Trotting Flyers at Utica.

UTICA, Aug. 16.—The grand circuit races opened auspiciously to-day. About 2000 people were in attendance. The track was in first-sclass condition, when the first race was trotted, just rain enough having fallen to lay the dust. Before 3 o'clock, however, a heavy shower came up and it continued to peur for 15 minutes. Water stood on the track in great pools, but the ground dried off very rapidly, and half an hour after it ceased raining the horses were called out.

There were fifteen entries in the 2.29 class, but en were withdrawn before the first heat. The sixth heat did not look like a fair one, as many thought it was a put-up job to allow Misty Morning to win. The judges decided it no beat, and announced that the race would be resumed to-morrow.

ELMIKA, N.Y., Aug. 16.—The four-day midsummer meeting at the Maple Avenue Driving Park opened auspiciously to-day with good attendance and fine weather. The pool-selling was brisk and the 2.29 race exciting. The favorite throughout was the Canadian horse Little Ben, but St., Jacobs took first money by winning the last heat by a few inches from the favorite.

What Feemer Said in New York.

New York Herald: John Teemer, champion sculler of America, who beat Hanlan from start to finish on Saturday, arrived in New York on Monday. Teemer looked as happy as a king, but referred very modestly to his victory, although he said that from the turning buoy, where he was purposely run into by a sailboat, he had fears that he would not get to the finish without being injured in some way. There were demonstrations in many instances by parties in boats near him that he did not like, and, when the race was over, he was not only giad that he was the winner, but that be was safe and sound. Teemer's shell was smashed in his transportation to New York, but he is in hopes of being able to have it repaired, as it is one of the best boats he ever owned.

The Teemer appears to be a man with a versatile tongue. Hefore leaving here he said he had never been tracked better any place. His statement that he was purposely run into by a sailboat is a falsehood. If Teemer could only tell the truth as well as he can row, he would be a better man all round.—The World.]

A CONFESSION OF HIS THEFT.

The Story of the Maubuttan Bank Defalca-The Story of the Manhattan Bank Defalcation Revived—Whereabouts of Scots.

New York, Aug. 16.—Richard Seaman Scots, who absconded with \$160,000 that belonged to the Manhattan Bank, of which he had been a pet employe in 1885 and about whose disaptearance and whereabouts there was such profound mystery, has made a confession before Consul-General Walter at London. For a time there was all manner of rumors about his location, but after a spasmodic story which took over a year to tell in the newspapers it was dropped by the public. People who were directly interested in the case were more active and have long since known of his movements. A suit has just been instituted in the Supreme Gourt which disclosed not only Scott's action but the fact that he was not alone in this stupendous defalcation. This suit is against John R. Dunn, Scott's colleague, for the recovery of \$140,000. The documents included in this case embrace an affidavit by the defaulter, which is a statement of the history of the case, but it is in truth a confession of his theft.
