THELONG-DESIRED INDUSTRY AL-

The Duty of the Authorities.

Beginning with the Dominion Parliament, the company will ask it to after the terms of the Iron duty. At present a bounty of \$\mathbb{S}\$ per ton is paid on all iron manufactured in Canada, but to be entitled to it everything used in the manufacture must be Canadian. Now, smelting works to be successful in Toronto must use Pennsylvania coke which is capable, so the firms interest ed in it declare, of producing a ton of iron for every ton of coke consumed. What is to be asked of the Dominian Government, then, is to pay the bounty of \$\mathbb{S}\$ per ton, and yet allow the use of American coke.

As Ontarro will profit materially in having such an enterprise established in her borders, both in the manufacturing activity aroused and in the equally desirable development of the province's mimerat resources, the company feel assured that they will be entitled to help from the Provincial Parliament. And certainly Toronto may be justly called upon to give help to an enterprise that will add to the city's manufacturing activity and give employment to many be justly called upon to give help to an enterprise that will add to the city's manufacturing activity and give employment to many workingmen.
