthe Pacific coast and the Canadian to instructing them that the Attorney General holds that the McCreary act of November 1, relating to Chinese, requires that the Chinaman "who is a merchant in fact," shall also be known to be such by the parties with whom he deals and by the policy generally, and this purpose may readily be defeated, if it were permissible to conceal his identity by trading under an assumed name, or under the disguise of a company. Chinese persons whose names do not appear in the firm name should not be admitted to the United States as merchants. This ruling is expected to result in keeping out of the United States ninety per cent, of the Chinese who now come in under the specious name of "merchants," instructing them that the Attorney General

CHURCH UNION.

Rome, April 11.—The Pope has shown to various cardinals of his household proofs of his encyclical letter on the subject of the union of the Roman Catholic and Greek churches, which His Holiness regards as of the highest political and religious importance. His letter declares that the union will restore the complete autonomy of the schismatic churches; the syned nominating the patriarchate and the latter nominating the bighops, which will give the same autonomy to the national churches as they enjoyed in the carlier centuries. The Eastern churches will be rendered absolutely independent of Latinism.

FRENCH REPATRIATION.

OTTAWA, April 11.—(Special)—A large delegation, representing the Quebec Colonization and Repatriation Society, waited on the Minister of the Interior to-day and asked for Government aid in the work the society has been prosecuting, viz., the repatriation of Canadians from the United States. The delegation considered that the same inducements for repatriation in the Province of Quebec should be offered as in the Northwest. Hon, Mr. Daly expressed hearty sympathy with the work of the society, and promised to give their representations full consideration.

THE INDUSTRIAL ARMY.

SAN FRANCISCO, April 11.—The industria SAN FRANCISCO, April 11.—The industrial army continues to push for recruits, and 500 for a second regiment are expected to be ready to proceed to Sacramento on Monday morning. According to present calculations about 800 will leave Sacramento. The officers of the army will invest the city hall to-morrow in an attempt to secure from the Mayor passage for the second regiment to Sacramento. This afternoon street parades were begun and they will be kept until the regiment is ready to leave for Oakland.

"Whereas Lord Rosebery has, by recent utterances, made plain that Home Rule is no longer the first plank in the Liberal platform inasmuch as he had made it a principle that England, the predominant party, should first return a majority of members in favor of Home Rule for Ireland before he could see it possible to accede to the demands of Ireland; be it

Berlin, April 11.—The recent speech in the Reichstag by Count Posodowski is regarded by German bi-metallists as indicating the intention of the Government to call a conference to discuss a plan for fixing the price of silver by a treaty agreement between the countries interested and the issuance of international silver certificates.

U. S. TARIFF BILL. WASHINGTON, April 11 -Senator Hale WASHINGTON, April 11—Senator Hale opened an argument to-day against the tariff bill. An interesting feature of the speech was as to the effect of the bill upon the annexation sentiment in the Dominion of Canada, Mr. Hale contending that its passage would postpone indefinitely any prospects of such annexation. That one consideration he thought so important that it ought to be a death blow to the bill. He expressed his conviction that if the vote were taken to-day and if senators voted according to their convictions, the bill would die and would never be resurrected.

executive committee to declare a similar suspension of work at any time during the year, if the first strike does not secure the desired affect. President McBride appointed a committee to report a scale of wage upon which the organization will stand in the fight. It is almost certain that this will be an increase over that of one year ago, when 70 cents per ton for straight mining in the Hocking Valley was made the basis, with the established differentials for all the different mining regions and methode of mining. The basis will probably be 75 cents for the next year. The convention elected the following officers: John McBride, Ohio, President; P. S. Panna, Pennsylvania, vice-President; P. S. Panna, Pennsylvania, vice-President; P. S. Panna, Pennsylvania, to the strike over 200,000 men will cease work and double that number in associated industries will be affected. The organization controls all the labor engaged in mining bituminous coal in the United States and covers the states of Pennsylvania, West Virginia, Kentucky, Tennessee, Ohio, Iowa, Missouri, Kansas and Colorado.

POPULIST PEFFER'S REMEDY. WASHINGTON, April 12.—The Populist Senator from Kansas, Mr. Peffer, delivered in the Senate chamber to-day the third part in the Senate chamber to-day the third part of his speech on the Tariff bill. Among other statements he declared that if Congress was not so hampered with constitutional restrictions it could place within the hands of the President before thirty days a bill that would provide employment for all. The making of good roads he would leave to the people of the immediate neighborhoods, but he would start two rall-roads, one from the Atlantic to the Pacific and one from the Great Lakes to the Gulf. He would set all unemployed men at work and pay them good wages. Then, he thought, the dark clouds would roll away and be dissipated as the morning mist.

AN OLD SWINDLING GAME.

CENTRALIA, Wash., April II.—Quite a clever swindle was perpetrated on the ladies of the North End a day or two ago by a stranger, who represented to them that a man had died very poor and he was collecting funds with which to give him a decent burtal. They subscribed liberally and the man was no doubt congratulating himself on how his scheme of extorting money was working, when a citizen here, who had seen the same scheme worked before, immediately had a warrant issued for his arrest and he was soon behind the bars of our city jail. When searched by the officers he had \$32 in his possession—presumably all the result of his clever scheme.
