

T. EATON CO., LIMITED.

190 Yonge-st. Canada's Greatest Store. Toronto

Well Dressed Men

Command attention everywhere. This store appeals to gentlemen of refined tastes, anticipating every possible need and providing most fully for all sorts of real wants. We show the newest styles and finest qualities in:

- Suits
- Hats
- Gloves
- Hosiery
- Shirts
- Cuffs
- Shoes
- Umbrellas
- Overcoats
- Trousers
- Neckwear
- Underwear
- Collars
- Suppers
- Slippers
- Handkerchiefs

We're men's clothiers and furnishers in the most complete sense. Stocks are new and up-to-date—no old styles and no inferior qualities. If men would only be as particular in buying clothing as women are in choosing a dress, the balance of trade would be decidedly in our favor.

Regarding Shoes, there are several grades below the lowest we touch. The stock is comprehensive, embracing every worthy style for business and evening wear. The best manufacturers contribute to the showing, and gentlemen of particular tastes can be fitted here to perfection.

Manufacturing for Ourselves

Has fairly revolutionized the Cloak business of this store. We get hold of the newest styles and adapt them to the wants and wishes of our own customers, at a great saving in cost. Never before have we been able to retail garments of such elegance and excellence for anything like the money. For instance, we're selling:

Ladies' Dress Skirts

Made of Black and Navy All-Wool Serge, godet pleats, lined throughout and properly interlined and faced with velveteen. Made in our own workrooms by expert dressmakers; perfect fit and finish.

Special at.....\$5.00

Ladies' Fine Jackets

Made of choice Black French Boucle Cloth, half lined with silk, elegantly made throughout, full range of sizes, New York styles and all this season's designs.

Special at.....\$15.00

Ladies' Fine Jackets

Made of fine Kersey Cloth, fronts lined with silk, perfect fitting garments, tailor-made throughout, full range of sizes, latest New York styles, best value within your reach.

At.....\$13.50

Lots of other garments equally interesting—newest styles, finest qualities, superb values. This season's sales are way ahead of anything in the past. Good reason why! We never had a stock that pleased ourselves as thoroughly.

Bright, Cheerful Homes

Can be made so nowadays without much expense. Traditional high prices have been scattered and demoralized by newer, smarter methods, and manufacturers work along entirely different lines. A business of this size is able to take THOUSANDS of Chairs and Pictures at a time, CAR LOADS of Furniture and Wall Papers, and TONS of Carpets and Upholsteries. Such enormous quantities are a new element in retailing, turning to your advantage in such prices as these:

Solid Oak Extension Tables, polished, handsome finish, regular price \$12, special at.....\$ 8.75

Solid Oak Bedroom Suites, with cheval bureaus, bevel-plate mirrors, regular price \$35, special at.....23.97

Handsome Sideboards of quarter-oak, with fancy bevelled plate mirrors, regular price \$40, special at.....27.50

Solid Mahogany Bedroom Suites, hand carved, highly polished, regular price \$175, special at.....75.00

If you want anything for the home at any time, you know where to come. The second floor is always interesting to housekeepers with goods arranged for easy seeing and buying and prices marked in plain figures.

THE RISING OF A BOOM.

A brick of gold worth \$40,000 is now on its way to Montreal from British Columbia, where the owners of the valuable ingot are beginning to obtain results from a mine which they have been developing for some years past. It has been known that the mine in question was rich in gold, but a difficulty in obtaining water to work it under the new hydraulic process prevented the owners from the valuable gold in paying quantities. Now, however, they have obtained an ample supply of water, and it is said that the mine, under the favorable conditions, produced this \$40,000 brick in the space of three weeks.

Everything points to the coming of a mining boom in Canada. This one fact which has been cited above is of course not sufficient of itself to warrant a boom, but it is only one of the many straws which show the way the wind is blowing. A deeper in The World yesterday stated that the owners of twenty-five mines in the Kootenay district expected to realize each a million dollars during the coming year from the product of their mines, and that the possibilities of silver in the same district are wonderful. The accidental discovery of gold while boring for water near Vancouver, B. C., and the excitement in New York occasioned thereby is another of the indications that the public mind has at last been aroused to the importance of mining in Canada, and all that is necessary to produce a genuine boom is the sending east of a few more despatches like this, or the exporting of a few more bricks such as the one Messrs. Oiler and Hammond are forwarding to Montreal. The city of Toronto would welcome the arrival of a genuine mining boom with no little avidity. The decline in real estate has left a yawning chasm which nothing that has transpired from that date to the present has been able to fill. The boom in mining is the one thing that would fill the vacancy caused by the drop in real estate. Those who are in a position to know state there are no better gold fields in the world, not even South Africa, than we have in Canada. This statement is the basis of what ought to be, if it is properly conducted, a genuine boom in Canadian mining. If what is expected turns out a reality, the only thing we have to fear is that the same speculative fever that has seized the heads of the people in England over the South African mines may operate in Canada in the same way, and finally bring ruin upon many who get into the swim. The World is quite ready to lend its assistance in developing genuine mining, but we would deem it imprudent and ill-advised to create a sensation and stir up anything anything substantial behind it.

MARKHAM IS ALL RIGHT.

When Mr. Laurier addressed the farmers of Markham Township last week he produced a copy of a Toronto paper in which was published a list of city properties to be sold for arrears of taxes. The list, he said, contained 1248 different properties. He cited the fact to prove that the National Policy had been a failure. As Mr. Laurier was addressing the farmers of Markham, we think it would have been more to the point if he had referred to their condition particularly. There was accessible to him another list of properties for sale for unpaid taxes, embracing all the townships in the County of York. If he had availed himself of this list he would have found that not a single property in the County of York is in arrears for taxes. In the adjoining townships of Vaughan and King the list contains but one or two properties in arrears for taxes. The fact is that the sale of land for taxes in Toronto and the suburbs is owing entirely to the real estate fever and has no connection whatever with legitimate trade. When Mr. Laurier has to use arguments which everyone in this neighborhood knows to be erroneous, it is only to show that his case against the National Policy must be very weak. Otherwise he would not attempt to buy it up with statements that will not bear even a superficial analysis. If the list of actual farm properties that are advertised for sale be any indication of the prosperity of the country, then as far as York County is concerned, the fact is that the country is in a state of depression. The evidence of prosperity are very decided.

While Mr. Laurier has attempted, in a negative way, to prove that the farmers of Markham are not prosperous, the Globe, speaking in his behalf, makes certain positive statements in support of the same contention. Mr. Laurier's theory of the existence of bad times in Markham was proved by referring to the sale of suburban lots in Toronto. The Globe makes the same deduction from the alleged decline of a wagon factory in Markham. The Globe, however, was pulled sharply yesterday by a communication from the Spight Wagon Company, in which it was stated that the company, instead of being moribund, as the public were led to believe, is doing a good business. It has been in existence since 1839, and from that year 1878 it has run continuously for ten months in the year and has paid on an average of \$18,000 in wages per annum. In addition to this evidence of prosperity, the town of Markham can boast of a wooden factory, which Mr. John Hallam himself will say is doing a good business, and the local carpet factory, which has been in operation for many years. Mr. Laurier would travel many miles in other countries to find any such prosperous condition as that of Markham township.

THE FAST ATLANTIC SERVICE.

A despatch from Ottawa states that the Government has withdrawn its offer to Mr. Huddart of an annual subsidy of \$750,000 for the establishment

GUINANE BROS

Canada's Largest Shoe Store

214 Yonge-st., Oct. 25, 1895.

Saturday Shoe Bargain Day

The store will be open to-morrow night until 10 o'clock.

You'll find Bargains To-morrow such as we have seldom, if ever, offered—\$2.50, \$3, \$4 and \$5 lines are going to suffer.

Our quarter million dollar Stock of Fall and Winter Boots and Shoes has been picked from basement to roof.

You know that the shoes advertised will be here—and many of the Best Bargains are frequently omitted.

Our aim is to give you more than we promise.

sent intention of abandoning the wagon business, as you suggest in another column; on the contrary, our prospects for 1896 are unusually good. By inserting the above you will correct a wrong impression.

THE SPIGHT WAGON CO.

Markham, Oct. 22.

COMMERCIAL NEWS.

The decline of 2 per cent. in Toronto Street Railway shares yesterday

was a surprise to the bulls, who mostly

reside in Montreal. The great deal of

this stock is going east, and we believe

there is a larger quantity than ever

in speculative hands. The feeling here

is becoming more bearish, but few are

“shorting” the stock, although talking

a further decline of 10 to 20 points.

An insurance man told The World

yesterday that so far this season the

insurance companies have lost heavily

on their marine business. A good many

losses were incurred through low water

on the lakes and rivers. Freight rates

on this class of insurance are very

heavy, and there is a chance before

Dec. 5 the companies recovering part

of their losses. It will be remembered

that our companies last season made

large profits on marine risks, but at

best they will be small this year.

Sterling exchange is quoted stronger,

rates being the highest of the present

month. Cotton, too, is lower, but com-

mercial bills are in limited supply.

There is talk of gold exports at New

York for Saturday.

Canadian Pacific is a little stronger,

with sales in Montreal yesterday at

\$9 1/4. Holders seem to be encouraged

by the large earnings, they being \$2.

The bears had pretty much their

own way on Wall-street yesterday,

and timid holders also threw over-

board the stock of the holding. The weakest

stock was Manhattan, which sold

down from 10 1/2 to 10. The incorp-

ated earnings of Cable companies are

being felt, and bears predict that Man-

hattan will only earn 4 per cent. on

stock the coming year. The borrowing

demand for Sugar, Missouri Pacific

and Manhattan greatly increased in

the afternoon.

White wheat rose 2 cents per bushel

on the street market yesterday, with

sales at 73 cents. At prices asked for

this grade at outside points, car lots

cannot be laid down for a less figure.

The crop of white wheat in Ontario

is much less than given by the Sta-

tistician of the Ontario Bureau,” said

a dealer yesterday.

The advance in Chicago wheat yester-

day, sales in Montreal yesterday at

\$9 1/4. Holders seem to be encouraged

by the large earnings, they being \$2.
