

Man's Clothing Wants

Call it between seasons if you will, but there isn't a time when some gentleman somewhere doesn't have to add some garment to his wardrobe to have it complete for whatever dress demands may be made upon it. It may be a business suit, it may be an afternoon promenade suit, it may be an evening dress suit, it may be a Tuxedo or dinner coat, or it may be that indispensable top coat, the Chesterfield; or perhaps the luxury of a fur-lined coat. Any and all of these have most particular care which particular gentlemen could insist on in the goods, the style, the faultless making, and other et ceteras necessary in high-class garments to order by HENRY A. TAYLOR, Draper, the Rossin Block, and there's pardonable pride in the mention of the fact that his order books contain the names of the best known gentlemen between the Atlantic and the Pacific.

Mercantile Summary.

It is stated by the Nelson Miner that the Inland Telephone and Telegraph Company has completed its copper metallic circuit between Nelson and San Francisco.

It is stated that the Dominion Coal Company, of Cape Breton, is about to ship coal to South Africa, to be used on Cape Colony railways. The company will also send over one of its locomotive engineers, Mr. Alex. Pushie, to introduce the coal.

ACCORDING to a despatch of Saturday last, the Leroi mine, at Rossland, is finally in the complete possession of the British-American Corporation. At a meeting in Spokane recently, Mr. Mackintosh was elected president, Mr. Durant secretary, and several other B. A. C. officials directors. Mr. Carlyle is in charge of the mine and smelter.

THIS season's business of St. John, as a winter port, began with the arrival of the "Vancouver." This winter trade has increased regularly ever since it began in 1895. Every year has seen more ships and larger ones visit the port than in the year before. Every year has seen some increase and improvement in the terminal equipment also.

THE Hamilton Produce Company, Limited, capital, \$20,000, has been incorporated in Ontario to do a general commission business. Head-quarters Hamilton. Provisional directors: Thos. B. Martin, Chas. S. Scott, Wm. J. Hobson. Supplementary letters patent have been issued, authorizing the increase from \$20,000 to \$100,000 of the capital stock of the Sarnia Salt Company, Limited.

T. GIRARD, Napierville, Que., has been unable to get a compromise settlement, and his estate has been sold, the stock realizing 67½c., and the accounts 64c., very good figures.—E. R. Bellerose has done business at Sorel for some thirteen years, with a poor measure of success. He failed in 1890, and has now again assigned, owing \$1,500.—C. A. Leger, tailor, Lake Megantic, Que., is offering 25 cents in the dollar.

THIS has so far been a prosperous year in the mining history of the province of Nova Scotia—one of great activity in gold and coal mining. 32,919 gold-bearing areas have been taken up under license to search, 2,125 areas taken up under lease, a marked increase over former years. A Halifax journal says that for minerals, other than gold or silver, 166 licenses have already been issued, as against 137 for the previous year.

A LETTER from Montreal tells us of the death in that city on Tuesday last of a rather remarkable man, namely, Archibald Spence, the inventor of the "Daisy" boiler, after an illness of eleven years. Mr. Spence was of an inventive turn and made shrewd use of his knowledge of the principle by which hot water in a furnace rises. His invention of the "Daisy" boiler was taken advantage of by Warden King & Son, who have since made it a household word in Canada.
