Vascouver, B. C., June 10—Stx Children States and the ramiflocations of the Pay Streak. A fine the Command of the Pays Streak and the Art To Exposition, are offered when the Black the Art To Exposition are offered the Pays Streak. The Command of the Pays Streak and the Pays Streak and the Command of the Pays Streak and the Command conducted by the Rizzos was the headquarters of the society in this country; and they found in a safe there letters which throw light on many successful attempts to extort money from wealthy Italians in Ohio, New York, Pennsylvania and other states. They show, the officers assert, that hundreds of Italian business men have been paying tribute to the Black Hand to secure immunity from death or torture at the hands of members of the society. The names of many active members of the Black Hand, together with the names of hundreds of their victims, are in the possession of the officers. The New York police officials, who are carrying on the detective work started by Joseph Petrosino, who was killed in Sicily, have been working on the theory that there is no extensive Black Hand organization, but that the operations have been conducted by individuals in different cities, who have no connection with each other. The work of the Cincinnati officers tends to show the contrary, and not only has the Black Hand a national organization in Sicily, and is working in connection with the similar organization in Sicily, and is working in connection with the Mafia.

At the beginning of the day's session a letter was read from Governor Durbin, of Indiana, advising prompt action on the tariff bill.
