

COUTTS' ACETOCURA

THE EXTERNAL REMEDY FOR
Rheumatism, Sotatica and
Nervous Diseases.
Mention this Paper.

REV. ALEX. GILRAY,
College Street Presbyterian Church, writes:
Dear Sirs,—
It is with much satisfaction that I learn that you have decided to establish a branch office in Toronto, believing as I do, that the more widely your Acetic Acid remedy is made known, the greater will be the gratitude accorded to you for the relief experienced by many sufferers in Canada. We have used your Acid for over eighteen years, and are now prepared to state that it is worthy of a place in every family. We have found it thoroughly safe and effective and have commended it to many—for which we have been thanked. We wish you success in your new quarters, as we feel sure your success will bring relief here as it has already done to large numbers in the old land and other countries. Much will depend on the patient and persevering use of the Acid as set forth in your little book.

ALEX. GILRAY, 91 Bellevue Avenue,
Toronto, 28th Nov., 1893.
For pamphlet and all information apply to
COUTTS & SONS, 72 Victoria St.,
TORONTO.

MISCELLANEOUS.

Submarine masonry is now made impervious to water by coating it with coal-tar, a process that is quite efficacious, even at a depth of fifty feet.

The total tonnage of war-ships launched during the year 1893 by the most active naval Powers was as follows: France, 52,188 United States, 40,050; Great Britain, 28,290; Russia, 17,326.

In an article in the *Revue Scientifique*, M. L. de Djeri claims that aluminium will soon replace tin for many purposes. For equal volumes the price of the two metals is not very different, and the alloys of aluminium with copper, etc., are superior to those of tin.

Some experiments have recently been made for the purpose of developing an aluminium bullet, to be used in place of lead in rifle cartridges. It is calculated that a soldier can carry about 200 rounds. In testing the penetrating properties, it is said that they have been found to be superior to lead.

Fulgurite is the name given to the new explosive brought out a short time ago in France by Raoul Pictet, of ice machine fame. It is claimed to be superior in its effects, both as an industrial and as a military agent, to any of the explosives now known and in use, and to entail none of their dangers of manufacture.

A four-wheeled waggon whose motive power is supplied by a benzine engine has been satisfactorily tested in Germany. It is intended to carry passengers through city streets or country roads, and can be run at the rate of half a cent a mile. The waggon and engine can be made for \$500. The speed is as high as 15 miles an hour.

The "penny-in-the-slot" apparatus has been arranged to deliver tickets on the Berlin Elevated Railroad. There are tickets for two classes and of different rates for different distances on the road, but the apparatus supplies only second-class 15 pfennig (3.6 cents) tickets. You put two 10-pfennig pieces into the slot, and take out a ticket and a 5 pfennig piece.—*Railroad Gazette*.

If you decide to take Hood's Sarsaparilla do not be induced to buy any substitute article. Take Hood's and only Hood's.

A wonderful nugget of tin has been discovered in the mines at North Dundas, Tasmania. It is estimated to weigh 2 tons 14 cwt. The assay of a small piece shows that the large mass of ore contains 67 per cent. of metallic tin.

When carrying an umbrella a short man holds it at an angle of 75 degrees. An Esterbrook pen should be held when writing at an angle of 55 degrees.

The decline in silver in London the past week to 26 1-4 pence, or about 63.6 cents per ounce brought the quotations to the lowest recorded level. At this price the silver in our "standard" silver dollar is worth 49.18 cents.—*Baltimore Sun*.

Fatal Result of Delay.

Sickness generally follows in the path of neglect. Don't be reckless! but prudently take a few doses of Scott's Emulsion immediately following exposure to cold. It will save you many painful days and sleepless nights.

A despatch from the City of Mexico says that a syndicate of Mexican and American capitalists has been organized for the purpose of constructing a Pan-American telegraph line to extend along the Pacific Coast from Victoria, British Columbia, to Santiago, Chile.

Don't selfishly deprive your friend of cheerful company by remaining a dull, gloomy Dyspeptic. Restore your spirits by using K. D. C., the King of Dyspepsia Cures. It conquers every time.

In 1892 the Russian railroads carried about 36,000,000 gallons of wine, produced in Bessarabia (along the Roumanian border), in the Crimea, and in the country on the slopes of the Caucasus, the southern side of which is like many vine-growing districts of Western Europe.

MR. JOHN HENDERSON, 335 Bathurst street, Toronto, was cured many years ago of a complication of diseases at the Saltcoats Sanitarium, Ayrshire, Scotland, where our remedy is largely used. At home his people were never without it.

The *Engineering and Mining Journal* says that lake shipbuilding has shared in the depression which has affected all other business, and on January 1st there were reported under construction in the lake yards only 28 vessels of an aggregate tonnage of 26,100 tons, against 49 ships of 68,470 tons a year ago.

Do you feel the first muttering of Indigestion? Don't wait for it to become chronic! Use K. D. C. K. D. C. Company, Ltd., New Glasgow, N. S., Canada, or 127 State St., Boston, Mass.

Minard's Liniment Cures Diphtheria.

"For Years,"

Says CARRIE E. STOCKWELL, of Chesterfield, N. H., "I was afflicted with an extremely severe pain in the lower part of the chest. The feeling was as if a ton

weight was laid on a spot the size of my hand. During the attacks, the perspiration would stand in drops on my face, and it was agony for me to make sufficient effort even to whisper. They came suddenly, at any hour of the day or night, lasting from

thirty minutes to half a day, leaving as suddenly; but, for several days after, I was quite prostrated and sore. Sometimes the attacks were almost daily, then less frequent. After about four years of this suffering, I was taken down with bilious typhoid fever, and when I began to recover, I had the worst attack of my old trouble I ever experienced. At the first of the fever, my mother gave me Ayer's Pills, my doctor recommending them as being better than anything he could prepare. I continued taking these Pills, and so great was the benefit derived that during nearly thirty years I have had but one attack of my former trouble, which yielded readily to the same remedy."

AYER'S PILLS

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.
Every Dose Effective

When writing to Advertisers please mention THE CANADA PRESBYTERIAN.

Riches exclude only one inconvenience, and that is poverty.—*Johnson*.

There is no genius in life like the genius of energy and activity.—*D. G. Mitchell*.

JAMES E. LESLIE, Richmond street, Toronto, writes—"It affords me great pleasure to attest to the benefit I derived from your Guaranteed Acetic Acid in a case of Pleurisy. It was decidedly effectual, nothing more need be said. I have also recommended the Acid Cure system of treatment to many of my friends, and in no case has it failed. You are at liberty to give this certificate publication."

Romance has been elegantly defined as the offspring of fiction and love.—*Disraeli*.

True Merit Appreciated.—Brown's BRONCHIAL TROCHES are world-renowned as a simple yet effective remedy for Coughs and Throat Troubles.

In a letter from Hon. Mrs. PERK, Castle Grey, Limerick, Ireland, they are thus referred to:—

"Having brought your 'BRONCHIAL TROCHES' with me when I came to reside here, I found that, after I had given them away to those I considered required them, the poor people will walk for miles to get a few."

At the North Pole there is only one direction—south. One could go south in as many ways as there are points on the compass card, but every one of these ways is south; east and west have vanished. The hour of the day at the pole is a paradoxical conception, for that point is the meeting place of every meridian, and the times of all hold good so that it is any hour one cares to mention. Unpunctuality is hence impossible.

"GRIN LIKE A CHESHIRE CAT."

"Well, well! Didn't ever hear of a 'grin like a Cheshire cat?' Why you see, a man down in Cheshire had a cat which grinned and grinned until there was nothing left of the cat but the grin, just as some scrofulous people, who don't know of Dr. Pierce's Golden Medical Discovery, get a cough, and then cough and cough until there is nothing left of them to erect a monument to but the cough."

The "Golden Medical Discovery" is the most effective, anti-bilious, anti-dyspeptic, strength-giving remedy extant. For weak lungs, lung ring coughs, spitting of blood, scrofula, sores, pimples and ulcers, it is a wonderful and efficacious remedy.

Its manufacturers guarantee it to do all that they claim, or money is returned.

Dr. Pierce's Pellets cure constipation, piles, sick headache, and indigestion, or dyspepsia.

Analysis of a large number of specimens of soda-water in India, make it probable that it is a source of infection, that supplied by one dealer having about 9,000,000 microbes to the pint. Though most of these are harmless, the same means for reaching the water that are open to these are of course open to dangerous ones. The longer the water stands after making, however, the less harmful it is, the gas with which it is charged poisoning the bacteria, and the high pressure due to the warm climate of India probably aiding its action.

Minard's Liniment Cures Garget in Cows.

PERFUMES

THE PERFUME OF SOCIETY.

CRAB-APPLE BLOSSOMS,

AND THE CELEBRATED

CROWN LAVENDER SALTS.

The following are names and titles of a few of the distinguished lovers and users of these famous Perfumes, in England and on the Continent:
