

WHERE THE MARGIN IS...

IF Butter is good when it's made, then keep it good. It pays. That's why we operate the most expensive kind of a cold storage plant to be had for money. Butter comes out of these rooms in the very pink of condition and always brings top prices. We can handle all you've got. We can handle it quick. You get the highest market price and you get the cash. Send it along. Don't trust to poor storage while the weather is hot. Please send us your orders for our celebrated "GRIFFIN BRAND" Hams, Bacon and Lard.
