The late Mr. Abraham Augustine was born in Welland county over 88 years ago and moved with his family to Aughrim in 1874. After being for over 30 years on one of the farms now owned by his son E. F. Augustine he moved to Arkona where he has since resided. He died at the home of his daughter Mrs. S. Dotzert of Arkona and was buried in the Mennonite cemetery near that place. Deceased was a staunch member of the Mennonite church and was a thoroughly upright and conscientious Christian. He kept the ever tender of his way even amidst adverse circumstances and was never known to stoop to slander or gossip of any sort. Being well read he was an authority on many educational subjects. He leaves one daughter Mrs. S. Dotzert of Arkona and two sons Albert of Arkona and Ellis of Aughrim, besides twelve grandchildren.

SEED ORDERS AND SUPPLIES

(Experimental Farms Note)

The new seed catalogues are coming in with their lists of novelties and staple varieties attractively advertised, and one gets much enjoyment in turning over the pages of one of these catalogues and mentally picturing the fine crops one will have next summer. Often, however, the catalogue is laid aside without the order being sent, and nothing further is done until spring, when it may be too late to get what is desired. The quantity available of the best strains of vegetables and flowers is usually small, hence it is very important to order early before the stock is exhausted.

There is a great difference between the best and the poorest strains. The stock of the best has been rigidly selected so that a large proportion will come true to type, whereas stock which has not been kept up by selection may have a bad mixture of types, and the resulting crop will be very unsatisfactory. This is of so much importance that, with a crop like the cauliflower, for instance, where a strain that will give a large proportion of good heads means much profit and a poor strain may mean very little, it pays the market gardener when he gets a good strain to hold over what seed he does not use until another year as he will thus be sure of having a good strain next year. This method would not, however, serve with the onion, which loses its germinating power very rapidly, hence should be purchased every year. There is a wonderful difference in onions. Sometimes from the seed of one stock a large proportion will be thicknecks while from another most of the plants make good bulbs. If one has had good success from a certain source one year, the safest plan will be to order from the same source another year.

Sometimes novelties have not been compared very carefully with the best of the older varieties before

being offered for sale, as they do not prove superior, if as good. While it is interesting to test varieties, it is well not to spend much money on them until they have been tested at the Experimental Station.

Another advantage of ordering early is that one can test the germinating power of a seed before spring so that there will be time to order again if the germination is poor. Often seed is ordered so late that when it is sown and the plants do not come up there is not time to order again, and one loses the crop. When there is a shortage of many kinds of supplies, as there is at present, it is very desirable to order early the material needed for next season's operations.

HOW TO TREAT STOMACH TROUBLE

A Tonic Medicine is Needed to Build Up the Digestive Organs.

The old-fashioned methods of treating stomach diseases are being discarded. The trouble with the old-fashioned methods was that when the treatment was stopped the trouble returned in an aggravated form.

The modern method of treating indigestion and other forms of stomach trouble is to tone up the stomach and glands to their normal work. Every step toward recovery is a step gained not to be lost again. The recovery of the appetite, the disappearance of pain after eating, the absence of gas, are steps on the road to health that those who tried the tonic treatment remember distinctly. Dr. Williams' Pink Pills are a tonic every constituent of which is helpful in building up the digestive organs, and therefore the very best remedy for simple or chronic cases of stomach trouble. The success of the treatment is best shown by hundreds of cases like the following. Mrs. Chas. Comer, Picton, Ont., says:—"For upwards of two years I was a great sufferer from indigestion. Food would ferment in my stomach, and I would belch gas with a burning sensation. Often I would be troubled with nausea, sick headache and dizziness. Notwithstanding that I was under medical treatment the trouble grew so bad, that I would only eat when absolutely forced to, and I was in constant misery. I was finally advised to try Dr. Williams' Pink Pills and had only been using them a few weeks when I found they were helping me. I very gladly continued their use and the result is they have made me a well woman, every vestige of the trouble having disappeared. I am so grateful for what Dr. Williams' Pink Pills have done for me that I strongly advise any who may be suffering from stomach trouble to give them a fair trial, and I believe that like myself they will find a sure cure."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail, post paid, at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

COUNTY COUNCIL NOTES

Thomas Simpson, of Enniskillen, was elected the Warden of the County of Lambton for the 1920 term by a majority of three votes. He polled a total of fourteen votes and his nearest opponent, William J. Davis, of Euphemia, polled eleven. The only other candidate nominated, James Wilson, of Wyoming, received only one vote, due to the fact that illness prevented his appearance at initial session and there was some doubt as to his candidacy.

The new Warden was sworn in by Senior Judge D. F. MacWatt and in his inaugural address asked for the assistance and support of all of the members of the council. He eulogized the County of Lambton and stated that although there was nothing of particular importance there are several questions looming up that will require consideration. After administering the oath of office, Judge D. J. MacWatt read a lengthy communication dealing with a resolution passed at the December session of the 1919 Council fixing the hours and duties of the stenographer, which he declared had interfered with his work. He congratulated the Warden and wished the

council all success during the year.

By-law were passed regulating the salaries of the governor and matron of the county jail prior to the adjournment of the session late on Saturday afternoon. These were increased to \$975 and \$400 per annum, respectively. M. D. Cameron and D. F. Shaw were appointed auditors at \$200 each. Grants of \$10 to the Sick Children's Hospital and \$400 to the Children's Aid Society were made.

Dr. Newell was appointed trustee to Watford High School. The rate for grand and petit jurors was fixed at \$4 per day and 13 cents per mile. A grant of \$1,000 was made to the Petrolia Hospital; \$25 to the public libraries of the county; \$1,000 to the agricultural societies of the county and \$100 to each of the women's institutes. Dr. Downer was appointed trustee to the Petrolia school and John McKenzie to the Forest High School.

KERWOOD

Miss Tabot spent the week end at her home in Dorchester.

Mr. Wm. Mathews, London, is visiting his brother, Henry, who is quite ill at present.

Mr. Law, who has purchased the grocery business from Mr. Pollock, expects to move his family here shortly.

The Methodist National campaign workers organized for a special drive to commence next Monday and continue for a week.

The Missionary Society of the Methodist church will hold a Valentine tea at Parsonage on afternoon of Feb. 12th. The funds to be in aid of the Railway Home, Alberta. The committee in charge are preparing an excellent program.

Mr. Dickson, father of Mrs. Joyce Irwin, passed peacefully away on Monday morning. The deceased had suffered a severe paralytic stroke about a week ago. He was a man of about 87 years of age and was highly esteemed by all who knew him. The service was held at his daughter's, Mrs. Irwin's, at 7:30 Monday evening, conducted by the Rev. Dr. Brown, a large number of friends being present. The remains were taken to Ripley for interment.
